VOL. XIII

DESERONTO, ONT., FRIDAY, AUGUST, 2, 1895.

NO. 46

Anything we can do for You?—We address this question to every reader of this paper, whether they live in Kingston or a hundred miles away from it. We are selling Dry Goods—not only dress stuffs—but dry goods of many kinds. Ours is a store of many departments, each of them under the guiding hands of experts in their line. The store is conducted on a modern scale and offers the buyer every inducement any metropolitan concern can offer. There are no goods made that are any better than the lines we carry. There are no prices quoted on first-class stock lower than ours.

Dry Goods by Mail.—We offer out-of-town folks superior advantages for buying by mail. We execute every order entrusted to us promptly, carefully and faithfully. People living many miles away can shop with us as pleasantly and profitably as the people who come to the store.

Send us your orders for anything you may need. State explicitly what you want, and if it is not in our stock we will make every endeavor to get it for you.

106 & 108 PRINCESS STREET, KINGSTON.

We deliver all orders free of postage charges. Send money by P. O. Order or Registered Mail.

Address a Postal Card to

C. B. SCANTLEBURY,
Belleville,
The WALL PAPER KING of Canada.

Then write upon the other side:

Dear Sir,—189
Please send me samples of Wall Paper suitable for
(mention rooms) and not to exceed (mention price) per
single roll. I saw your advertisement in (mention paper).
Yours truly,

YOU will receive by return mail samples of Wall Paper suitable for any kind of a home, and which are positively guaranteed better and lower in price than any other house in Canada. The samples will be large and in sets comprising Wall Paper and Border, and will enable you to make a selection of an entire house as you fit by your own personal and with your friends to assist in the selection.

You have absolutely no responsibility in the matter—your simply write the postal card above and we do all the rest—send your samples enclosing order blank, a guide "How to Paper or Economy in House Decoration," showing how to estimate the quantities required for the different rooms, and directions for ordering, etc. In fact we entirely relieve you of the trouble and anxiety of Wall Paper shopping. We positively Guarantee Satisfaction. Can we say more?

Our Mail Order Department reaches throughout the Dominion. We pay the express charges on all orders of a reasonable size. Full instructions with samples.

C. B. SCANTLEBURY
BELLEVILLE, ONT.
WALL PAPER from 5 cents to \$10 per roll.

Glasgow Warehouse, BELLEVILLE.

All the above goods will be sold at a discount of TEN PER CENT. (10%) until 1st July. Anyone wanting anything in these lines should not miss this sale.

VANDERVOORT & GIBSON, Successors to the late
J. W. Dunnet.
DIRECT IMPORTERS.

If you want the very latest UP TO DATE
PHAEONS, BUGGIES, CARTS AND TRAPS

—Of all kinds go to—

John Finnegan and Son,
BELLEVILLE.

NOTE.—Steel Tubular Axle Wagons.

SHANNONVILLE.

Mrs. A. Findlay & Mrs. Pennick are visiting friends in Deseronto and Picton.

Mrs. Myers was visiting her niece Mrs. Taylor of Belleville last week.

Mrs. Wm. Eadie and daughter Miss Emma returned home on Sunday having spent several weeks visiting friends at Thomaburg and Tweed.

Quarterly service will be held in the Methodist church on Sunday next at 2 o'clock p. m.

FOXBORO.

The recent rains have proved of great benefit to late crops and pasture fields.

Every person is visiting friends or entertaining visitors.

All were pleased with the circus at Belleville.

The North Church people are arranging for an excursion down the bay.

Miss Thresher entertained a large party of young people recently. The arrangements were most complete and all enjoyed a good time.

Chas. Smith, who has a fine position in a Buffalo establishment, has been renewing old associations in Foxboro.

BETHEL.

Another of our old and respected residents gone with the great majority, Mrs. Lois M. She had nearly completed her 93rd year.

Mr. & Mrs. Pike have returned to their home in Suburra, N. Y. They spent a very pleasant time here with friends and visited some of our portions of our country which is far famed for beauty and grand and enchanting scenery. They speak in glowing terms of our lovely country with its beautiful roads, lovely drives, and they think altogether it is one of the best places for tourists to visit.

Miss Nellie Ryan, of Deseronto, and Master Rob. Tennant, of Belleville, are spending their vacation here.

NAPANESE ROAD.

Stewart Bowen is giving his barn a new coat of paint.

The rains of the past week will prove a great benefit to the farmers of the early harvesting season.

Miss Lou Rottler is spending a few days with her sister, Mrs. E. Sagar.

Mr. & Mrs. George Sagar, of Rochester, N. Y., are spending a few days at their boyhood home. Welcome back, George.

Mr. & Mrs. M. S. Madole and daughter, of Napanea, were the guests of his father, George Madole, on Sunday.

The quiet of Hudson Park is again enlivened by the merry laugh and cheerful song of the camper. The old place looks familiar again to the many who have been here.

We now would be glad to welcome our old friend Mr. Lupton and enjoy the services of another old time camp meeting.

William Hudson, Sr., has returned from a visit to his son in Syracuse.

Sam Sagar is home again from New York where he has been visiting his brother of Fair Port.

The Misses Emma and Alma Thompson, accompanied by a couple of lady friends are on a pleasant trip to Montreal on the Alexandria.

MELROSE.

John and Panny Robertson, of Detroit, spent a few days last week with their aunt, Mrs. M. McLellan.

Ferg. McFarlane left for Manitoba on the 23rd last to spend a few months with friends in the prairie province.

Miss Fannie Campbell, of Belleville, is the guest of her cousin, Miss M. Maudslayi.

Mr. & Mrs. A. Simpkins is visiting at Mr. Ed. Simpkins.

Rev. G. McArthur, of Cardinal, spent a few days at the manse last week.

The first dividend for this season of the Melrose Cheese company has just been paid. It amounted realized per standard was seven cents and thirteen cents.

Mrs. John English died last Sunday evening, at the advanced age of sixty-six years. She had poor health for nearly four years, but during the last few months she suffered a great deal and death to her was a relief.

The remains were interred on Tuesday in the private burying ground of the family, the services being conducted by the Rev. Mr. McArthur. A husband and a family of seven survive to mourn the loss of a wife and mother.

TYENDINAGA RESERVE.

Mrs. Levi Sagar of the 2nd concession of Tyendinaga who died on the 27th July, after a brief illness, was buried at Christ church on Sunday afternoon. A large number of persons from that locality attended the funeral.

Andrew Maracle is again on the war path with his threshing machine. He reports the yield of wheat and rye very good; late oats, barley and peas will be above the average.

Your correspondent broke loose and took in the barnum show on Saturday, the first time he has been off the Reserve for two years.

Barnum and Bailey's circus was well patronized, the rain did not prevent the enthusiasm of our people who thoroughly enjoy a menagerie.

We expect to learn of the continued illness of several members of Chief Green's family.

The church wardens of Christ church are soliciting donations to assist them in paying off the debt incurred in building the new service building at the cemetery. They hope that all interested will help.

The Sunday school to be held in the church goes next Wednesday 7th August, will be the event of the season. Everybody is taking it up on a scale to make it a grand success. The children will have their dinner at noon sharp to give them a long afternoon to take part in the many amusements which will be provided.

The Indian agent, the chiefs of the Band, Mrs. Oronchatah and other prominent persons of the Reserve patronized Barnum and Bailey.

Two farmers named Robertson and Aschek, at Renick, 14 miles from Pembroke, arrived at Aschek and his wife to get their cattle to a debilitated state.

He struck the woman with the back of it and falling her to the ground and then severed one of Aschek's arms.

MARYSVILLE.

Misses Mary and Emma White, of Chicono, are spending their holidays with friends here.

The excursion to St. Anne de Beaupre left on Tuesday and among the many pilgrims were Rev. Father Quinn and Miss Quinn.

Mr. and Mrs. P. McAlpine, Mr. and Mrs. John Corrigan, Mrs. Geo. Anderson, Mrs. Charles Scallan, Mr. Lefferty, Mrs. Jones and the Misses Kate Meagher and K. Drummond, and Mr. and Mrs. Denay.

Miss Mary McGown was the guest of Miss Lou Anderson on Sunday.

A number of the villagers attended the Barnum & Bailey circus in Belleville on Saturday.

Miss Jennie Ryan is visiting friends in town this week.

On Sunday last Mr. and Mrs. John Drummond and Mr. and Mrs. J. McHenry, Messrs. Anderson, Ryan and McNeil spent Sunday in Kingston.

J. G. Campbell and Miss Stella spent Saturday in Belleville.

Ed. McNeil, of Dakota, is visiting friends here.

Miss N. Drummond spent a few days in town this week.

Marysville was represented at the Sons of England excursion on Wednesday by a number of pleasure-loving people who thoroughly enjoy a good trip.

NEWBURGH.

The late showers have given a fresh appearance to our country about here, the fields are looking green and the root crop is likely to be good.

Business is rather quiet at present owing to farmers being busy getting off harvest.

M. C. Finkbe is repairing his work shops in general.

E. W. Stickney is getting his shops in good shape for an extensive business.

C. Welbanks will soon be in his new house and store; we understand he intends putting in a stock of hardware in connection with his business.

C. W. Glenn and family spent a few days in Tamworth last week.

Dr. M. Beeman and family are camping at Beaver Lake.

Mr. D. B. Slickney and Mrs. E. W. Slickney left on Saturday for Merrickville, for a few days visit.

The sad news of the death of Mrs. Taylor, wife of Rev. Mr. Taylor, of Merrickville, was received here on Sunday.

The daughter of the late Dr. B. Slickney of this place, reached us on Monday, we are in sympathy with our bereaved friends in having lost so near and dear to all.

Mr. and Mrs. W. H. Scott are spending a few days at Kingston this week.

W. K. Holmes, of Picton, is home on a visit this week and looks hale and hearty.

Miss Manning, of Tamworth, is the guest of Mrs. E. W. Slickney.

Miss Hawkins, of Belleville, is the guest of Rev. Mr. Collicks.

Mr. and Mrs. S. O. Chant left Tuesday to visit friends in Thedford, Ont.

Mr. and Mrs. Clark, of Nanawake, spent Wednesday here on the arrival of Mrs. C. W. Glenn.

D. Scrivener returned home from Syracuse last week.

Dr. Slickner and wife spent a few days in Tamworth, this week.

We are pleased to say Mrs. Martin, wife of Rev. D. M. Martin, who has been seriously ill, is recovering.

Dr. Beeman, and nurse by Miss Bull, of Kingston Hospital.

Don't forget the S. S. Excursion next Tuesday, Aug. 13th to Lake Simcoe, leaving at one hour, and Picton, one and a half hour; all for fifty cents.

ST. MARK'S CHURCH NOTES.

The Journal of the Synod meeting of the Diocese of Ontario has been published. The statistics of the Diocese for the year 1894-5 are interesting, and in the main satisfactory.

The total church population reported in the census of 1st of January 1893. This increase is distributed over most of the diocese.

In the Sunday services there has been a decrease of 1,259 in those who were present, resulting from the very satisfactory circumstance that nearly every congregation in the Diocese has been supplied with the means of grace.

The Diocese numbers 16,384 bona fide communicants, Ontario thus leading every Diocese in the Dominion except Toronto, and in the matter of church population holding the very front rank among all Canadian Dioceses.

The financial result of the execution of Wednesday is the fact that the Sunday school treasury will receive a small contribution, the balance being on the right side.

The regular meeting of the Brotherhood of St. Andrew will be held next Wednesday evening at the residence of the director, Mr. R. W. Lloyd.

WEST END MISSION PICNIC.

The Picnic of the West End Mission School was held on Thursday, 25th inst. The greater number of the picknickers went over on the Deseronto and on and at noon another strong detachment proceeded to Rogers, the place at which the picnic was held.

The picnic was a most successful one, and the school was enjoying themselves in most approved fashion. There were exciting games of football and other sports.

The ladies had been preparing for lunch. There was a splendid spread to which ample justice was done by the hearty assembly.

The teachers of the school were unwearied in their efforts to make things pleasant for the excursionists.

It was with reluctance that the whole party obeyed the whistle of the excursionists.

The excursionists obeyed the whistle of the excursionists and bade good bye to the scene of the day's recreation. After passing through a handsome surprise was left for the benefit of the school.

Mrs. T. S. Hawkins, Chattanooga, Tenn., says: "My little daughter has a very bad case of indigestion. I have tried everything I could find, but nothing has done her any good. I have tried Dr. Williams' Pink Pills for Pale People, and she is now perfectly cured. I can truly say that Dr. Williams' Pink Pills are the best medicine I ever used. For Dyspepsia, Liver or Kidney trouble it excels. Price 75 cts. Sold by W. G. Eggar."

"NEW AND UP TO DATE" STEAMER FOR 1895.

Appreciating the liberal patronage extended to them during the past two years, and realizing the importance of increased passenger and freight capacity, the Cleveland and Buffalo Transit Company have contracted for a mammoth side wheel, steel steamer of the highest grade, containing every known requirement and device for strength and safety, to be completed and ready for service at the opening of navigation 1896.

This steamer will, in size, speed and elegance, by far surpass any steamer of her class ever constructed for the service. In fact, she can justly be termed "the Leviathan of the great lakes."

The hull will be constructed of open heart steel, of the best character known for ship building; a test being made from each plate separately under the most improved methods of inspection, although subject to attacks of it frequently during year previous. Yous, W. DOLLE, Tweed, Dec 25th, 1892.

Her engines will be compound beam type, with a low pressure cylinder, 40 inches diameter, and stroke of 12 feet; with Siciles Valve Gear which will cut off at any point the stroke, and will be in motion.

Also, a pressure feed water heater, of sufficient capacity to condense steam from all of the engines, some 16 in number, thereby heating the water to a very high temperature, before feeding it into the boilers.

For comparison of power, it may be stated, that 6000 people in the service. This will be in addition to the 1000 people who will be in the cylinder to exceed 65 inches, which gives the new ship 50 per cent. more power than the largest side wheel steamer on the lakes.

The boilers will be of cylindrical type, six in number, any four of which will furnish ample steam for all purposes. The Howden Blast Draught System, giving an equal pressure of steam under all conditions, will be applied. The wheels will be of the feathering type, extra strong with steel shafts half of iron.

The saloons will contain an upper and lower tier of 160 commodious state rooms, parlors with bath rooms, lavatories, etc. In addition there will be a number of staterooms in the forward part of the ship, which will greatly augment the sleeping capacity, being thus able to take care of some 600 people in the cabin.

Particular attention will be given to the Social Hall, as that part of the main deck is called where passengers meet and pass the time. This will be finished in beautiful carved hard wood, and decorations in keeping with the main saloon. The purser's and steward's offices will be conveniently located in this part of the ship.

The dining room below the main deck, will be finished in hard wood and decorated with the most elegant appointments. A magnificent staircase from the Social Hall, the kitchen and pantry will occupy a compartment forward of the dining room, complete with every device to enable the Company to maintain its excellent reputation for the service of high class meals on the Great Lakes.

The Electric Light plant will be of the most improved character with a capacity of 1500 lamps together with a search light of immense power. There will be taken in the illuminating features of the ship, and it is safe to say, that she will favorably compare with any first class hotel in this respect.

There will also be a system of electric call bells and fire annunciators in each and every state room, and throughout the ship.

For comparison, only the famous side wheelers of the Fall River line can be cited. As to size, a fair idea of this can be arrived at when it is known that the carrying capacity on the main deck will be 800 tons, and the passenger capacity, under U. S. inspection, 3000.

INDUSTRIOUS DENMARK.

In 1890 the population of the Danish monarch, including nearly 2,400,000. Of this population Denmark proper contained 900,000, Norway about the same number, and Schleswig-Holstein 600,000. Denmark and Schleswig-Holstein, yet her population to date is little less than 2,500,000. During the present century the population of Denmark has risen from 1,000,000 to more than 2,500,000.

In proportion to her population, Denmark is richer than any other country in Europe, and about the best educated in the world. Proportionately the circulation of newspapers is larger in Denmark than in any other country in Europe.

There is a large number of small farms, and about 150,000 of her agricultural laborers own houses and land, and only about 35,000 are tenants.

In 1894 Denmark imported from Denmark 1,102,493 hundred weight of butter and 1,473,570 hundred weight from all other countries. Denmark was exporting more of her butter to Germany than that country prohibited the importation of foreign butter. The Danes at once built co-operating cream establishments, and in three half of the pigs reared in Denmark are "banded and exported to England in the shape of bacon."

Denmark supplies about one fifth of the bacon imported by England, and as an export to the United States. Denmark exports about 100,000 head. Last year she sent 100,000 eggs to the United States. When one agriculturist promptly changed his whole system, and instead of planting unprofitable crops, he turned to the raising of pigs, and threw all his energies into dairy farming, and made it pay. There are comparatively speaking, no poor people in Denmark, and that they always rise to the emergency, and that the Danes, thereby put in their way the more determined they are to overcome it.

To remove worms of all kinds from children or adults Dr. Low's Worm Syrup is a safe and sure remedy.

The best cough cure is Haysard's Pectoral Balsam. It heals the lungs and cures cough and colds.

Shiloh's Cure is sold on a guarantee. It cures insipid consumption. It is the best Cough Cure. Only one cure a dose, 25 cts, 50 cts, and \$1.00. W. G. Eggar.

DOUGLAS' EGYPTIAN LINIMENT

RELIEF OF PAIN IN TWENTY-FOUR HOURS.

Douglas Bro. & Co., Napanea, Ont.

Dear Sir—About two months ago I had a severe attack of Muscular Rheumatism, to cure which I tried several remedies, but without effect. The doctor told me I would be laid up for a week or ten days at least. I had heard of such wonderful cures made by your Douglas' Egyptian Liniment I determined to try it. I did by applying cloths wet with it to parts affected, and in twenty-four hours was entirely relieved of the pain, which has not troubled me since, although subject to attacks of it frequently during year previous. Yous, W. DOLLE, Tweed, Dec 25th, 1892.

METHODIST CHURCH.

Rev. J. Coburn, of Toronto, conducted the services in the Methodist church last Sunday, preaching eloquent and forcible sermons on both occasions. In the evening the sacred edifice could not contain the large assembly.

The various Protestant organizations of the town assembled at their respective halls and marched in procession to attend the evening service.

Rev. R. Taylor will conduct the services next Sunday morning and evening.

The departure of R. Wiseman is greatly regretted by all and especially by the Sunday School. R. Taylor voiced the general regret last Sunday afternoon and bade Mr. Wiseman an affectionate farewell on behalf of the school.

Captain Sweeney, U. S. A., San Diego, Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by W. G. Eggar.

OLD WORLD EVENTS.

The real name of the noted whist critic, "Cambridge," is James Macpherson Howley. He is sixty years of age and his parents were stern Puritans, who never allowed a rack of cards to enter their house.

The new Spanish grammar, Spanish-Canadian, is said to be the most brilliant man in Madrid. The author was the champion of the abolition of slavery in Spain, and its dependencies.

John B. Spurgeon, the English novelist, stands six feet four inches and weighs more than 200 lbs. He has been a writer of romance. He has traveled widely and his first newspaper work was done in Baltimore. He married the daughter of a Philadelphian.

One consequence of the battle of the Yalu is the proposal made in Europe of establishing a navy of ironclad cruisers, each, shall accompany hostile fleets and pick up the crews of vessels sunk in action.

John Bernhardt drew a large audience to a Paris civil court lately, where he was sued for not paying a horse dealer's bill. He said that he always destroyed receipts, but that she had paid this one, and, being asked if she would swear to it, she said "Je le jure," and won her case.

An ambulance cycle has been invented by Berlin doctor. It is a litter resting on two wheels at one end, and attached to an ordinary tricycle at the other, and is propelled by a man. It would be useful in small towns, where a horse ambulance is too expensive, or in the country.

AS YOU LIKE IT.

First American Statesman (New York): "It's me that's thinkin' this do be 'th' nighly fur 'th' ward cause." "I'll have ter be postponed. We can't git a quorum."

"An' why can't we?" "Not 'cause of us is out of jail."—New York Weekly.

"What do all this stuff about woman suffrage mean?" "Little Dem Grogan asks. He said that at his paternal parent from the morning paper. 'It means,' said Mr. Grogan, 'that pretty soon no man will be able to get out of the women.'"

Gipsy (telling and elderly coquette's fortune from the lines of her hand): "I'm sorry to tell the young lady that she will pass through a serious illness in her twentieth year."

Lady: "Good gracious!" (Sighs and gives the gipsy a dollar.)—Pileggi's Blatter.

The new proprietor was inspecting the premises. "What's your name?" "Bumgrader."

"Well, that's what you are."—Chicago Tribune.

"In all my career," said the eminent statesman, "I have never done anything that I am ashamed of."

"You mean," sneered the cynic, "that you have never done anything you were ashamed of?"—Indianapolis Journal.

FARM & GARDEN.

RUNNING A HARVESTER.

It requires the Exercise of Skill and Ingenuity on the Part of the Operator. Of the various machines and implements used on the farm, there is none so delicate and complicated, or requiring the exercise of more skill and ingenuity on the part of the operator, than the self-binding harvester. The standard machines of today have come through and are the result of such a long and thorough course of development and improvement, and manufacturers have followed so closely the same general lines of construction, that one can hardly make a mistake in the selection of a machine so well adapted to stick to the standards. But the man who allows himself to become too enthusiastic over something "new and novel," and favors in machinery which embodies radical changes in principle, is likely to find himself disappointed.

BARELY FORMED BUNDLE.

clips of construction, may expect to soon have an out-of-date machine on his hands. While principles may be correct, a course of development and improvement is required before best results are reached in their application. No matter how perfect a machine may be it will never be an unequal success nor add fresh laurels to its reputation, when it is run by a man without sufficient ingenuity and energy to properly hitch to and operate a clockwork machine. The saying "care makes luck" will apply to running a binder, if to anything. If some little thing gets out of order and the binder begins to "back," it doesn't pay to get in a splutter and make matters worse by changing things at random. The best plan is to keep a cool head and locate the difficulty before remedying it, or even trying to do so. Poor timing is responsible for a deal of fussing in the harvest field. It is nearly impossible to get good, even work with poor uneven time. The best time I ever used was pure manilla; but so much so-called pure manilla is poor manilla that I would just as soon risk a good, even grade of new, white sail. As machines become old they usually prefer a coarser grade of manilla than their younger ones. Good manilla is indispensable. A square wheel is indispensable. No ironed rails can be laid down to govern position of reel for varying kinds of grain. This can be ascertained only by experience.

WELL FORMED BUNDLE.

permenting until best results are secured. The reel should not run parallel with sickle, but the outer end should stand several inches back from the reel, place grain upon platform with butts in advance of heads, as the butts are always retarded by coming in contact with the filling grain. In standing grain, the machine should run about level. It takes but a moment when starting up a grade to tilt the machine forward, and vice versa. It should be so well balanced that the tongue will play on the neck only much of the time. Of course this cannot always be done, particularly with the old five-horse steeplehead machines, but these are back numbers now, and the new, low, sensible ones do not have so much, swinging in mid-air. It is better and more humane to carry the machine on its wheels than on the horses' necks. It should, therefore, be tilted back when the driver leaves his seat; if it stands long the binder may be shifted back also.

Farming on Two Acres.

A noteworthy example of intensive farming is that of Mr. F. J. McKeon Co., Pa., who supports himself, a wife and five children on two acres of land. They have a neat little cottage, and the hard work and time they devote to their little farm is nearly as much as many a family dependent upon shop work. Mr. Segling is a carpenter by trade, and before opening up his little farm he built his house at odd times, while working at his trade. From the first he has recognized the necessity of securing quality of seed, and quantity from his labor and land if he would make it pay. Celery is his specialty and he has marketed as much as 90,000 stalks in a season. He practices rotation which includes grass, usually having nearly enough to keep one horse in hay. He underdresses the soil of getting two crops in one year from the same soil, and his only hindrance has been lack of rain. Now, however, he has bought a boiler and steam pump and has pipes to carry his water supply. Such pluck and energy ought to receive the victor's wreath. Whatever else he lacks he is not lacking in energy, and his territory, and wastes no time and strength traveling poor and large fields. He sometimes uses as much as seventy-five loads of stable manure on half an acre. There is a valuable lesson in this for most farmers who have too much land, use too little manure, and crop at an excessive cost per ton or bushel as a consequence.

THE POTATO FIELD.

How the Work Should Be Done in Order to Produce the Best Results.

Constant and thorough cultivation from the time Irish potatoes are uniformly through the ground, to the time the tops are too large to admit of working among the rows without injury to the plants, has been the general practice of all successful growers of the potato. In a few instances only was the land harrowed or cultivated before the plants were through the ground. In these few the ground was gone over with a smoothing harrow, or light cultivators, for the purpose of checking the growth of weeds. It will be noticed, however, that with the very thorough preparation of the soil between the planting and the brief period between the planting and the first appearance of the potatoes through the earth, except in cases where the soil was unusually weedy from the use of stable manure, no stirring of the ground was necessary before the plants were up. But in every instance as soon as the rows or drills were fairly discernible cultivation began—a very different proceeding from what was formerly the practice of allowing the plants to become large and the weeds to nearly cover them before cultivating or hoeing commences.

While it may be said that the crops in the prize competitions, conducted by the American Agricultural Association, were reared from two to four times—upon an average three times—it may also be said that cultivation was quite continuous throughout the month of June and so far into July as it was possible to work among the rows without injury to the plants. The care of the crop began as soon as the potatoes were fairly up, and from six to sixteen days were given to the work of fining the soil between the rows, hoeing the plants and preventing growth of weeds. The first cultivations were invariably with horse implements generally with shallow culture at first and deeper subsequently although in two instances this method was reversed and the first cultivation was deep the later one shallow. Six inches is regarded as a deep culture, three inches as shallow. As the season advanced and the growth of tops increased the only cultivation on the prize crops was with the hand hoe, great care being taken to in no way bend down, disturb or injure the tops.

Both flat culture and hilling-up were practiced, with no marked predominance of evidence in favor of either system; both gave large yields, both have many advocates, both are employed. Generally, however, level culture is regarded as the better practice. In a very wet season the hilling system may, possibly, give better results. In a dry one, however, the large hills and deep furrows between the rows, allowing what rain does fall to run off rapidly from near the plants, and affording a much larger surface to the drying influence of sun and winds, quickly deprive the plants of the needed moisture. What might be termed the "happy mean" is the method to be most strongly recommended. A slight hilling serves to keep the tubers covered up—using the hilling teeth of the cultivator, run lightly, or the hand rake, and thus the work of digging in the fall is no doubt greatly facilitated, while the ground is kept moist, which in a dry season is an element of considerable importance. The use of these two methods, level culture should be used until the tops have made a growth of six or eight inches, after which the method of hilling-up should be used. The plants by the hand hoe or drill cultivator, with fine teeth, may be performed.

Water in the Pasture.

The secure water tub in the pasture shown in this little picture will not be pushed over by a kick, and will prevent a mischievous animal from drinking about the watering place to drive the younger or weaker stock away. If a light cover is fouling it.

30 Tons of Free Seed Samples.

During the past three months the Experimental Farm hands at Ottawa have been busily engaged sending out samples of seed grain to farmers. To supply the 30,000 samples sent out this spring has required 30 tons of material. The samples have consisted of: Wheat, 3,251; oats, 2,291; barley, 4,629; peas, 2,251; corn, 1,707; potatoes, 4,047. These have been distributed by province as follows: Ontario, 5,814; Quebec, 14,300; New Brunswick, 1,657; Prince Edward Island, 785; Nova Scotia, 2,169; British Columbia, 183; Manitoba, 467; Northwest Territory, 602. With each of these samples a circular has been sent, containing instructions as to the proper use of the seed, and reported on in making these tests. In addition to the three-pound samples referred to, there have been distributed in one-pound bags 960 samples of new varieties of cross-bred wheat, and 1,088 of hybrid barleys. These have been sent to some of the farmers in the different provinces of the Dominion who have made careful reports on former tests, and who take a special interest in experimental work in agriculture.

In the botanical division a distribution of packages of small samples of grasses has been sent out in response to special application, each containing samples of 13 varieties. A further distribution of young forest plants, spruce and willow seedlings, has also been sent out in response to requests received. There have been chiefly to those districts in the Northwest where trees are scarce. A further distribution of useful varieties of grain and young forest trees has also been made this season at each of the branch farms.

Cutworms and Birds.

Where cutworms are unusually pestiferous this season birds seem to be more numerous. The ravens, which are so much in part account for the increase of insect pests. Indeed some species of birds seem to be particularly fond of the places where they were formerly common. The farmer has an important interest in fostering his bird friends.

AN EXPERIMENT IN CORN CULTURE.

Testing the Merits of Shallow and Deep Cultivation.

Under the direction of Prof. F. H. King of the Wisconsin experiment station, Mr. E. C. Herriek, of Wisconsin, conducted an experiment to test the merits of shallow and deep cultivation of corn. The plan of the experiment was to select twelve rows away from the influence of trees or fences, running the full length of the field. These rows were to be divided into plots of four rows each. The first plot was to be cultivated deep, second shallow and third deep. The shallow cultivator was not to run deeper than one inch, and the deep not more than three inches. Corn of the white flat variety, planted May 24 on light sandy loam where potatoes had been the previous crop. The ground was prepared with a disk run so as to lap half, then harrowed with a fine-toothed harrow, marked one way and planted with a Wakefield corn planter in rows 35 feet apart and hills twenty-one inches apart in the row, two and three kernels in a hill. The rows were 80 feet long. The ground was harrowed next day after planting, then Brood's weeder used June 1 and 10. Subsequent dates of cultivation were as follows: June 16, 23; July 3, 10, 21; Aug. 2, 13. The total rainfall during the period was five inches as follows: May 23, 2.26 inches; June 18, 0.135 of an inch; June 17, two inches; June 24, 0.125 of an inch; July 4, 0.125 of an inch; Aug. 10, 0.575 of an inch. The shallow cultivation was done with a Tower cultivator with knives set nearly level, while for the deep culture a fine-toothed Planet Jr. was used. The soil was cut Sept. 8, hauled and weighed, the difference being two and two per cent in favor of shallow cultivation. The land is very hilly, consequently contained a great variety of soils. The plot was selected so as to go over a clay ridge, across a strip of very light sand and down through a hollow where the soil was black muck. On the latter and also on the light soil there was a very marked difference in favor of shallow culture while on the clay there was no difference. During the hottest days the corn did not roll up as much on the shallow plot as on the plot cultivated deep. The yield was thirty-five bushels on the shallow plot per acre and twenty-eight on the deep. Considering the very small amount of rainfall and the light soil, with the mercury up among the 90's most of the time, this yield certainly speaks well for a crop which should occupy a very conspicuous place in the rotation of crops. Shallow culture leaves a much of loose soil to check the evaporation of water from below. It leaves the corn roots free to penetrate three or four feet for water, so that even in the driest time each hill of four stalks may get the twenty-fifths of water needed. As Prof. King points out, the roots of an acre of corn pump up from the same area 300 to 400 tons of water.

IMPROVING CURRANTS.

When a Bush is Neglected the Fruit is Small and Stunted.

Everyone is familiar with the common neglect of currant bushes, often growing in a mass of brush, and frequently treated with entire neglect. Old, overgrown bushes, which have grown into a mass of brush, should be thinned and old

stunted wood pruned out, and enriching with manure and fertilization. Or, often still better, the whole bush may be taken up, divided and replanted. The great point is to give rich, mellow and continuous cultivation. The annexed figure represents the exact measured size of the common red currant—the small bunch from a neglected bush, and the larger from one well cultivated and pruned.—Country Gentleman.

Garden and Orchard.

It is better to expect more for planting that have grown rapidly on very rich soil.

Worms are hanging out the danger signal on the trees of many a pretty village. Don't put off the application of remedies.

Scab is the common black curly spots on and spraying.

Trees sometimes bloom in the spring while the ground is frozen because the air is sufficient to warm to cause growth.

Three thousand dollars are reported to have been taken from one western county, a few years ago, for worthless fruitless trees.

When trees can be protected as easily as they may be by weaving laths and standing them about the tree, nobody should complain of damage done by rabbits in winter.

Growing apples, as a farmer remarks, is more in line with the farmers' general work than is the growing of any other fruit. The work is done with a plow, spade and manure fork.

In planting an orchard, says an orchardist, plant different varieties in close proximity, or better still, crisscross occasionally, to assist and perfect fertilization.

A Wisconsin apple grower said before one of the institutes in that state that a clay soil on well elevated land, where the trees are as close as possible, is the best place for an apple orchard.—Farmers' Voice.

Ben manure is what I use to keep the trees from injuring my cucumbers. Add enough water to make the manure thin, and sprinkle the vines with it. It is not like the lime that they dislike the smell so much that they will leave the vines. I seldom have to apply the mixture more than once. Superphosphate sprinkled around the vines will accomplish the same result, but super must be taken to keep it off the vines as it proves more injurious than the lime.

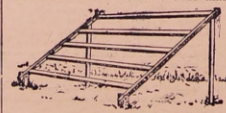

The climate of Mexico is so varied that it is that country can raise any product of the tropics or the polar regions.

HORTICULTURE.

AN IDEA IN TRELLISES.

A Swinging Trellis That May Be Laid Flat in Winter.

The illustration shows how a trellis may be made upon which some tender variety of fruit or flowering vine is to be trained. The difficulty of properly protecting climbers during the winter has often led to the abandonment of many

MOVABLE PLANT TRELLIS. Tender varieties that, given protection in winter, would have proved highly desirable. With such a swinging trellis as that shown herewith tender grapes or other tender climbers may be laid upon the ground and carefully covered during the winter, then placed upright again when the cold weather is passed.

The Apple as a Commercial Crop. Spraying with copper sulphate will not, alone, give an apple crop every year, as some horticulturists seem to think. Apples ordinarily are a full crop on alternate years, because when they do bear the crop is heavy and so exhaustive that the tree takes the following season to recuperate. If the fruit was thinned—leaving only a moderate crop to be matured—and the tree given proper fertilization, a crop could be grown every year. The crying need of the great majority of our orchards to-day, especially those that have been in bearing for a number of years, is potash in some form. There is nothing better than barium sulphate where these can be obtained at fair prices.

In setting out an orchard many points should be taken into consideration, such as the market the fruit is designed for, the varieties which flourish best in the climate, productiveness, keeping qualities, etc. The commonest mistake is that of planting too many varieties. As a rule three or four varieties of established fruiting trees are sufficient. The variety far in market are enough for any commercial orchard and it is often better to grow good judgment to make the list still smaller. Single trees of varieties grown for family use may be added if desired, but it is wiser generally to graft two or three kinds on a single tree to make up this variety, rather than to plant so many trees. We should not be deterred from planting desirable market varieties because they have been badly affected by spraying. It is an antidote for the trouble and a man is worse than foolish to-day who plants apple trees, and proposes to grow fruit without spraying.

The Chinch Bug. The chinch bug is on deck in earnest, though. Stated Entomologist, Forbes of Champaign, Ill., thinks it will not be as serious as last year. He thinks the destruction of chinch bugs by infecting them with a deadly virus is not a wholly upon. Prof. Forbes is right in saying that the chinch bug can be mastered only with labor, money and pluck, but he believes all this is small compared to the value of crops saved. As the bugs move from wheat to corn in June or early July, he advises plowing a strip of corn around the cornfield, working it fine as dust with harrow and brush and running back and forth through the middle a heavy Y-furrow to make a deep furrow with dusty sides up which the bugs will not crawl, but may be collected in holes every twenty feet and killed by kerosene. This strip will not be dry rotting as long as the furrow is kept in repair by close watching, hoe in hand, but a slender line of corn, four rows long, a narrow strip of soil just beyond the furrow will arrest the bugs in wet weather and they may be caught in post holes and destroyed.

Preserving the Old Orchard. If the orchard is worth preserving and caring for, it should not be kept in grass but cultivated frequently, up to about the middle of August. Crimson clover sown from one year to the next, with pasture would be secured in late fall and early spring. Replenish another year and continue the cultivation as the first year. If crimson clover does not succeed in your land and locality you might sow in order to keep the ground well furnished with humus and moisture in dry weather. But if conditions are such that it seems advisable to seed it down, then sow to five quarts of timothy, two of red clover and one of alfalfa per acre. In addition to this it might be well to add about two pounds of clover seed per acre. If the seed is not run together and is friable on the surface, it need not be plowed. Cultivate, harrow and sow the seed as early as possible and roll.—Country Gentleman.

Lack of Success Due to Thoughtlessness. The best way to go into the business of farming is to grow into it—a fixed determination to succeed, and an abundance of muscle well directed by thought. Lack of success comes from thoughtlessness more than from any other cause. The man who is not a diligent reader, and thinker as well as a worker has no place on the farm. Good heads as well as strong backs are needed.

Soil for the Chestnut. A writer in a contemporary, who says he lives on a limestone soil, has been told that the chestnut will not flourish on that type of soil. It has been stated that in many parts of southern New York, and in almost all other states, the chestnut is indigenous on land of that character and flourishes exceedingly abundantly.

Feed the Soil. We must have more faith in the soil. The soil will respond generously if we will but feed it. If we starve it, the soil will starve us in turn.—American Agriculturist.

Woodchucks are easily destroyed by pouring a tablespoonful of "fumus" or bisulphide of carbon on a ball of cotton-batting, and rolling the cotton-batting into a hen's egg, rolling the saturated ball into the hole and closing the hole air-tight with soil. Tug out several after the fumus treatment and found them dead.

GREAT! CESAR! Pain Killer.

Had to Grin and Bear It when he had a pain. You can grin and bear it as well by taking Great Caesar's Pain.

Sold and used everywhere. A whole medicine chest in yourself. Kills every form of neuralgia, rheumatism, toothache, headache, colds, etc. Dose—A teaspoonful in half glass of water or milk (when necessary).

"Hot enough=="

VICTORIA'S TREASURES.

THE RARE CABINETS, CHINA, ETC., AT WINDSOR CASTLE.

Her Majesty's Personal Interest in Her Precious Collection—A Long Series of Royal Relics and Portraits.

Among the many rare and costly relics upon the view only of the special favored visitor, in the private apartment of the royal castle of Windsor, one of the most curious is a carved ivory casket, lined with crimson velvet, and mounted and decorated with enamel and silver. Carved in low relief in the centre is the winged figure, surmounting an altar, with sacred fire. Beneath this is the terse but expressive inscription, "From the Parson's." The casket rests on a plinth, adorned on either side with carved chimerae, with golden wings and crowned heads and bearing superb rubies in the centre of their foreheads. On the carved back of the plinth is the monogram "V. L." and the inscription, "Bombay, 1877." The back also bears the imperial crown.

In the "Large Dining Room" is the most very beautiful but certainly imposing silver-gilt punch-bowl. It was designed by Flaxman and manufactured by Rundell and Bridges for George IV, when Prince of Wales. Its proportions are said to cost £10,000. The bowl which stands in front of the bowl, was made for the present Prince of Wales and is of very pretty design.

Throughout the collection one is constantly noticing rare specimens of clocks of all periods. Here, for instance, is a fine example of Louis Seize work by the celebrated clock-maker, Thomas Tompkins, who was famous for his clock-making. The movements which is in perfect order, requires winding but once a year.

The castle is a magnificent museum of old china, mostly so fine that one stands aghast at the mere thought of its enormous value.

Look for instance, at a set of three vases or "Roses du Barry" Sevres in the theatre corridor. They are simply priceless. The designs in front are beautifully painted anemone in panels, those at the back flowers on a white ground. The central vase is perforated top. The height of the vases is fourteen inches. Old Sevres, even when first made, was extremely expensive, but now can be purchased except by millions. Not many years ago a set of three small jardiniere was sold by auction for £100. The central vase was frequently been sold for 200 guineas (about \$1,000) and a cup and saucer for 150 guineas (about \$750) each. In the "Green Drawing Room" we saw a clock with a movement and wonder at the grand desert service which in 1754, for Louis XVI, and was purchased by George IV. The manufacture took about ten years of the time of the French revolution in the world to complete. The ground is of the light blue, the painting, chiefly blue and gold, is in sylvan landscape, by the most eminent artist of the time. The portraits of the Queen and Prince Consort, which were exhibited in the exhibition of 1851, are very fine examples of modern Sevres work. These are painted in a single slab of porcelain. They are copies of the pictures painted by the artist, and were executed by order of Louis Philippe at the present of her Majesty. They were completed just before the revolution of 1848 and were sent to the British Museum by the French government, but afterward surrendered to Louis Philippe as his private property and presented to her Majesty.

In the "Green Drawing Room" is also a splendid set of four bronze and ornate candlesticks emblematic of the seasons. They are probably

of such work in existence. The designs, the modelling of the figures, and the ornamentation are simply perfect. The work is either of the late Louis Quatorze or Louis Quinze period, when furniture bronzes of the finest class were being made in France. Unfortunately, the artist's name is not known, as they, in common with most of the finest pieces of the period, are unmarked. In the "White Drawing Room," the Sevres cabinet of the Louis Seize period, which was a curiosity, and a masterpiece of the artist's hand. From the elaborate character of its design, and its finished workmanship, it was probably made for a present to a royal personage. It is a large cabinet, and is made of "bleu de Perdre" turquoise. The plaques in the doors have paintings of flowers in various periods of the year. The other drawers have plaques with designs of flowers with turquoise mounts. This is only one of a number of these rare cabinets in the private apartments. They are mostly made by the first of the old French "Ebenistes," such as the world-famous Riesener, Rottmann and the other greats of the Louis Seize period. The glazed bronze work, for design, modelling and finish, has never been equalled. Its sliding also is so good, and so thickly laid on, as to have suffered no injury whatever from age. The same may also be said of the Louis Quatorze cabinet of wood and bronze, which was the work of Andre Boulle (born 1642), also to be seen at Windsor. As some indication of the value of these works, may be named a Louis Quatorze cabinet, which was sold at Sotheby's, which was bought for \$50,000. Similar prices were reached in several instances for other cabinets of the period, at the Hamilton Palace sale some years since.

In the "Grand Corridor," whose 520 feet of length is literally crowded with objects of the greatest interest, one notices a white marble recumbent statue of H. R. H. Prince Elizabeth of Clarence, daughter of William IV., and consequently her apparent to the throne of England. The statue which is

MOST GRACEFULLY DESIGNED to represent a sleeping infant, bears the sculptor's name, W. Boullier, Sc. It was bequeathed to her Majesty by the Queen in 1846. In this statue, the little Princess, was born in 1820 and died in 1821. Consider the momentous consequence involved in the death of such a tiny personage, who, had she lived would have been Queen of England.

In the "Grand Corridor" also stands a remarkable cabinet or chest of drawers of rock crystal and enamel with silver-gilt mounts. The side panels are of finely engraved crystal. The cabinet, which is possibly German work of the seventeenth

century, is surmounted by a silver-gilt group of St. George and the Dragon. But its chief interest arises not so much from its own beauty, which is great, as from the relic which it contains. A thrill of emotion passes through the hearts of spectators when they learn that the Bible of the true soldier of heaven, Gen. Gordon, lies within this. The book is one of the plainest in description, bound in common brown leather, but its much-worn appearance at one's hands that it was in constant use. The sacred and much-prized relic was presented to the Queen after Gordon's death.

The last work of art to be noticed in this wonderful corridor is a charming little bust by W. Bohnes of the Princess Victoria, now her Majesty the Queen, at the age of 10 years. It is of spotted white marble and a perfect gem.

On the subject of pictures in the grand old castle there is no time to dwell. Suffice it to say that all the best of the old masters are most richly represented, both in the state and private apartments. For instance, in the "Vandyke Room" are no less than twenty-two of that great master's finest works, including that wonderful specimen "Charles I. on a gray horse, accompanied by his Master of the Horse, M. de St. Antoine."

THIS MASTERPIECE far exceeds in quality the picture by the same painter of the same subject, which was recently purchased by the nation for \$27,000. Here is also the portrait of Henrietta Maria, mentioned by Pepys in 1665. "I was only pleased at a very fine picture of the Queen's mother, when she was young, by Vandyke; a very good picture and a lovely face." In the Queen's private audience rooms are also some fine Dutch and Flemish pictures, and a woodwork, glass cases containing over two hundred enamel portraits of royal personages, from Henry VII. and Elizabeth of York, to the Queen and Prince Consort, their children and grandchildren. In the "Grand Corridor" are some fine Canaletto, and a beautiful Cornelia Janssen. "The Ball given to Charles II. at the Hague, on his departure to England," full of interesting detail and admirably preserved. Also a series by various masters of artists illustrating notable events during her Majesty's reign, as well as a fine Sir Joshua, "Princess Sophia Malinda," and some superlative Hogharts.

It may not be generally known that the name Windsor is from the Saxon "Windesora," winding banks. Windsor as a royal castle mentioned in Domesday book. King John lay at Windsor during the conference with the Pope. The Round Tower was built by Edward III., and the terraces were made by Queen Elizabeth. Charles II. added the State buildings. Grinling Gibbons carved the beautiful floral festoons in the interior rooms.

The Queen, herself a world-renowned lover of art, takes an extreme interest in her collection, and no alteration can be made without her sanction. So accurate is her memory that even after an absence of months she can, at once, date any alteration in the placing of objects no matter how small.

BROUGHT TO LIGHT. Instances Where Men's Early Lives Have Driven Them From Public Life.

At a general election in England, a candidate personally unknown to the voters of a certain borough was asked by party leaders to stand for it. He belonged to a good family, and was a barrister of promise in London. His path to success was open, and he had belonged to his party. But when he mounted the platform to address the electors, after a sentence or two he suddenly became pale and confused, his eyes fixed on a board opposite on which was scrawled with charcoal, "Forty pounds!" He stumbled through a short speech, and then hurriedly left the stand.

A few days later he rose to speak in another town, and again the mysterious words written in black on the wall confronted him. Again he left the platform, and retired to his room, where he hid himself on a ranch. The words, it was found, referred to a theft committed in his youth, which he supposed had been forgotten.

Alexis Piron, the French poet and satirist, sought for many years to obtain a seat among the Forty Immortals in the French Academy. He was recognized among the poets of his day, and was confident of his ultimate admission, when a vile ode, written when he was a boy, was brought to light, and he knew that the door of the Academy was closed in his face forever.

In both of the political parties of this country there have been instances of men being driven from public life by their early days. In the case of the French Academy, when a vile ode, written when he was a boy, was brought to light, and he knew that the door of the Academy was closed in his face forever.

Navies of the World Compared. Some interesting statistics have been compiled recently concerning the number and the types of war vessels of the leading navies of the world. The tables show that England has at the present time some 45 battleships, 18 coast defenders, and 18 armored cruisers, and 10 torpedo boats. The French navy contains 41 armored vessels built, and 20 authorized building. Russia has 40 such vessels, Germany 32, and Italy 18. These navies have, in addition, many unarmored vessels. The number of war vessels in the service of England, including protected cruisers, or lightly armed cruisers, and torpedo boats, exclusive of torpedo boats, is 119. The comparison between the United States and foreign navies afforded by this table is very significant. At present, the United States has 10 torpedo boats and 3 battleships.

Ex-Prime Minister Stambuloff of Bulgaria, was lately stabbed by assassins who doused his steps in blood.

MARINE MONSTERS FIGHT.

CREW OF THE NORTHERN LIGHT WATCH A GREAT BATTLE.

The Sea Lashed into a Wild Fury—The Engineer Watched a Most Terrific Skirmish and the Vessel Left Them Fighting.

This is a plain, unvarnished yarn of the deep, salt sea, a narrative set forth by eye-witnesses and backed up by an unimpaired entry in the log of the oil-tank steamer Northern Light. Both log and oil-tank arrived at New York together, none the worse for wear, but upon the brows of the seamen who had seen the sight at sea the memory of the wonder rarely fades the shadow of some great trouble.

And there, as far as it is possible to spin this yarn in the lagged English tongue, is what befell these seamen: High and light in ballast, the Northern Light put out from Rotterdam June 21, bound for New York by way of Shields, in England. After replenishing her bunkers at the English port, the oil-tank turned her stubby nose to the westward, and before the day was done was out of sight of land. On July 1 dawned fair and fine. Light skies and weather clear as a bell held through the day, and at four o'clock p. m. Capt. Parson came aboard, "Look at there!"

ENJOY THE BALMY AIR and smoke their long pipes. The ship was then 250 miles west of Rock Hall. Astern the steamer's screw was kicking pleasantly, and she was rapidly feeling of the knots between her and America.

Suddenly the officer on watch started up, "Look at there!" The sea was gray, his binoculars and drew a careful look upon the distant horizon. "Great Scott!" he said, "it sounded different at sea, 'Look at there!'"

Nine knots ahead over the weather how the sea was in a great commotion. Columns of spray dashed high in the air, and two great forms, "whirling like giant snakes" played upon the bottom of the deep. But as the ship drew nearer they saw it was not all play. A battery of binoculars bore upon the two great creatures, and when they were still miles away the seamen gradually made out their true form.

One of the two was a whale, and a monster of all monsters at that. The crew didn't stop to measure it, but they said as well as could that it was 100 feet in length. In this there was safety in numbers. It was writhing furiously, beating the sea into arcs of creamy foam. Leaping lithely to and fro, it was creating a most terrible commotion in its terrible sport. For some time the seamen could not tell what it was. Then, as it threw itself clear from the sea, they saw it was a whale, and a monster known as a grampus. The thrasher is a monster of the sea who commonly has sport with the whale. It is great sport for a grampus, but it is death for the whale.

In the log of the Northern Light they describe the grampus as being EIGHTY FEET IN LENGTH.

This is about fifty feet longer than the largest whale, and the grampus is a cyclops, but it is not a monster. It is a record-breaking grampus. With all this show at hand and not a sign to pay for admission, the officers were justified in changing the steamer's course. And as the Northern Light drew near, the grampus kept on slugging. With its two horns, it was beating the whale right and left, and then leaping its whole length from the sea, it delivered thumping blows on the back of its grumpy combatant. Even when the whale was on its back, the grampus kept on, and when the steamer was close to hand by claimed first blood.

When the whale threw itself in the air, the grampus darted aside and waited until the whale came down. Then it sailed in, delivered a body blow, and backed before the whale could retaliate. "Cataclysmic" water was tossed into the air, and the sea boiled far and near with the conflict. Time passed rapidly, and the grampus, with the clouds of spray, a picturesque yet terrible sight, which brought the chief engineer almost to the verge of tears in sorrow over the loss of his photographic camera aboard. But in place of that he drew a sketch of the strife.

It represents the whale in its unportable position of thumping the whale in the back. They say about the Northern Light that the thrasher, with his enormous fin, was beating the whale right and left, and then leaping its whole length from the sea, it delivered thumping blows on the back of its grumpy combatant. Even when the whale was on its back, the grampus kept on, and when the steamer was close to hand by claimed first blood.

The seamen felt sorry for the whale, but time was money at sea, so the Northern Light bore away on her course, and left the two to fight it out. They kept on fighting yet for some time, and the two were still at it when the steamer left them far astern.

The Art Doctor.

Mrs. A. E. C. Maskell, who probably knows more about the habits of ants than any other living person, unless it should be Sir John Lubbock, relates the following curious story of how she observed a number of ants carrying their king to the grave. They were each accompanied by several attendants, and I knew that they were sick by their emaciated appearance. Indeed, we first imagined that the ant king was being taken to the grave, but they appeared to have another object in view. A grave, strong-looking ant was being carried by a line of ants, and the king of the "physicians." Immediately the afflicted one's head, as though he were trying to effect a cure by the electrical method, he began to wiggle his antennae or feelers. During all this time the sick ant remained perfectly motionless, and the line of ants went through the operation.

"And so one after another came up for treatment, the stream of ants coming and going, and the king ant, when I ceased to make observations."

Begin Army Life Early. Military education is commenced at an early age in the army of many civilized countries. Before the aspirant for military honors is 12 years old he has begun a preliminary course of instruction.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and alluresiveness. Castoria prevents vomiting Sour Curls, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children. D. G. C. O'Connell, Lowell, Mass. "Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup, and other hurtful agents down their throats, thereby sending them to premature graves." Dr. J. F. Kitchener, Conway, Ar. "Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it." UNITED HOSPITAL AND DISPENSARY, Boston, Mass. ALLEN C. SMITH, Pres.

The Centaur Company, 71 Murray Street, New York City.

CURRENT NOTES.

The Japanese, who are fond of pieces of wisdom sharpened to a point, have a proverb, "After victory tighten the helmet." As Admiral Ito, in an address to the normal school a few days ago, said, that is the duty of the Japanese to-day. This was no time for the people to stop and repose on their laurels. Neither, as he reminded the ambitious youth before him, should they depend too much on mere learning; the spirit, he said, was everything. He had himself seen in the field what the Chinese did on the field lay with their back to the foe it was always just the other way with the Japanese soldier slain in battle—he always lay with his face to the front. The same spirit, he insisted, must still characterize the people in every department of life.

But while Japan is triumphant, Japan is not happy. It has unquestionably become one of the powers to be reckoned with the common councils of the leading governments of the world. To have gained this point and secured this recognition, and that in so short a time since their first awakening, is an achievement that is pleasing enough to their national conceit; but their leaders and all their leading journals are keenly alive to the new dangers. They speak as if it were inevitable that must now be foreseen and guard against new enemies. The journals of Japan, many of which are edited with marked ability, are kept under severe censorship to prevent criticism of the government's foreign policy, and are especially allowed to use only the most guarded terms in speaking of Russia, lest some untimely spark fall into the powder magazine and the explosion come before its time.

It is understood that the main part of the Chinese indemnity fund will go to increase the navy. So that even if Russian interference does not precipitate another war our Japanese friends are likely to find that victory in the end may prove almost as costly as defeat. The services Japan just at this most interesting point in its marvelous growth cannot be threatened with the chronic disaster of a European-like militarism cannot be too much deplored.

Another thing which plagues the counsel of Japan and is emitting the counsel of the Japanese behavior of Korea. The king was formally proclaimed the Korean independence, but the queen, who has pledged herself to let political intrigue alone, is reported to be more scheming than ever and to have fallen under the Russian influence. And Boku, minister of home affairs, turning his back on those who had turned his back on the Japanese, is now largely occupied with the representatives of Russia in a way which bodes no good to his own country or to the eastern question generally.

Where He Was.

Guest (angrily)—What has become of that waiter I gave my order to 'most anxious' about a week ago? Head Waiter—I don't know, sir, but most likely he's waiting on some gent wot tipped him, ha, ha.

A Fair Partnership.

Stranger—Boy, there's a dinn museum formerly about here, I understand. Do you know where it is? Boy—Yes, I wish I had a dime to get it.

Stranger—Well, you conduct me to the place, and I'll give you the dime. Boy—Alright, thank you for the partnership. You furnish 'th' capital, an' I furnish 'th' brains.

Almost a Hopeless Case.

A Terrible Cough. No Rest Night nor Day. Given up by Doctors.

A LIFE SAVED BY TAKING

AYER'S CHERRY PECTORAL

"Several years ago, I caught a severe cold, attended with a terrible cough that allowed me no rest, either day or night. The doctors, after working over me to the best of their ability, pronounced my case hopeless, and said they could do no more for me. A friend, learning of my trouble, sent me a bottle of Ayer's Cherry Pectoral, which I began to take, and very soon I was greatly relieved. By the time I had used the bottle, I was completely cured. I have never had much of a cough since that time, and I firmly believe that Ayer's Cherry Pectoral saved my life."—W. H. WARD, Quincy Ave., Lowell, Mass.

Ayer's Cherry Pectoral HIGHEST AWARDS AT WORLD'S FAIR.

Ayer's Pills the Best Family Physic.

TRAIN ROBBERS CAPTURE \$3,000

A Lake Shore Express Car Robbed at the Point of the Pistol Near Watson.

A despatch from Toledo, Ohio, says: Train No. 37, the westbound New York and Chicago express on the Lake Shore & Michigan Southern Railroad, was held up by six masked men at 12.30 on Wednesday morning, at a lonely place in the woods known as Reese siding, between Archibald and Striker, Ohio, ten miles west of Watson. The train stops there to let the eastern express pass. The latter train was approaching when the robbery took place. The robbers were mounted, and rode out of the woods, which are dense and close to the track. Conductor Darling, who was standing near one of the coaches, was ordered inside at the point of a revolver. Admission to the express was secured and the messenger was forced to open the safe. The robbers were evidently entirely familiar with the train, and it is thought, employees of the road or of the express company were implicated either as principals or confederates. It was undoubtedly known to the band that there was a large sum of money in the safe. The amount reported to have been obtained by them is \$3,000, but it is believed that a much larger sum was taken. No attempt was made to molest the passengers, nor was any of the passengers injured. When the thieves had secured the contents of the safe they rode quietly away. The country is being secured.

Two Dishes. Winks (who keeps house)—We had an old-fashioned pot-pie for dinner today. Minks (who keeps house)—We had an old-fashioned chicken.

Karl's Clever Root will purify your blood, clear your complexion, regulate your Bowels and make your head clear as a bell. 25c., 50c., and \$1.00. Sold by W. G. Egar.

When you require glasses and desire properly fitted ones have our Optician test your eyes free of charge before buying glasses at all. It will pay you.

Agents McKee & Co.,
272 Front St.
Belleville.

LOCAL ITEMS.

A number of our sporting men are organizing a gun club.

There will be a meeting of the Mohawk Council next Wednesday.

The Varuna was hauled out at Pictou yesterday to get a new wheel.

Wm. Harvey has moved into Mrs. F. Clement's house, Prince street.

Napanee and Deseronto cricket clubs play a return match at Napanee to-day.

E. W. Scott attended the funeral of the late A. L. Morden at Napanee yesterday.

The man who rocks the cradle is a good fellow. The man who rocks a boat is a fool.

Great numbers of dead shad or menhaden are being washed ashore along Lake Ontario.

W. W. Keat succeeds Robt. Wiseman in the stores and coal department at the General offices.

G. E. Clement is building a house 18x24, with kitchen 12x24 for Miss Mary Geddis, Shannonville.

It only costs 5, 3-5 cents a day to feed each prisoner in Elgin County jail. The diet is good.

The Rathbun Company made a good display of their terra cotta material in the trade procession at Pictou last week.

Commissioner Harvey is macadamizing a portion of West Main street. This work will make a great improvement.

The congregation of Marysville contributed twenty-five dollars to aid the Nationalists in the recent elections in Ireland.

Rev. R. J. Craig and family are spending the summer months on the shores of the beautiful Lake Constance, Switzerland.

G. E. Clement has finished an extension 18x24 and two stories in height to the residence of F. J. Rogers, Green street.

Several thousand men are wanted in the Northwest to assist in harvesting operations. The C. P. R. carries them at nominal rates.

At Belleville on Tuesday thirty factories offered 2065 boxes of white and 110 of colored cheese. Only a few boxes were sold, the price being 7-5-4c.

Division Court will be held at Shannonville on the 27th; at Deseronto on the 28th inst. Now is the time to settle that small bill at THE TRIBUNE office.

The streets committee have not yet taken action in the way of insisting upon residents cutting down burdock and other objectionable weeds in their gardens and yards.

There was a great rush to Bailey & Barne's circus at Belleville last Saturday. The day was wet but the folk enjoyed the circus immensely. It was in all respects up to expectations.

Several improvements and additions have been made of late to the foundry and other works at Glenora. There is a fine new office. These changes have added to the appearance of this popular resort.

Miss Redner desires, through the columns of THE TRIBUNE, to tender her thanks to the people of Lansdale and the surrounding country for their very great kindness during the illness of her father, the late Dr. Redner.

Young men were stealing apples and other fruits in different gardens last week. A threatening shot fired by a resident of North St. George street gave some of them a great fright. They ran like antelopes in all directions.

Marshall Woodcock, was down in Mallorytown Thursday, July 25th. He witnessed a great halibut which broke windows in the oars, and threatened out barley and other grains in a most destructive manner.

O. K. Fraser, Grand President, J. J. Behan, grand trustee, and Dr. E. Ryan, medical examiner, of the C. M. B. A., have been invited to deliver addresses at Father Quinn's picnic at Marysville on Wednesday, 21st inst.

The elections for the British house of commons are now over and the returns show the following strength of parties: Conservatives 338, Liberal-Unionists 73, Liberals 117, McCarthyites 70 and Parliaments 12. The government has thus a majority of 152.

Reports gathered by the Dolgeville Herald relative to the hop crop in the central counties of New York state indicate that the average yield per acre will equal if not exceed that of previous years, but that owing to decreased acreage the aggregate yield will be less than in 1894.

The wheat crop of the Northwest, now ready for the harvest, passes all precedents. Conservative estimates put the yield of Minnesota and the two Dakotas at not less than 140,000,000 bushels, while there are predictions that it will exceed 175,000,000 bushels. It is said that Manitoba will give 35,000,000 bushels.

The members of Deseronto lodge of Oddfellows contemplate holding a big excursion in the near future.

Mrs. E. T. Miller, P.N.G., will represent Deseronto lodge, Daughters of Rebekah, at the meeting of the Grand Lodge in Hamilton on the 13th.

Several St. George street merchants gave detectives in Kingston much assistance in running down two or three pickpockets at the circus last week.

George Brown, carpenter, Newburgh, was struck and instantly killed by a Grand Trunk train, about a mile from Napanee last Tuesday afternoon.

One of the big willows near the locomotive shop, Mill street, collapsed under the pole of Wednesday. There are only two of these old landmarks left now in that locality.

Misses Ethel Vallee and Florence Stuart held a bazar on Tuesday which was well attended by the young folk. Mrs. G. E. Clement secured the quilt. The sum of \$5.95 was realized as a result.

About sixty of the delegates to the Grand Orange lodge visited the Holy Cross Cemetery at Halifax in order to see the grave of the late Premier, Sir J. D. Thompson, and pay a tribute to his memory.

The congregation of the Church of St. Vincent de Paul have wiped off the debt incurred by the purchase of their new cemetery in the short space of three months. The purchase money was one thousand dollars.

J. M. Smith and George Bradshaw with their families are camping out these times at a beautiful spot on the shore of Sophiasburg across the bay. They have made some big catches of fish and have already stored up a big stock of health and energy for future use.

The name of J. Callaghan, of Deseronto, appears in the Belleville newspapers among others who appeared in the police court charged with being drunk and disorderly. It is no doubt an assumed name. John Callaghan, of the Callaghan House, assures us that he was not at all in Belleville last week.

N. Clarke Wallace, M. P., has been re-elected Grand Master, and R. Birmingham, Grand Secretary of the Grand Orange Lodge of British America at its meeting in Halifax. A resolution was passed, only ten objecting, censuring the Dominion government for its stand on the Manitoba school question.

W. J. Geddis has taken his diploma as a graduate in shorthand and typewriting, of the Ontario Business College, Belleville, after a course of only one month and a half. This is quite a record as five months is generally required. It is doubtful if a diploma was ever so quickly secured before at that institution.

Meers, C. E. Lyons, Louis Yeomans, Wm. Campbell and George Campbell sailed down from Massena Park to Deseronto in the Iolanthe in 57 minutes, on Wednesday. The wind blew great guns but they managed their craft with great skill and coolness. They had to lay in port here as the wind kept up ever since.

The municipality of Deseronto enjoys an excellent reputation from a financial standpoint. It is practically free of debt, and all the taxes of former years are paid, a state of affairs not often found in Canada. It is the only municipality in Hastings which is not paying interest on back taxes. It is doubtful if there is another town in Ontario which stands as well in these respects.

The Sunday schools of Christ Church and All Saints will picnic in the Mohawk park opposite grove next Wednesday, August 7th. The schools are in a prosperous condition, the attendance being over ninety. A grand time will be spent at the annual event. There will be games and sports including tug-of-war. There will be refreshment stands on the ground. All are invited.

The burdock is a biennial plant which seeds the second year and then dies. If the seedling is prevented by cutting the plant now or any time before the seeds are formed, there will be an end of it. The quickest way to manage weeds of this kind is to cut them like the wild carrot, mustard, dock, etc., is to mow them early in the summer, and thus prevent seeding, or to cut them two inches below the ground with a spud.

Meers, Allen, Hatch and Stafford went out fishing the other day and caught a large number of fine fish. They left several beauties in the boat house but when they returned to get them all were gone. They are on the war path after the marauders. The boarders at the Deseronto house say they enjoyed some splendid bass for breakfast the other morning. This may serve as a clue.

Rev. A. M. Smith, who filled the pulpit of the Presbyterian church last Sunday, passed some of his boyhood days in Deseronto, being a son of Abijah Smith, of Smithfield, formerly of Deseronto. He passed a very creditable course at Toronto University, and Knox College, Toronto, and subsequently at the Theological Seminary, Auburn, N. Y. He is now pastor of an important congregation at Pittsford, a suburb of Rochester, N. Y. He will again preach in the Presbyterian church next Sunday.

The prolonged depression in business has taught all the necessity of economy. It is evident, however, that many have not yet put into effect their resolutions in this respect. The coming winter, it is generally thought, owing to the depression in the lumber trade, will be of a trying character in many parts of Ontario. Hence the necessity of all taking time by the forelock and thus being prepared. Young folk especially should be prudent and thrifty, regularly placing some of their weekly earnings in the savings bank.

A Close Call.

Douglas Powles and Frank Smith had a narrow escape from drowning, their boat having been upset while out sailing on the bay last Sunday.

Notice.

A meeting of Court Deseronto, No. 93, I. O. F., will be held next Monday evening, Aug 5th, at 8 o'clock. Every member is requested to be present.

Electionary.

The Courier, in an account of a lawn social recently held at Trenton, states that Miss Tottie Hall, daughter of J. M. Hall of Deseronto, recited two pieces in a most masterly manner, with expression, gesture and inflection equal to any professional.

Notwithstanding the absence of the clergymen and others called away on regular duty, a Sunday school of twenty-seven members with Mr. Bowerman, of Napanee, as superintendent, took up the regular lesson at Divinity Camp last Sunday.

Shannonville Fair.

The annual fair of the Tyendinaga Agricultural Society will be held at Shannonville on Saturday, Sept. 28th. This event is always looked forward to with very much interest. The directors will make every effort to make it a great success. All parties wishing information should write to A. McFarlane, Secretary, Melrose.

Forty-Seventh Anniversary.

Tuesday, July 30th, was the forty-seventh anniversary of the ordination of Rev. G. A. Anderson, M. A., the venerable missionary of Tyendinaga Reserve. He was ordained at Hamilton by Bishop Strachan, of Toronto. It is a remarkable fact that he was also baptized and confirmed by the same distinguished prelate.

Cannot be shaped in time.

The granite to be used in the base of the statue to be erected to the memory of the late Sir John A. Macdonald at Kingston, will weigh about thirty-seven tons. It is being quarried at St. George, N. B. The stone will not arrive in the city in time to permit the contractors to have the monument erected so that it can be unveiled on labor day. The ceremony will not take place until October.

Combine Busted.

The combine which has existed between the Napanee bakers has at last been broken and bread is again down to ten cents a loaf. An industrious market square merchant who has been selling the necessary "staff of life" at ten cents a loaf was refused any more to sell at that price, but not to be outdone has since purchased his bread from a Deseronto baker, having the same brought down by stage, and has been enabled to sell it at nine cents.—Napanee Beaver.

Lame Apology.

The good natured editor of the Ontario endeavor in a half hearted way to defend the Belleville police from the imputation of criminal negligence in the management of the Bishop robbery. The article however is self contradictory as it clearly states that they did nothing but give Bishop a little useless advice. The fact is that the Belleville police in this matter did not communicate with Chief Gunyon and made no honest effort to recover the poor stranger's money. An investigation by the proper authorities would show this clearly.

An Old Copy.

A. B. Randall, of Shannonville, clerk of Tyendinaga township, showed us a copy of the General Evening Post, of London, England, which was printed Oct 8th, 1793, and is over one hundred years old. It has been in possession of Mr. Randall's family for over 65 years. The war with the Great Napoleon was then raging and there are many references to military events. The new volume was the first of those old days, as the Post was published by Mary Vent and put by Jane Bow. There is nothing new under the sun. A newspaper stamp is affixed, showing that the objectionable tax was then in existence. It is a valuable old relic of the last century.

Court of Revision.

Judge Fralick held a court of revision in the town hall for the purpose of considering appeals from the town assessment. The principal appeal was that of the Rathbun Co. in reference to the assessment of \$100 per acre on certain farm lands north and west of the town. The company hold that under the act of 1892 these lands could only be assessed as farm lands even though they were within the town limits. Judge Fralick upheld this view and the valuation of the lands was then entered into. Meers, Randall and McGuinness, clerks of Tyen, dinaga and Richmond, produced assessment rolls of their respective townships which showed that lands adjoining were assessed at an average of \$40 per acre. John McCullough of Tyen, Gault gave evidence in reference to the character of the lands, and Mr. McCullough gave estimates on the value of farm lands in this district, showing a great depreciation during the past few years. The judge accordingly reduced the assessment to \$20 for the lands north of the town and \$40 for those west, about 245 acres being affected by this change. The income assessment of Vm. Irvine and A. A. Richardson were also taken up. The gentlemen had appealed because, as they alleged, they and others were singled out for this tax while the assessor had allowed others to escape. The judge said it was unfair to the assessor had done this, but he could do no more than reduce each to \$200 from \$290 as first levied. Several clerical errors on the roll was also corrected. W. H. Biggar, J. H. Madden and Geo. Deroche, barristers, took part in the proceedings.

PERSONALS.

Mrs. Findlay, of London, and Mrs. W. R. Zenick, of Shannonville, spent Monday in Deseronto and Pictou, etc.

Thos. Gibson, of Pictou, was the guest of Robert Geddis, on Monday.

Alex. Weir, of Toronto, was the guest last week of Mr. and Mrs. Wm. McKee, Dundas street.

Mr. and Mrs. John McCullough spent a few days at Massena Park during the past week.

Miss Parry, of Colborne, is the guest of Miss Lowe, Maple avenue.

Mrs. L. Hall, Sr., is visiting friends at Leicester and other parts of Richmond township.

Wm. Allen, of Kingston, was the guest of Mr. and Mrs. Robert Masie over Sunday.

Misses Gertie and Blair Leggett are spending their vacation with friends in Pittsburg; Wm. Leslie, of Northport, spent last Friday in Pictou.

Mr. and Mrs. J. J. Kerr and family arrived home last Saturday after a pleasant sojourn at South Bay, Prince Edward.

Miss Bogart was visiting friends in Napanee last week.

Mrs. Donaldson, Mrs. Hutton and Miss Annie Donaldson, of Pittsburg, were guests of Mrs. L. Hall, Sr., and Mrs. A. B. Leggett, last week.

Mrs. J. R. Booth and family are visiting friends in Cape Vincent.

Mrs. W. B. Graham and children are spending a few weeks visiting her parents in Montreal.

Miss Eva Cook is visiting in Belleville. Mrs. Wm. Young is visiting friends in Tweed, Campbellford, etc.

Mrs. J. Chapman has been visiting friends in Tweed, Campbellford, etc.

Frank Barber has been on the sick list during the past weeks.

Pierce Murphy, of Oswego, is visiting friends and renewing old associations in Deseronto and Tyendinaga.

John Hart and George Callaghan spent Friday in Kingston and took in the circus, Mrs. M. Woodcock was in Belleville last week visiting friends.

Mrs. James Butler was visiting friends in Pictou last week.

Miss Emma Winters, of Oswego, spent Tuesday in Deseronto.

Miss Gertrude Davis arrived home on Tuesday by the Resolute after a pleasant visit with friends in Poughkeepsie, New York and Oswego.

JUST A WORD!

About our new Gang Plow. We have the only gang that will turn straight, pull land, and turn a furrow as well as any walking plow. We sold over 100 of these plows last year, and nearly every man to whom we sold has some other gang plow which he threw aside after trying ours. Don't wait for our agent to call. Drop us a line, and we will send you a plow, and after you have tried it, if you can afford to let it go off your farm, we will take it back free of charge to you.

See our last week's advt. in the paper for the reason that we are selling all our goods at slaughter prices. It will pay you to read and act on our last week's advt. We did a rushing trade last week at our reduced prices. This sale will continue until everything is cleared out.

H. FOWELL, Belleville.

Our Store will be closed every Friday afternoon during July and August.

IN THE MATTER OF A. C. BARNETT of the Town of Deseronto, in the County of Hastings, Merchant, an Insolvent.

NOTICE is hereby given that the above named A. C. Barnett has made an assignment to me for the benefit of his creditors under the provisions of the Revised Statutes of Ontario, Chapter 124, and amending Acts. All Creditors of the said Estate are required to file their claims (duly proven, as required by the said Act) with me on or before the 28th day of August next, after which date I will proceed to distribute the assets among the creditors entitled thereto, having regard to the claims only of those who have filed their claims with me. I shall then have had notice. And Notice is hereby given that a meeting of the Creditors of the said Estate will be held on the 7th day of August, 1895, at the hour of Two o'clock in the afternoon, for the appointment of Inspectors and the giving of instructions with reference to the disposal of the said Estate.

G. M. WILSON, Assignee.

TEMPERANCE TIDINGS.

The school board of St. Joseph, Mo., has voted to expel any boy who smokes cigars.

An exchange estimates that for every rich brewer, distiller or saloonkeeper in the land there are at least two hundred paupers.

The drink bill in most London hospitals is said to be much less than it used to be. So much for the influence of the Temperance Union.

The Anti-Cigarette League of New York city now numbers 40,000 public school boys, and has been established in all the ninety-five grammar schools of the city.

The foreman of the work on a tunnel near English, Ind., has forbidden the use of intoxicants, and is telling of serious stories by his men while engaged in their dangerous work.

The Knights of Pythias of Elwood, Ill., have taken steps to expel all saloon keepers from membership, in accordance with a decree passed by the recent session of the supreme lodge.

There was deep pathos in the remark of a laborer's wife in Cleveland, O., to her pastor in regard to her husband: "I think we could pull John through if it weren't for Sunday."

Out of 2,782 ministers in the Congregational society of England and Wales upward of 22,160 are total abstainers.

With but few exceptions, all the ministers in Scotland and Ireland are also abstemious.

Mr. Murphy's temperance work at Lewiston, Me., has continued with marked success. More than three thousand persons signed a pledge.

There is no more in the country has Mr. Murphy accomplished so much in so short a time.

INTERESTING BITS.

Paris has a warehouse the floors of which are of thick glass.

In a pack of cards there are 635,019,550,600 different white hands.

The wearing of corsets by men is not uncommon in the Irish metropolis.

The best brier wood for pipes comes from the borders of Italy and France.

The tallest people in the world are the Patagonians; the shortest are the Lilliputians.

Dyspepsia has found much relief by eating six apples a day—two after each meal.

Corks, when first taken from the mine, are so soft that they can be picked to pieces by the finger-nail.

The telephone lines of the world aggregate 1,069,123 miles. America has more than half of the total.

It has been proved, in Boston, that cats convey diphtheria from house to house, by frequenting sickrooms.

In the last century year, Russia has spent \$177,000,000 in warfare, and 694,000 Russian soldiers have lost their lives.

Boston is to have a \$3,000,000 hotel, with 330 rooms. The proposition is that it will be the largest in the world.

Eggs contain everything that is necessary to support human life, in the proper proportions, and in palatable form.

PRESS PROVERBS.

A bold head is soon shaven.

The ideal husband is still a bachelor.

The strongest influence is always exerted at short range.

Justice is higher than law, in that it is retroactive.

It is always difficult to draw the line between weakness and willingness.

The unmarried woman is always in danger of becoming a youthful prodigy.

A man may do good work in the world and still continue to say, "I don't do it."

Everything that goes out with the tide doesn't come back with it.

A woman is never too old to marry; but she is sometimes too old to be asked.

Even if a man could read his own obituary it isn't likely he would recognize it.

Two wrongs do not make a right, but they often compound about the same effect.

Too many people are in the habit of using the conscience of others instead of their own.—Chicago News.

A hearty vote of thanks was accorded the lecturer and chairman, and before separating, Charles S. Thompson, third son of Mr. Coburn, which, it is unnecessary to state, were given with a will. It was evident that the youthful looking lecturer had the sympathy of his audience who manifested their pleasure and agreement by frequent bursts of applause.

AT REDUCED PRICE.

I will sell at reduced prices to clear out the Mowers, Reapers, Rakes, Flows and Churns that I have on hand, to make room for fall and winter goods that are coming in. Secure a bargain while you can. Miles S. Plumley, Napanea.

Rev. J. Coburn, of Toronto, lectured in the opera house on Tuesday evening taking as his subject Popery and Partisanship, the cause of Canada. There was a very large attendance the whole house being packed in every nook and corner. Allen Oliver, lecturer of Kingston, presided in a neat and humorous speech introduced the lecturer of the evening, saying that several had tried to dissuade him from having been a member of an Orange lodge for twenty years, and when he believed he was right, he was ever ready to let his colors to the mast and go ahead.

Rev. J. Coburn, after thanking the chairman for his kind words of introduction, proceeded to say that it would seem superfluous for one so young as himself to stand up and attack two such venerable institutions as Popery and Partisanship, recent events had aroused public opinion and it was the duty of every man to be ready to give his reasons on matters of great public import. While attacking Popery he wished it to be understood that he was not attacking any Romanist personally; on the contrary he had nothing but feelings of pity and kindness towards the dupes of that system. He then proceeded to state different charges against the Roman Catholic church. His first was, that it tended to degrade a large percentage of the womanhood of this country and in this connection he denounced the confessional. All people, it mattered not what their nationality, who maintained the confessional were guilty of the same crime. He then stated that the confessional was necessary and that the priests of Canada were not infrequently more intelligent than Canadians. He maintained that there were societies in the Church of Rome whose only object was for immoral purposes. Dr. Felt's book would prove that assertion. His second charge was that the school system of the Roman Catholic Church was infamous in its character. Many people assert that Orangemen and the P.P.A. were persecuting the Papists. Rather was it that the Roman hierarchy were the enemies of their own people. He quoted from leading bishops of that church in order to show their views on this question. The provincial school he maintained, bred crime and illiteracy and statistics were presented comparing different Roman Catholic and Protestant countries in this respect. His third charge was the Rome breeds treason, that a man cannot be a faithful member of that church and a good subject of the government at the same time. A man belonging to the church was not fit to be premier of this dominion. He said that the Pope claimed the power of releasing men from allegiance to their sovereigns, to absolve from oaths, and from allegiance. Such a church should not be entrusted with the education of the children of the country. These people would say in opposition that Rome was changed, but its principles as enunciated by the present Pope and bishops were the same as formerly. He hoped his country would not stand by and see the Dominion government enforce separate schools on Manitoba.

Coming to Partisanship, he accused the two great parties in this country as being guilty of trucking for votes to the Roman Catholic church and the liquor interest. Only twice had the two parties voted together on great questions of principle. The first of these was when the Dominion Parliament voted sympathy with the moonlighters, ex-convicts, etc., who were given the right to appear in Ireland. The late John White was an honorable exception, but the others, both Papists and Orangemen, as it was on the eve of a general election, voted for the resolution. The second time both parties had voted together was on the occasion of the Jesuits Estates Bill. It took the resolution of Christ to better the world. Plate together. He himself had no political leanings. Both parties were alike guilty of pandering for the Roman vote. He then stated that he believed the Province, and they justified their votes on the Estates Bill on that ground, but in 1872, on the occasion of the New Brunswick School Bill they acted quite differently. Why do not Laurier and the Reform party stand up now for Greenway, their brother Reformer, when the hierarchy are so ready to enforce a separate school system on Manitoba. The fact was that they were afraid of the Roman Catholic vote. People voted for certain parties because they had some idea of what was a silly state of things which had done so, a silly state of things which had done so, a silly state of things which had done so. The true question was the great issue, it was as after the vote of the people. Great Britain was prosperous under free trade while France and Germany prospered under protection. That issue faded away when compared with the deliverance of this country from Rome and whiskey. The Mowat government was also subservient to the Church of Rome. He then stated the case of the Roman Catholic vote in the use of the Separate school act. And what has the Conservative party ever done for the Roman Catholic vote? Had it stood up for Protestantism and checked the aggression of the hierarchy—never in all its history. Premier, Bowman, had no more to say. Grand old party resolutions commending him as a faithful brother. Yes, he was always faithful to dual languages, to Romanism, to the Pope, to Edward Blake and the Orangemen, Howell kept his seat, was renounced, Howell kept his seat, was renounced or liked the vote. Why did he stand up like John White? And now when as premier, he presides at the meeting of the government, he allows the advocates of common schools to be brow beaten by their opponents. Common sense showed that there was no need for the remedial school movement to act upon the remedial school movement.

What is the cure? In the past people had been excited as they were to do, had passed resolutions and voted for them, but when election day came they were again in the traces and voted for the old parties. What was needed was a solid vote. It was all well, but it was too slow for Popery. It was necessary for men of both parties to unite, and to drive the Roman Catholic vote out of the country from Romanism and whiskey.

A hearty vote of thanks was accorded the lecturer and chairman, and before separating, Charles S. Thompson, third son of Mr. Coburn, which, it is unnecessary to state, were given with a will. It was evident that the youthful looking lecturer had the sympathy of his audience who manifested their pleasure and agreement by frequent bursts of applause.

AT REDUCED PRICE.

I will sell at reduced prices to clear out the Mowers, Reapers, Rakes, Flows and Churns that I have on hand, to make room for fall and winter goods that are coming in. Secure a bargain while you can. Miles S. Plumley, Napanea.

Rev. J. Coburn, of Toronto, lectured in the opera house on Tuesday evening taking as his subject Popery and Partisanship, the cause of Canada. There was a very large attendance the whole house being packed in every nook and corner. Allen Oliver, lecturer of Kingston, presided in a neat and humorous speech introduced the lecturer of the evening, saying that several had tried to dissuade him from having been a member of an Orange lodge for twenty years, and when he believed he was right, he was ever ready to let his colors to the mast and go ahead.

Rev. J. Coburn, after thanking the chairman for his kind words of introduction, proceeded to say that it would seem superfluous for one so young as himself to stand up and attack two such venerable institutions as Popery and Partisanship, recent events had aroused public opinion and it was the duty of every man to be ready to give his reasons on matters of great public import. While attacking Popery he wished it to be understood that he was not attacking any Romanist personally; on the contrary he had nothing but feelings of pity and kindness towards the dupes of that system. He then proceeded to state different charges against the Roman Catholic church. His first was, that it tended to degrade a large percentage of the womanhood of this country and in this connection he denounced the confessional. All people, it mattered not what their nationality, who maintained the confessional were guilty of the same crime. He then stated that the confessional was necessary and that the priests of Canada were not infrequently more intelligent than Canadians. He maintained that there were societies in the Church of Rome whose only object was for immoral purposes. Dr. Felt's book would prove that assertion. His second charge was that the school system of the Roman Catholic Church was infamous in its character. Many people assert that Orangemen and the P.P.A. were persecuting the Papists. Rather was it that the Roman hierarchy were the enemies of their own people. He quoted from leading bishops of that church in order to show their views on this question. The provincial school he maintained, bred crime and illiteracy and statistics were presented comparing different Roman Catholic and Protestant countries in this respect. His third charge was the Rome breeds treason, that a man cannot be a faithful member of that church and a good subject of the government at the same time. A man belonging to the church was not fit to be premier of this dominion. He said that the Pope claimed the power of releasing men from allegiance to their sovereigns, to absolve from oaths, and from allegiance. Such a church should not be entrusted with the education of the children of the country. These people would say in opposition that Rome was changed, but its principles as enunciated by the present Pope and bishops were the same as formerly. He hoped his country would not stand by and see the Dominion government enforce separate schools on Manitoba.

Coming to Partisanship, he accused the two great parties in this country as being guilty of trucking for votes to the Roman Catholic church and the liquor interest. Only twice had the two parties voted together on great questions of principle. The first of these was when the Dominion Parliament voted sympathy with the moonlighters, ex-convicts, etc., who were given the right to appear in Ireland. The late John White was an honorable exception, but the others, both Papists and Orangemen, as it was on the eve of a general election, voted for the resolution. The second time both parties had voted together was on the occasion of the Jesuits Estates Bill. It took the resolution of Christ to better the world. Plate together. He himself had no political leanings. Both parties were alike guilty of pandering for the Roman vote. He then stated that he believed the Province, and they justified their votes on the Estates Bill on that ground, but in 1872, on the occasion of the New Brunswick School Bill they acted quite differently. Why do not Laurier and the Reform party stand up now for Greenway, their brother Reformer, when the hierarchy are so ready to enforce a separate school system on Manitoba. The fact was that they were afraid of the Roman Catholic vote. People voted for certain parties because they had some idea of what was a silly state of things which had done so, a silly state of things which had done so, a silly state of things which had done so. The true question was the great issue, it was as after the vote of the people. Great Britain was prosperous under free trade while France and Germany prospered under protection. That issue faded away when compared with the deliverance of this country from Rome and whiskey. The Mowat government was also subservient to the Church of Rome. He then stated the case of the Roman Catholic vote in the use of the Separate school act. And what has the Conservative party ever done for the Roman Catholic vote? Had it stood up for Protestantism and checked the aggression of the hierarchy—never in all its history. Premier, Bowman, had no more to say. Grand old party resolutions commending him as a faithful brother. Yes, he was always faithful to dual languages, to Romanism, to the Pope, to Edward Blake and the Orangemen, Howell kept his seat, was renounced, Howell kept his seat, was renounced or liked the vote. Why did he stand up like John White? And now when as premier, he presides at the meeting of the government, he allows the advocates of common schools to be brow beaten by their opponents. STEAMER "VARUNA."

Leave Trenton 7.00 a.m.
Belleville 8.30
Deseronto 10.20
And all intermediate points.
Arriving Pictou 12.00 noon.

Leave Pictou 1.00 p.m.
Deseronto 2.30
Belleville 4.30
Trenton 6.00

Connecting at Pictou with Stage for Sand Banks; at Trenton with steamer Iona for Oswego and Syracuse, N. Y.

Lake Ontario & Bay of Quinte

SEAMBOAT CO., LTD.

STR. NORTH KING.

Weekly Bay of Quinte and 1,000 Island Route.

SAILING EAST—EVERY SATURDAY.

July and August

Leave Charlotte (Port of Rochester) 4.25 p.m.
Brighton, Sunday 12.30 a.m.
Sand Bridge, Trent 1.30
Belleville, Sunday 3.10
Deseronto 4.40
Glennora 6.40

Leave Deseronto (Port of Rochester) 5.00
Brighton 7.10
Sand Bridge, Trent 8.30
Alexandria Bay 11.30

SAILING WEST—EVERY SUNDAY.

Leave Alexandria Bay, Sunday 7.00 a.m.
Ridgeway 8.30
Belleville 9.30
Deseronto 10.30
Glennora 11.30

Weekdays, Steamer runs between Charlotte, N. Y., and Port Hope and Cobourg.

Further particulars, apply to—
CAPT. JARRELL, on Board.

SUMMER TIME TABLE.

Taking Effect May 1st, 1895.

Steamers will run as follows daily except Sundays—

Steamer "ELLA ROSS,"
(D. B. Christie, Master).

Pictou to Deseronto, Belleville & Trenton.

Leave Pictou 6.00 a.m. 9.30 p.m.
Belleville 7.00 10.30
Deseronto 7.55 11.25
Trenton 8.45 12.15

Leave Deseronto to Pictou, Belleville & Trenton.

Leave Deseronto 6.00 a.m. 9.30 p.m.
Belleville 7.00 10.30
Deseronto 7.55 11.25
Trenton 8.45 12.15

Leave Trenton to Pictou, Belleville & Deseronto.

Leave Trenton 1.00 p.m. 4.30 p.m.
Belleville 2.00 5.30
Deseronto 2.55 6.25
Trenton 3.45 7.15

Leave Deseronto to Pictou, Belleville & Trenton.

Leave Deseronto 6.00 a.m. 9.30 p.m.
Belleville 7.00 10.30
Deseronto 7.55 11.25
Trenton 8.45 12.15

Leave Trenton to Pictou, Belleville & Deseronto.

Leave Trenton 1.00 p.m. 4.30 p.m.
Belleville 2.00 5.30
Deseronto 2.55 6.25
Trenton 3.45 7.15

Close connection with G. T. R. trains for all points East and West.

Call for tickets reading "Via Deseronto."

Steamer "DESERONTO."
(Wm. Skillen, Master).

Napane and Deseronto to Pictou.

Leave Napane 6.00 a.m. 9.30 p.m.
Deseronto 7.00 10.30
Pictou 8.00 11.30

Leave Pictou to Napane and Deseronto.

Leave Pictou 1.00 p.m. 4.30 p.m.
Deseronto 2.00 5.30
Napane 3.00 6.30

Close connection with G. T. R. trains for all points East and West.

LAKE ONTARIO PORTS.

Steamer "RESOLUTE,"
John Gough, Master.

Steamer "RELIANCE,"
John Gough, Master.

These Steamers sail regularly between Deseronto to Oswego. For further particulars apply to
G. A. BROWNE, R. C. CARTER,
Gen. Traffic Agents, Deseronto, Ont.

Subject to change.

NAVIGATION.

WE WILL, Doubtless see more of our friends from Deseronto now that navigation is open again.

We want your patronage and will do our best to please you.

OUR ICE CREAM parlors are open for the season.

WE KNOW YOU KNOW Gough's Soda and Ice Cream, and that's why we have the patronage of Deseronto's best when they are in town.

Ed. F. DICKENS,
SUCCESSOR TO H. C. DICKENS & SON,
Belleville.

FOR OVER FIFTY YEARS.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. It is a safe and reliable remedy for all the troubles of teething, and is the only one that is so effective. It is a safe and reliable remedy for all the troubles of teething, and is the only one that is so effective. It is a safe and reliable remedy for all the troubles of teething, and is the only one that is so effective.

TROUT CULTURE ON THE FARM.

Even on a Small Scale It is a Source of Continental Delight.

The culture of brook trout, even on a small scale, is a source of continual delight, and with pure running water at hand anyone who has carefully observed the habits and requirements of this fish can successfully raise them. If a stream crosses the farm the pond should not be made directly in the water, but a flat that may be overflowed. The best method is to dig a reservoir out of the side of some slope rising from the stream, and then carry the water to it by an open feeder, high enough up its source to permit of a gentle, easy flow, as seen in the accompanying sketch. This feeder must be a deep, narrow ditch, with soft banks, and protected at both its ingress and egress by a willow or other brush, so that it need not be more than four or five feet deep in the centre, sloping to a shallow edge at the circumference. Break up the ground with a plow, and then use a common road scraper in moving the earth to the lowest side. Repeating this operation, a circular or oblong excavation is made, with strong earth banks. Then place four rocks on the bottom, each as large as a half-bushel measure, letting them be far enough apart to be covered by a large, flat stone, under which the fish may hide. One such cover is sufficient for a pond of two or three square rods in extent, while several should be provided in larger ponds. If possible make a cold spring tributary to the pond, or if practicable use the pond around it, utilizing the fountain head for the water supply. Trout will succeed best in cold spring water, but common creek water, if pure, will serve the purpose. Spread sand and gravel over a portion of the pond bed, but leave some of it with earth. The slope surrounding the pond should be kept in grass, so that rains will not wash dirt into the water. A neat gravel walk should be made around the pond, and shade trees planted about it will serve to keep the water cool.

When angling for trout in the brooks it will be noticed that more than half of the fish caught are so little injured by the hook that they will live if immediately placed in fresh water. Carry a large pail, and by frequently changing the water two-thirds of the catch may be saved for stocking the fish pond. A slower way is to obtain the young fry from a fish hatchery. Very young trout can be fed on boiled eggs chopped fine, and larger ones on fresh beef cut into small pieces. Other scraps that the fish will eat, and which will not pollute the water, may be given them. They should be fed at least once a day, and in the cool of the evening they will frequently leap from the water to the flies, mainly at the food that is thrown to them.

Trout spawn in September and October, and it is well to take the screen away from the spawning place, and in the fall, that the female fish may be encouraged to lay their eggs there.

Danger From Milk.

The Massachusetts society for the promotion of agriculture has recently published in book form the results of its thorough investigation as to the infectiousness of milk from tuberculous cows. The object was to determine, especially, whether the infectious element of tuberculosis ever existed in milk from tuberculous cows whose udders were apparently healthy. Some of the results, briefly, are as follows: Eighty-eight guinea pigs were inoculated with milk from fifteen cows; tuberculosis was found in twelve of the pigs, after raising milk from six different cows. Ninety-five rabbits were inoculated and six of them found with tuberculosis. Milk of tuberculous cows were fed to forty-eight rabbits and two showed tuberculosis. Twelve pigs, were fed on the milk and five produced positive results, with suspicion in two others. Twenty-one calves produced eight with tuberculosis. Circular letters were sent out to physicians and veterinary surgeons, asking whether they had ever seen a case of tuberculosis that could be traced to the milk supply. Answers were received from 961, of which forty-eight had seen or suspected the existence of such cases. This is less than six per cent, which the trustees regard as remarkably small. The conclusions of the report are as follows:

1. While the transmission of tuberculosis by milk is probably not the most important means by which the disease is propagated, it is something to be guarded against most carefully.
2. The possibility of milk from tuberculous udders containing the infectious element is undeniable.
3. With the evidence here presented, it is equally undeniable that milk from diseased cows will spread the disease to the udder may, and not infrequently does, contain the bacillus of the disease. This is less than six per cent, which the trustees regard as remarkably small. The conclusions of the report are as follows:

SECTION OF TROUT POND.

PLEASURES AND SPORTS.

Charles Francis Adams, famous and dignified publicist, scoffing along on a bicycle is one of the sights of Boston.

Although Librarian Bowdler is called an old man he rides a thoroughbred every day in the streets of Washington, and delights in the exercise.

Str. Edward Braden, a new authority on big game in India, says that the elephant is a more dangerous animal than a lion, and with a few exceptions, an ardent aviator.

Recently Prince de Sagan was allowed to turn a part of Bois de Boulogne into a bicycle track for a private club, when he had over three hundred trees cut down without permission.

Two men given for the falling off in the receipts of Monte Carlo are the financial stringency in the United States and Italy. The nations that sport most money at the tables—and the rise of Cairo as a winter resort.

Two Englishmen recently crossed the channel for Dover to catch a tandem "cycle" boat, doing thirty miles in seven hours and fifteen minutes. The water was as smooth as a mill pond. The boat was light and has paddle wheels on either side, which are worked by pedals.

Two Paris, 9000 miles, this year, Herr Genger, an Austrian, came in first of the amateurs in twenty-four hours and 124 minutes. The professional, C. Meyer, a Dane, came in in 35 1/2 hours. There were sixty-five entries, of whom twenty were foreigners.

FOREIGN SCRAPES.

Water-pipes in Russia rarely freeze, because they are laid below the frost line.

A license is required in England to sell ginger beer after ten o'clock at night.

The very poor of Berlin are better housed than those of any other large city in the world. The German capital is really without "slums."

The natives of Sumatra have a visiting card consisting of a piece of wood about a foot long, decorated with a bunch of straw and a knife.

The natives of Northern Alaska and Siberia have no knowledge of money, and tourists to that country have to exchange the same into barter goods.

The metrical system was made obligatory in Turkey from March 1, all use of the old weights and measures having been forbidden after that date.

Russian journals are still in mourning for the czar. They will continue to surround their front page with a border of black until a czar shall have clasped from the date of his death.

During the present century Vesuvius has displayed its restlessness by having thirty eruptions. The most disastrous recorded in history is that of A. D. 79, when the two cities of Herculaneum and Pompeii were destroyed, entailing the loss of 300,000 persons.

BRITISH.

The shortest sign in Chicago: Dr. N. R.

The bubbles in champagne are caused by the liquid carbonic acid evolving into carbonic acid gas.

The skeleton of an average whale is said to weigh no less than 50,000 pounds. This is not a fish story. The whale is not a fish.

It is said that at present there are more than one hundred callings, occupations and professions open to a young man, and the list is constantly increasing.

A place of glass lodged in the eye of Oliver Snyder, of Harrington, Ind., three years ago. There it remained until the other year, when a doctor removed it.

It is reported that at some of the markets in Minnesota wheat five and six years old has been brought in by farmers, the owners saying they would hold all intermediate crops.

There is a man in Hammond, Ill., who believes in advertising. He has this notice in one of the street cars: "J. N. Blank, justice of the peace. Marriage ceremonies performed on short notice."

A SIDE DISH OF SCIENCE.

Ceres, the first of the asteroids to be discovered, was found on the first day of the present century. Its mean distance from the sun is about 257,000 miles.

Dr. Hirschfeld, the archaeologist, who conducted the German excavations at Olympia, died recently at Welsbaden at the age of forty-eight. He was professor of archaeology at the University of Konigsberg.

An eminent astronomer estimates that if the so-called canals in the planet Mars are artificial, they must have demanded the labor of two hundred million men through one thousand years. To change a pound of ice at thirty-two degrees Fahrenheit into a pound of water at thirty-two degrees Fahrenheit requires 142 heat units, or 142 times as much heat as is required to raise the temperature of a pound of water one degree Fahrenheit.

THE FAR EAST.

Paper straws, in varied hues, are worn in China.

Japan has a written history extending over 2,500 years.

The most important artificial waterway course in the Imperial canal of China is 4100 miles in length. Its construction occupied 600 years.

The carrier pigeon was in use by the state department of the Ottoman empire as early as the fourteenth century. Lillo says that a dispatch was carried from Bagdad to Aleppo, thirty days' journey on horses, in forty-eight hours.

FEMININE ARISTOCRACY.

Lady Wilde is said to be dying of a broken heart and her friends in London growl at her for her son's agita.

Lady Sutton, the widow of Sir Richard Sutton, who tried to win the America's Cup with the Gem, is going to marry again, accurate this time.

The Empress of Japan is so liberal in her alms-giving that, it is related, if it were not for the care of the throne of the exchequer her private allowance would all be given in this direction before the end of the first week of the first quarter.

OUR COMMON MEDICINES.

Glycerine was discovered by Scheele in 1789. He considered it a soothing principle of every kind of oil.

Antimony is found in many countries. It is exported to this country and England from France, Spain and Holland.

Nux Vomica is prepared from the seeds of a tree that grows in abundance in India. The East India Company.

Bismuth was first separated and distinguished as a metal by Agricola, the famous chemist and scientist, in 1560.

ROAD IMPROVEMENT.

CINDER PATHS AND GOOD ROADS.

A Plan for the General Improvement of the Highways.

The proposals which have been made in some portions of the public press to construct a cinder path for the use of bicyclists between Hamilton and Toronto, is not a practical one on many grounds, and this the bicyclists would soon discover were they to become conversant with the subject. The movement for good roads can be immediately aided by bicyclists, that it will be a serious drawback to the movement to introduce such a side issue as the construction of a mere cinder path. Every member of a club, as well as every rider, has a direct interest in the maintenance of a good road. A bicycle as a means of conveyance has a practical value, and the farmer, mounting his wheel, can run more rapidly over the road than he can drive. With a moderate amount of physical exertion he can cover a good many miles in an hour, and often in the time taken to hitch up and unharness he can perform his errand on his wheel. The wheel is looked on so commonly as an instrument of pastime. The commercial value of time saved by attending to the highways is a subject, such as visiting to market, the post, and so forth, where a light-running vehicle has to be employed, has not yet found its way into the farmer's mind. The wheelman is a power in his district to perform the improvement of roads. A well-made, well-maintained public road will afford ample opportunity for pleasure whilst it serves the more important function of being a direct means of promoting the prosperity of the country.

The working season now coming on will be an eventful one. If a proper start is made in the construction of our highways the battle will have been fought out. A few miles in each district of well shaped, well drained, solidly constructed roadways, will be such a revelation to the community, there will be no more desire to follow in the existing ancient customs of road making. The bicyclist has an important franchise in the movement for good roads, he must learn that the source of his pleasure and amusement—a good road—is the foundation of his country's prosperity, and he must remember that the greatest signatures of the world and all ages have favorably recognized good roads as an immediate adjunct to their military and civil government. Let each bicyclist use his influence this year to promote the construction of a permanent road, and he will at once receive a benefit in increased value to his property, a road on which his commerce can always be carried, and on which he will enjoy thoroughly his pastime, as he sees the prosperity around him produced by good roads.

PRETTY ROADSIDES.

A Wide-Awake Woman Offers Several Sensible Suggestions.

Now that the newspapers are agitating the subject of good roads, would it not be well to take some steps to improve the roadsides? The city people advocate good roads, especially the bicycle element, which is rapidly increasing. What shall we do with those who disfigure our roadsides by dumping all the refuse of their back yards and pantries consisting of broken crockery, old tinware tin cans, and by the country roadside without leave or license? One of the beautiful mountain roads leading from the neighboring city, which has been widened and improved, is a popular and pleasant drive, has been made such a dumping-ground that, although the trees grow beautifully on either side, one can hardly find a spot of ground which is not covered with back yard refuse. If these people who consider the whole country free, would dig a hole and bury such refuse out of sight, or dump it in a hole and shovel a little earth over it, doubtless nature would soon conceal their broken treasures. But at present it is not a pleasant sight for country people or anyone else, and this practice should be discontinued. There is a very little to encourage country people to beautify their roadsides. For instance, there is a case very near the home of a farmer having about half a mile of land fronting a public street, who has taken a certain amount of pride in picking up all the stones and smoothing off the land by the roadside, so that it is green and level. Too level, in fact, so people will turn down on it and drive right straight up through, past the front gate, cutting deep ruts, not only during the springtime when the roads are muddy, but in the warm weather if the roads are a trifle dusty. Of course the people who do this have their own roadsides dug out in the mud, which they cart soil to the barnyard, or covered with heaps of stone picked up from the farm. The road is always kept in good repair, but there is a certain lawlessness about such things in the country that is discouraging to improvements. It is a pity that in any case, to any extent take the place of potash in plant nutrition. Plants growing in presence of abundance of potash usually take up and contain more than they really need. This accidental or unnecessary potash may indeed be replaced by soda, but it is not possible to do so to any extent take the place of potash in plant nutrition.  mund Streets. Open from 7 to 10 p.m. each
 day of the week. Large library. Comfortable read-
 ing room. Amusement room, etc. Nominal mem-
 ber dues. 10 cts. per week. 50 cts. per month.
 GEO. A. LEVY, Sec'y. C. H. DAY, Treas.

Canadian Red Cross Federation.
 DESERONTO COUNCIL, No. 141, meets on 1st
 and 3rd Wednesdays in each month in McCullough's
 Hall, 28 George Street, at 7:30 p.m. Visitors wel-
 come.
 ALEX. PROCTOR, N. G. K. KAHLEMAN, Sec'y.

For Cotton and Mixed Goods.
 The Fast Diamond Dyes for Cotton and Mixed Goods are the most perfect and reliable dyes yet discovered. They are new and important discoveries, controlled by Diamond Dye Co. and are found in no other package dyes. They will color more goods than other package dyes, and make colors that are absolutely fast to light and washing. Be sure that you get Fast Diamond Dyes for Cotton and Mixed Goods, as they excel all others.

THE HEN BUSINESS.

A Discussion on the Relation of the Poultry Industry to the State.
 It is true, that while the poultry industry is mostly grown up in the country, there is no doubt a possibility of developing it still further, says a correspondent in an American Agricultural paper. My experience has been along the very lines that should give me some light on what should be done to still further develop this industry in my locality. I would say: 1. Teach the farmers and poultry keepers the principles of profitable management. 2. Show them which are the best breeds to keep to secure the various products. 3. Inform them just what the market should be placed on the market, and how they should be prepared that they may be sold at the highest rates. That is, make known to the majority who keep poultry agents? To tell the truth I do not what is now known only by a few. How shall we do it? Where can we get instruction on the principles of poultry man-
 know. Most people have to pick it up as they go along. There is no source. I know of no such place in this country where such knowledge is brought together and represented in a course of instruction, or where any poultry instruction is given that is of any account. The Royal college of agriculture of England provides a course, and Professor Brown, who occupies the chair and devotes himself to these subjects, is a regular member of the faculty. Get a single barrel, if possible, as it is the cleanest. Bone one-inch auger holes about four inches from the top and bottom before the hoops are loosened. After removing the hoops, knot the staves together with eight-inch hemp rope, leaving sufficient length of rope at each end for double handles. There are two strands of rope to each side, passing alternately over and under the end of the staves which are strung as closely as the firmly tied knot between each one will permit—the details and finished hammock being shown in the illustrations. The ideal hammock pad and pillow is cool to the touch, soft to the head and indifferent alike to sun or an occasional shower, and to combine all these requirements there is nothing better than washable linen covers stuffed with sweet fresh hay or herbs. Hay is always at hand in every bit of woodland, and makes the simplest and easiest of fillings. The sweet herbs can be found in every bit of woodland, and makes the simplest and easiest of fillings. The sweet herbs can be found in every bit of woodland, and makes the simplest and easiest of fillings.

SHAMMOCKS AND HAMMOCK PILLOWS WITHIN THE REACH OF ALL.

Barrel-State Hammocks are More Comfortable Than They Look—The Ideal Hammock Pad—Pillows Can Be Made to Suit the Individual Taste.

Knotted hemp twine hammocks are expensive to buy and tedious to make—especially where there are several members of the family so addicted to the use of these summer curiosities as to insist upon having one apiece. Barrel state hammocks are far more comfortable than they look—especially if a hammock pad is securely fastened over the staves—and they are within the reach of anyone's purse and ingenuity.

The marriage market at Berlin is never more flooded than during the months of April and October. The cheerful reason for this state of things is that the beginning of May and November is the orthodox time for removal into new abodes.

School teachers professing the Roman Catholic religion have been barred out of the public schools in Kansas City, Mo., by the efforts of the Rev. Charles H. Kelly, ex-president of the British Wesleyan Conference.

The battleship Prince George, which was commenced at Portsmouth, last September, is to be launched early in August, and the ceremony of christening her is to be performed by either the Princess of Wales or the Duchess of York.

The liquor death rate in Great Britain, according to the Registrar General's latest return, stands higher now than it ever did before. In 1869 there were 754 deaths directly ascribed to intemperance, which gave an annual rate of 0.34 per 1,000,000 persons living. For 1893 the figures were 2,174 victims, or at the rate of 75 per 1,000,000 persons living.

Hastings (reading paper)—"An impoverished nobleman has been captured and placed in custody in New York. Hubbs—Well, by George, I never thought those heresies would go so far as that!"—Chicago Record.

While the woman may be set in her opinion, will she show at dress functions as much backbone as her fashionable predecessors?—Philadelphia Times.

Mr. Billus—More than it happens that Fanny isn't going to church with you this morning? Mr. Billus—You know as well as I do, John, that when Bessie and Kate and I go to church somebody has got to stay at home. There isn't room for four pairs of sleeves in our pew.—Chicago Tribune.

What is the Post Lowell who asked "What is so rare as a day in June?" The perspiring citizen would like to know what is so well done as a day in this country.

O'Connell—Do ye see yer friend Hitt much since he was fired out as a motor-man? Dooley—(No. 2898.) Oh, I see him every ay'most; he's drivin' an ambulance.

Prohib—Sixty thousand drunkards die every year. Soague—But see how many people get the same dose who never have any fun at all.

Points for Preachers.—Jesus didn't do his best preaching to his largest audiences. St. Paul never carried any sermon sand-pitch with him.

Daniel is still preaching, because he was never afraid of the lion's den. The prophet who turned back to eat and drink was killed by a lion.

Eljah didn't depend upon a committee to build up the broken down altar. The Lord charged Peter to feed his lambs before he said anything about the sheep.

When Isaiah said: "Ho, every one that thirsteth" he had something in his pitcher. It was because the Lord blessed the bread that He was able to feed the five thousand.

Peter once toiled all night and caught nothing, but he made up for lost time on Pentecost. The angel called Gideon a mighty man of valor. Gideon called himself the least in his father's house.—Ram's Horn.

Culled from Dickens.—Even the press being human may be sometimes mistaken.—Speech. There are dark shadows on the earth, but its lights are stronger in the contrast.

But for some trouble and sorrow we should never know half the good there is about us.—Hudson's Bay. Golden leaves, golden love, golden youth.—a golden state of things altogether.—Christie's Papers.

All good ends can be worked out by good means. Those that cannot be bad, and may be counted so at once and left alone.—Pick's Papers.

To arrive at all involves a victory achieved over sloth, inactivity, and indifference.—Speech.

Swedish Proverbs.—"When the cat is away, the rats dance on the table." "A new broom sweeps well, but an old one does the best." "One bird in the hand is better than ten on the roof."

"When the stomach is satisfied, the foot is tired." "To read and not to know, is to plough and not to sow." "That which is eaten from the pot never comes to the platter."

PERSONAL AND PERTINENT.
 London has a sailors' cooking school. Playboys and Londoners \$25,000 a day. Kipling has the women cook conductors. Vulpine, Barrie, Jerome, Howells, Stockton, Mark Twain, Bert Harter, are all of them clever in the medium height, and several of them are actually diminutive.

The London, secretary to Editor Wm. T. Stead, is also the secretary of the Motor House Cycling Association, London, the membership of which is limited to women.

President Faure of France, to the great joy of the troops, has decided to take part in the manoeuvres next September. He has already rented a house in the neighborhood.

Lord Charles FitzGerald, a brother of the Duke of Leinster, lives in a small cottage on Simpson street, East Melbourne. He is married to a sister of the actress Athina Clarendon.

Mrs. Li Hang Chang has 1,000 servants, 2,000 coats, 1,200 pairs of trousers, and 500 fur robes. Her feet are so small that she cannot wear shoes, and she dresses her hair in fifty different ways.

Russian journals are still in mourning for the Czar. They will continue to surround the Czar with a border of black until a year shall have elapsed from the date of his death.

Arthur Balfour crosses and re-crosses his legs with automatic regularity during a parliamentary debate, and Harcourt sits bolt upright with folded arms, often nodding and smiling to his friends; Chamberlain exhibits surprise by dropping his eyes.

IN OTHER LANDS.

The Ontario government officials have condemned the site of the new high school building at Gananoque, but the school board will go on and build all the same.

The Cleveland Seed Company, Pictou, have been making very extensive improvements to their premises. In the last year the seed from Deseronto were employed.

A day and a night ago, a driver of the Bay terrace and Kingston stage, having a wife and eleven children, eloped with Mrs. Anthony Lake, of Kenosha, and went to Rochester.

A STEAMER BURNED.

About two o'clock, last Saturday evening, the steamer "Deer" was burning about two miles east of Havelock on the Trent river. She was towing the Rathbun Company's drive to Havelock. The "Deer" was piloted by Capt. Calcutt. The fire started while the crew of the crew were asleep and, as the "Deer" was a coal steamer, she was burning very fast. The engine was then started and the "Deer" was towed to Havelock. The fire was extinguished and the "Deer" was towed to Havelock. The fire was extinguished and the "Deer" was towed to Havelock.

Deadly Cancer Cured by B. B. B.

HERE IS THE PROOF.

Mrs. T. Milburn & Co.

Sirs,—About four years ago I was taken sick with stomach trouble. I consulted several leading local physicians, all of whom pronounced my disease incurable. One of the stomach, and told me I had not long to live. Two physicians attending me gave me up to die. Through reading your advertisement, and by advice of friends, I tried your B. B. B. Blood Purifier and I am happy to say that after using but one bottle I was able to leave my bed which I had been confined to for a long time. I am thankful now to state that B. B. B. cured my disease which plagued the doctors, and I am firmly convinced that B. B. B. saved my life.

Gratefully yours,
ELIZABETH GILHULA,
South Bay, Ont.

N. P.—Mrs. Gilhula is the wife of the Post Master at South Bay, and will gladly answer inquiries.

THE TIDE TURNS.

PETERBORO, Aug. 5.—General satisfaction is expressed here at the greatly improved condition of health of Mrs. K. Stephens, the well known music teacher of this town. Her friends have been much encouraged by her condition for a long time and a number of remedies have been tried during the ten years that she has been a martyr to the complication of complaints, which recently became very severe. She suffered frightfully with pain in the back, nervous prostration and swelling of the limbs. She has been taking the new remedy for kidney trouble, Dodd's Kidney Pills, and has already experienced the most beneficial results.

Miss Jane Tait died at Napanee last week. Over a year ago she was struck by a banana peel on the sidewalk sustaining a injury from which she never recovered.

THAT TIRED FEELING.

Is a common complaint and it is a dangerous symptom. It means that the system is debilitated because of impure blood and in this condition it is especially liable to attacks of disease. Hood's Sarsaparilla is the remedy for this condition, and also for that weakness which prevails at the change of season, climate or life.

Hood's Pills are the best after dinner pills, assist digestion, cure headache.

Lawrence Lyons, living on the High Shore, Prince Edward, is 81 years of age, he recently sold an old slave the first used in his father's house seventy five years ago, for old iron.

DELAY IS DANGEROUS.

Do not delay a single moment but send for a bottle of Miller's Emulsion of Cod Liver Oil. It is the best remedy for consumption or lung trouble. The sooner you begin to treat your blood the sooner you will gain a victory over death's enemies. Miller's Emulsion is the most powerful and effective remedy in the world. It creates new blood immediately. No other preparation will do this. It is the only remedy for Miller's Emulsion. There is no excuse from the remedy for consumption when this splendid remedy is at hand. Miller's Emulsion is the great nerve strengthener, and blood maker, and cures Coughs, Croup, Bronchitis, Sore throat, and all Lung Affections. In Big Bottles, 50c and \$1.00. Sold by W. G. Eggar and W. J. Malley.

VACATION TIME.

Is at hand and is gladly welcomed by all, especially those whose duties in life have caused them to greatly run down their system to meet the requirements, physical and mental, forced upon them. With these and others, it is important, whether at home, at the seashore or in the country, that some rest be given to diet, and as further and more to nature. A good building up medicine like Hood's Sarsaparilla had best be resorted to. If the digestion is poor, liver deranged and frequent headaches seem to be the rule, Hood's will change all this and enable everyone to return to their home and business in a refreshed state of mind and bodily health.

Ephraim Wright, Cresco, lost a fine heifer. She was grazing on The Rock and lost her hind leg and fell a distance of sixty feet, and she was able to swim after the fall, but the injuries were so great that nothing could be done to save her life.

It speaks well for an article when the longer it is used the better it is liked. Such is the case with Ayer's Hair Vigor. People who have been using it for years, could not be induced to try any other dressing for their hair, because it gives such perfect satisfaction.

Robert Smith, who lives near Queensboro, while his wife was busy to church, he was shaving ready to start a fire on her hair. He took a walk and on his return he found his hair on fire. It is supposed the child set fire to the shavings and thus set fire to it.

"Canst thou minister to a minif-faunt?" asks Macbeth. Certainly, my friend; the condition of the mind depends largely, if not solely, on the condition of the stomach. Hood's Sarsaparilla is the most powerful and effective remedy in the world. It creates new blood immediately. No other preparation will do this. It is the only remedy for Miller's Emulsion. There is no excuse from the remedy for consumption when this splendid remedy is at hand. Miller's Emulsion is the great nerve strengthener, and blood maker, and cures Coughs, Croup, Bronchitis, Sore throat, and all Lung Affections. In Big Bottles, 50c and \$1.00. Sold by W. G. Eggar and W. J. Malley.

Thinks Duelling is Ridiculous.

M. Henri Rochefort, who has often settled his man on the field of honor, has come around to the view that the duel is a quackery and is about over in France. He believes that the whole practice is ridiculous, and he knows that nothing Parisian has ever survived the accusation.

CANADA A LAND OF SURPRISES.

More Latent Stores of Wealth Than in any Other Country in the World.

There is no country in the wide world in which so much can be accomplished in the last decade of the century, for this is a broad statement; but when the progress made in the United States in the twenty years preceding is recalled, a measure is afforded by which to judge what might be accomplished in Canada if the same conditions are allowed to prevail. If, therefore, this same relative progress can be made in Canada as in the United States, no greater achievement in the shape of growth and development can take place in the world, a large share of which will be shown on the northern part of the continent in the next ten years.

Canada is peculiarly a land of surprises, and possesses more latent stores of wealth-producing power than any other country in the world. Aside from her great possessions in five thousand miles of coast-line fisheries, her almost limitless timber regions, her ninety-seven thousand square miles of coal, her vast iron deposits, her silver and gold mines, she has other minerals in a variety of ways.

This is not to be taken as an instance of the matter of nickel, or of which deposits are now found to be of enormous proportions, and which metal is likely to be brought into use to a great extent before long. Of the latest and best development in this line are the tests in armour-plates at Ammanburg, which it is subsequently at Ammanburg, by which it is ascertained that an alloy of nickel with steel will make guns unbreakable, and armour-plate impervious to the most powerful shells. In the aluminum, which in the distance has been dreamed possible, nickel will immediately perform in strength, density, and perfection of the material. In asbestos, micas, gypsum, phosphates, platinum, and the numerous other minerals which abound, but all these are unimportant for the present, for the producing forces. For it is a fact already dawning upon the minds of thinking men, that the collection of the arable lands within the Union itself threatens within a very brief period to make this vast country, agricultural as it is, dependent upon outside sources for food.

The vast areas beyond the borders, like the Valley of the Saskatchewan, which Lord Selkirk sold would sustain a population of five millions, are available for the great wheat supplies must be had for the food of the people, for the employment of transportation facilities, the need that an alloy of nickel with steel will make guns unbreakable, and armour-plate impervious to the most powerful shells.

So that what occurs in the next ten years in Canada has a direct bearing upon the production of food, the need that an alloy of nickel with steel will make guns unbreakable, and armour-plate impervious to the most powerful shells.

If within fifty years the population of this country will, as it is claimed, reach two hundred and fifty millions, and if the whole area already available for the production of food, the need that an alloy of nickel with steel will make guns unbreakable, and armour-plate impervious to the most powerful shells.

The Independent.

The Great Wall of China.

Authorities differ as to the exact date when the great wall of China was built, but the consensus of opinion appears to be that it was begun in the reign of the Emperor Che-Hwang-Ti, the founder of the Tsin dynasty, who ascended the throne in 221 B.C., and died 210 B.C.

It was said to be the reason for its construction, that the great wall was built to protect the empire from the invasions of the nomadic tribes of the north.

Subsequently a paragraph was written in the London Times of August 5, 1887, which attempted to show on the authority of the late Earl of Salisbury, who was then the British ambassador in Peking, that the wall was never built.

Among others H. S. Ashbee wrote to Notes and Queries insisting that he himself had been the great wall, that he had seen it in the distance, and had measured it not traveled along it for any great length, he could bear out the evidence that it extended from the point where he stood upon it in a straight line, and that it was not a wall at all.

On the French side the wall was not unbroken save in places where, as far as the eye could reach in either direction, it was a straight line, and the wall was not a wall at all.

Further, in the same part of China, but connected with the great wall, I observed the square towers in question.

A French Auction.

The French mode of conducting auctions is rather curious. In sales of importance the affair is placed in the hands of a notary, for the time being, becomes an auctioneer. The auctioneer is provided with a number of small wax tapers, each capable of burning about five minutes.

As soon as a bid is made, one of these tapers is placed in full view of all interested parties and lighted. If, before it expires, another bid is offered, it is immediately extinguished and a fresh taper placed in its stead, and so on until one flickers and dies out of itself, when the last bid becomes irrevocable.

This plan prevents all collusion among rival bidders, and affords reasonable time for reflection before making a higher offer than the one preceding. The notary, however, the auctioneer is prevented from exercising undue influence upon the bidders, or hastily accepting the bid of a favorite.

The Opinion Told in India.

The opinion is much needed in British India has been for more than a century a government monopoly. Half a million acres are under poppy cultivation, and the Government is the sole purchaser of the opium, and the Government is the sole purchaser of the opium, and the Government is the sole purchaser of the opium.

The opium is delivered in the form of juice, and the juice is dried and the residue packed in chests of 140 pounds capacity. It is sold monthly by auction at Calcutta.

Last report shows that the Government shows more than 4,800 chests sold for export and nearly 4,800 chests for consumption in India. The Government made a profit of nearly \$1,000,000 on the amount sold for use in India.

Little Faith is placed in Winnipeg in the New York Times story that the Greenway Ministry will be dismissed after the election, and the Government will be dismissed after the election, and the Government will be dismissed after the election.

NERVE BEANS.

NERVE BEANS are a new discovery that cure the worst cases of Nerve Beans, and cure the worst cases of Nerve Beans, and cure the worst cases of Nerve Beans.

It is regarded as definitely settled that Mr. Gully will remain in the Speakership of the Imperial House of Commons. His fellow lawyers, though Tories, would not have him unseated.

A CAUTIONING A WARNING!

On blowing the nose in the morning, lung and throat are much refreshed with blood, especially on a cold, use no time in applying a remedy. Catarrh of the very worst kind has become seated, the walls are sore and full of small ulcers, and if not soon cured will be hard to cure and eradicate. "A stitch in time saves nine." Use Chase's Catarrh Cure.

Little faith is placed in Winnipeg in the New York Times story that the Greenway Ministry will be dismissed after the election, and the Government will be dismissed after the election, and the Government will be dismissed after the election.

RATHER SHARP FIGHT.

BARBADOS, W. I., August 2.—Information has been received here of a terrible fight between French soldiers and a band of Mapans on the boundary between Brazil and French Guiana, which took place on the 15th of May last. It appears that a band of lawless Mapans had attacked the residence of Captain Trajan, the French agent at Cayenne, and had killed the French agent, and had killed the French agent, and had killed the French agent.

They met between the wharf and the Governor's residence, and Captain Lunier called upon Trajan to surrender, at the same time covering him with his revolver. Captain Trajan refused to surrender, and the French soldiers opened fire on the Mapans, and the French soldiers opened fire on the Mapans, and the French soldiers opened fire on the Mapans.

For fully two hours the battle was kept up, but the Mapans were finally driven back, and the French soldiers opened fire on the Mapans, and the French soldiers opened fire on the Mapans, and the French soldiers opened fire on the Mapans.

They met between the wharf and the Governor's residence, and Captain Lunier called upon Trajan to surrender, at the same time covering him with his revolver. This image shows a blank, aged, light brown page, likely an endpaper or flyleaf of a book. The paper has a textured, slightly mottled appearance with some creases and discoloration, characteristic of old paper. There is no text or other markings on the page.

**The Paris Observatory Has Just Taken the
Largest—New Features Discovered.**

The observatory of Paris possesses a telescope by means of which photographs of celestial bodies of remarkable size and clearness can be taken. By the aid of this great instrument the astronomers of the observatory have just taken a series of photographs of the moon's surface, which are said to be the largest ever obtained.

The value of lunar photography is very great to astronomers. Formerly they went to infinite trouble in sketching aspects of the moon, and two persons seldom produced drawings of the same thing which were not contradictory. The incessant changes in the moon's surface, caused by the rays of the sun, complicated this task.

The photographic method alone gives indisputable results. No details escape and the proofs obtained agree absolutely.

The subsequent enlargement gives a photograph of about the same size as the largest charts of the moon made by hand.

The photograph brings into view number of peaks and craters not marked on the best charts, and will form part of a new, complete map of the moon's surface which it is proposed to make.

Comicalities of Proof Reading.
Printers are beyond dispute eminent

useful members of the community, but if it were not for the intervention of the lynx-eyed "proof reader," who corrects their work before it appears, they would publish many things neither true nor intelligible, and tending greatly to the mystification of the reading public.

Suppose, for example, you were to take your paper and bring in a

The last word has an unattractive sound about it somehow. That although

perhaps not sufficient to deter a house hunter from going to view it, would certainly not enhance the value of the house. The printer who set forth that a lady or gentleman might find a "quite comfortable home" at such and such an address, must have had an odd idea of comfort and a curious taste as regards

What would be thought of the industry of a laundress who advertises "mixed enjoyment?"

The lady who advertised, according to our friends in the composing room for a sharp, lean girl, "must have decided preferences respecting the human habitations."

sonal appearance of her domestics, as well as regarding their capabilities, so must another who, in doubtful grammar, according to the same authority, advertised for "A general servant to assist in housework; good looking and sensible."

The bicycle that was advertised

being all bearings, must have been an uncomfortable machine to ride, and seven "tops" seem superfluous to a harmonium.

Luckless toiler in suds, if left to the printers' mercies, who would think you to be a hard-working washerwoman in search of fixed employment?

The man who advertised that

wanted "hardening" two days in a week, would justly be regarded as "soft," whereas the honest fellow who, in reality, doubtless, an industrious gardener, and only the proof-reader prevented it being published forth to the world that he was half baked!

The man who advertised for a "hardening" two days in a week, would justly be regarded as "soft," whereas the honest fellow who, in reality, doubtless, an industrious gardener, and only the proof-reader prevented it being published forth to the world that he was half baked!

spectacle joy," must have run through the list of human pleasures and grow pretty tired of things in general, as the young man who wanted to live "a family where the French language broken," would doubtless have had more numerous replies but for the proof-reader, who altered the text so that he understood the would-be li-

The gentleman who was in search of lodgings, and, according to the compositor, was "enraged during the day," would scarcely have found many ladies hankering after his custom unless he was prepared to pay specially high terms.

These, then, are a few of the humorous renderings of eminently unamusing advertisements, which the proof-reader has to hold back from the world, not because he does not appreciate humor, but from a stern sense of duty which compels him to nip in the bud the outbursts of erratic wit.

"Which do you love most, your papa or your mamma?" Little Charlie loves papa most. Charles' Mother—Why, Charlie, I am surprised at you; I thought you loved me most. Charlie—Can't help it, mamma; we men have to hold together.—*Jewish Times and Observer.*

LOCAL ITEMS.

Regular meeting of the Town Council next Thursday evening.

W. J. Malley now occupies G. A. Cole's house, St. George street.

The carpenters are rapidly rushing the Oddfellows' block to completion.

A baseball match will be played next week between Bath and Deseronto teams.

The business portion of the town of Springhill, N. S., has been destroyed by fire.

Wm. West, Londale, is said to have turpins which measure 17 1/2 inches in circumference.

There will be no issue of the Napanee Beaver this week, the staff being off on their annual vacation.

The Dominion Government has granted an increased subsidy of \$100,000 to the C. P. R. for carrying mails.

Very low special rates will be made by the C. P. R. for farm laborers going to the Northwest Aug. 13 and 20.

The various excursionists to St. Anne de Beaupre returned in safety, all having enjoyed the excursion immensely.

Our Bethel correspondent gives an account of a green worm which is devastating the hop yards of Prince Edward.

Dr. McConnell, of Toronto, one of the delegates to the Supreme Court of Foresters, died of apoplexy in London, England.

At Belleville on Tuesday thirty-four factories offered 2,770 boxes of cheese. No sales, prices offered being 75c and 74c.

The match between Odessa and Yarker baseball clubs for \$25 a side resulted in a victory for Odessa by a score of 23 to 15.

L. Hoppins is moving his residence to the corner of Centre and Edmund streets recently vacated by George Gordon.

Gordon and Gillard, the two men who robbed Bishop and were arrested by Chief Ganyon, have been committed for trial at county court.

The Newburgh Methodist Sunday school held its picnic on Tuesday, coming in by train to Deseronto and then taking the Ellis Road to Glenora.

On Wednesday Israel Sero out on his foot very severely with an axe while working in the lumber yard. Dr. Vandervoort attended to his injuries.

On Monday F. H. Sims while getting down from a pile of doors made a misstep and injured his leg about the knee, thus laying him aside from duty.

Rev. Father Pardow, S. J., conducts the annual retreat of the priests of the Arch diocese of Kingston which has been in progress at Kingston this week.

A small standpipe has been erected at the corner of Centre and Edmund streets in connection with the hydrant so that carters can more easily fill their barrels with water.

In another column will be found an advertisement of cheap laborers' excursions to the Northwest. Several thousand men are wanted to assist in harvest operations.

Mrs. Beggs desires to inform the public that she will open her bakery on Saturday, 10th inst., and that she will be able to attend to all orders with which she may be favored.

The divorce courts in England are now kept as busy as those in Chicago. The judges cannot possibly undertake all the business in this line and others must be appointed in order to keep the docket clear.

A break occurred in the watermain at the corner of Mill and Main streets last Wednesday evening, the cap having been forced off a T joint by the great pressure. Chief Knox made the necessary repairs.

Among others who passed the public leaving examinations at Belleville were: Fred Farrell of Miss Davidson's school, Shannville with 60 marks, and Eva Cockins, of Miss Egan's school, 23 Eyebing.

The Insurrection in Cuba is gaining in strength notwithstanding that Spain is pouring in new troops for its suppression. Let us hope that the islanders may succeed in becoming an independent republic or be annexed to the United States.

Chas. Bennett, the Napanee road market gardener, exhibits natural curiosities, in the shape of vegetable marrow, two from one stock having grown firmly together though retaining their shape, and terror still three cucumbers, being united in the same way.

Will Stoddart, while separating three fighting dogs, had one of his fingers severely bitten. Dr. Vandervoort dressed the wound.

It is alleged that the carcass of a yearling bull was sold for meat on the market the other day. All meat offered for sale should be carefully inspected.

E. T. Miller has been covering the roof of the new Oddfellows' Block with galvanized iron. The work is being done in a neat and expeditious manner.

Joshua Wood, M. P. for Westmoreland, N. B., has been called to the Senate. An election will be held forthwith in Westmoreland; nomination on the 17th and polling on the 24th.

The secretary of the Citizens' Band acknowledges the receipt of ten dollars each from Deseronto Court, I. O. F., and the C. P. A. lodge as contributions towards the funds of the band.

Very Reverend Father Kelly has been installed as vicar general of the diocese of Kingston by Archbishop Cleary. He will possess all the powers of a bishop save episcopal functions.

A gang of clever counterfeiters have been arrested at New York and their plant for manufacturing has been found. Counterfeit Canadian money was found on their persons and a large quantity of bills, excellent imitations, were also found nearly ready for shipment to this country.

Col. Gascoyne, of the Scottish Grenadier Guards, succeeds General Herbert in the command of the Canadian militia. He is said to be an able officer and a good man, but when he leaves Canada two years hence his reputation will be blasted like that of his predecessor.

The name of Louis Lake was, by an oversight, omitted from the list of those pupils who were successful in passing the promotion examinations from third to fourth book in the public school. Like all the others in the class his mark was very high, the figures being 654.

Wm. Jamieson, after his Wednesday experience, states that all this talk about the water in the bay being below all former levels is mere fudge. He is a son of the giants but as he clung to the boat not even the toe of his boot could scrape bottom all the time they were drifting about the bay.

According to a recent ruling, given by the Postmaster-General, a "Private post card" must not exceed the dimensions of the large postcard issued some time ago by the Post Office Department, namely, 6 inches long by 3 1/2 inches wide, nor must it be less than 3 1/2 inches long, by 2 1/4 inches wide.

Six large barrels of frogs' hind legs from Tweed, Ont., crossed from Prescott to Oshkoshburg the other day, en route to the Metropolitan market to tickle the palates of gay New Yorkers. It is said that the demand is so great that many of the small streams have been practically depleted of frogs.

The Amsterdam, N. Y., Morning Sentinel says that, "It apprehends no further trouble from press operators as J. D. Cameron, of New York, an expert at the telegrapher's key, has arrived and is at the post of duty in that office. He comes well recommended, etc." Mr. Cameron is a nephew of Mrs. James Wilson, of Deseronto.

A very violent electric storm passed over the district last Tuesday afternoon and did much damage in its progress. The lightning was very vivid and caused much destruction of the very loud. The electric fluid struck the brick house owned by Thos. O'Neill, corner of Dundas and Mill streets. A new chimney will have to be built. The loss was settled by the insurance company.

The man that penned the following knew just exactly what he was talking about: A newspaper is always printed in a rush. There is always something in that should have been left out, something left out that should have been put in. It is sometimes too quick to act, but with all its faults and shortcomings there is more education in a bright, new paper than there is in a novel.

You will find the brightest boy on practical, sensible every day questions, is the boy who reads the newspaper.—Press and Printer.

One use for paper is for the padding of the backs of gentlemen's waistcoats. No one knows why the stupid practice is persisted in of making the back of a waistcoat of this material, in spite of the fact that the lungs need as much protection at the back as they do at the front. Thin-backed waistcoats are a positive invitation to pneumonia during the prevalence of bitter cold and easterly winds, but a quilt of paper in the lining will make the back even warmer than the double breasted front.

The more enthusiastic Ontario sportsman, not satisfied with his deer hunting, has been looking forward to 1895 when he could penetrate still further into the woods and reach the haunts of the moose, reindeer, elk and caribou, and feast his eyes upon the most beautiful of wild animals, but he must possess his soul with patience, for the last session of the Ontario Legislature amended the Game Act by extending the prohibited season from 1895 until 25th Oct. 1900, so that these animals may not be shot for five years longer.

L. H. Bennett, Thomas street, is the owner of a herd of six handsome and valuable Jersey cows, which yield a large quantity of the richest milk. They are greatly admired by our townpeople. Mr. Bennett is very proud of his herd. He recently sold a thorough bred calf to J. C. Hanley, of Read. He has had his barn improved lately, the floors being raised and the improved cattle stands, manufactured by the Rathbun Company, put in. These stalls are a great improvement as they give almost complete freedom to the animals,

The heavy rains of Tuesday must prove of great benefit to the crops.

The General offices at 11 presented R. Wiseman with a traveler's grip before he departed for New York.

Philip Hamby, who was at one time purser on the steamer Quinte, died at Belleville of consumption the other day.

Rev. Dr. Horr, a distinguished divine of Worcester, Mass., will preach in the Presbyterian church next Sunday morning and evening.

The new electric freight motor for the Odessa Railway Company is receiving its finishing touches at the Deseronto Carworks and will be shipped to-day.

Mr. McRae, of Trenton, who has for many years held a position with the Gilmours of that town, has leased the O'Connor House and entered upon possession.

The Scottish Class hold their annual gathering at Massasauga Park to-day. The Armenia carries Camp Scotland Yet and other friends to the Park. It will be a day of great pleasure.

A scene occurred in the West end on Tuesday, a man and his wife both under the influence of liquor having a quarrel. The woman cast stones at her liege lord and endeavored him as he proceeded along the street.

Third Class Certificates.

The following candidates were successful in passing for third class certificates at the recent examinations in Deseronto: M. Breuls, M. Curry, C. Meagher, A. Osborne and G. Richardson.

Coming West.

Walker Bros' Colossal Uncle Tom's Cabin Pavilion Company will appear at Napanee on the 12th and at Shannville on the 13th. The company have been playing to packed houses all along the route.

Cedar Hill.

D. W. Dart, who tendered his resignation some time since, severed his connection with the Cedar Mill last week, with a view to devoting his entire attention to his furniture business. Edward Wilson succeeds Mr. Dart as superintendent of the mill.

Prize Received.

Edward W. Miller has received his prize, fifteen dollars, from the Lundy Lane Historical Society, for the poem which he composed in honor of the commemoration of the battle. The young poet has received very many letters congratulating him on his success and on the creditable character of his effort.

Big Potatoes.

W. Henry Oliver, gravel road, Tyendinaga, brought into this office five potatoes of the Early Ohio variety of mammoth size. The five about filled a half peck measure and weighed 5 1/2 pounds, the largest weighing 1 1/2 pounds. What they would have attained if allowed to grow cannot be imagined. Visitors have looked at them with amazement.

1000 Islands Excursion.

Remember Reva, Crossley and Stratton's excursion to the 1000 Islands on Saturdays, Aug. 10th and 17th. The popular str. Merritt will leave Deseronto at 9 a.m. on each Saturday, Cole's 9.20, Picton 10.30, Adolphustown 11.15, Bath 12.45 p.m., reaching the park at 6 p.m., returning Monday. Tickets \$1.00. Below Picton 75 cts. See bills for particulars.

Improving.

Chas. Thompson, who sustained such frightful injuries in the saw factory last week, is gaining steadily and Dr. Simpson is now of the opinion that his recovery is certain. Mr. Thompson desires through THE TRIBUNE, to thank all the friends who have extended to many acts of kindness to him in his affliction. He very deeply appreciates their numerous expressions of sympathy.

Picnic at Marysville.

The annual picnic of St. Mary's church, Marysville, will be held on Wednesday, 21st inst., at George Anderson's grove, near Marysville station. All the arrangements are about completed and the events promises to be the most successful of the kind ever held in this district. Horses and rigs will be carefully looked after. Dinner and tea served on the grounds, 25c. each. The athletic sports will be very keenly contested.

Salvation Army.

Capt. McKinnon and Lieut. Ollis, the new officers in charge of the local corps of the Salvation Army, arrived last Saturday and have entered upon duty. Capt. Churehill, late in charge, has retired from work on account of ill health. Lieut. Bathgate has been promoted to the grade of Captain and takes charge of Athens and Cadet Jones goes to Belleville. On Monday, Aug. 19th, the Army cruiser, William Booth, will arrive in port and the crew will hold a meeting in the Barracks in the evening. There is a fine brass band in connection, and there will be rich music, drills, addresses, etc. Admission, 10c. All are invited.

Excursion to Thousand Islands.

On Saturday, August 24th, an excursion under the auspices of Court Deseronto, No. 93, I. O. F., will be run to Thousand Island Park and Alexandria Bay. The favorite steamer Merritt has been chartered for the event. The steamer will leave Trenton at 6 a.m., Redoubtville 7, Belleville 7.30, Deseronto 9, Picton 10.30; calling at lower ports and will reach the Park at 6 p.m. A pleasant sail to Alexandria Bay Saturday evening. Returning the boat will leave at 7 p.m. Monday morning. Tickets all bay ports as far as Picton \$1, below Picton 75c, Kingston 35c. Passengers take seat. Deseronto at 6 a.m. fare \$1. Committee: J. As. Stoker, E. M. Wallbridge, John Prickett, Wm. Lewis.

PERSONALS.

Mrs. Elizabeth Anderson has returned home from a pleasant visit to Kingston and the Thousand Islands, etc.

Miss Aggie Anderson is visiting in Belleville as the guest of Mrs. W. J. Magrath.

Marvin Rathburn is enjoying a visit with friends in Oswego.

Prof. Smith, of McGill College, Montreal, was the guest of E. W. Rathburn for a few days during the past week.

Miss Ellis Elliott has been visiting friends in Trenton.

R. Wiseman and W. J. Geddie left for New York on the Resolute last Saturday. Miss Smith and Miss Mamie Pullar have been visiting friends in Kingston.

Miss Beggs has been visiting at R. Filson's, Amherst Island, during the past week.

Miss Ellis Pagan spent last Saturday in town.

Miss Hattie Hudson, of Belleville, was in town on Saturday.

Rev. A. M. Smith and Mrs. Smith were the guests of Dr. and Mrs. Newton during the week.

F. S. Rathburn left last Saturday for Falmouth Heights, Massachusetts, where he has been spending the week with his family.

David Clinton was in town last week having returned home from the back country. He proceeds to Huntville to pass his examination as a caller.

Mrs. F. Burr and children returned home from Priory last week, much invigorated by their sojourn in that healthful resort.

Thos. Cochran and family have returned to their former home near Chatham, Ont.

Mrs. R. Macdonald and Miss Sarah Allen left for Kingston yesterday.

Miss Mand Watson, of Belleville, is visiting her sister, Mrs. Ezra Pringle, Brant street.

Mrs. A. G. Knight, Mrs. R. Massie and Miss Carr, were the guests of Mrs. J. M. Poitras, at Rutherford Cove, this week.

Mrs. Robert Adams and family, of this town and Miss Daley, of Syracuse, N. Y., are visiting friends near the Mineral Springs, Belleville.

Misses Mattie and Jennie Stoddart, of Toronto, are guests of the Misses Stoddart, Galt Cottage.

Mrs. Melburn Mastin, Napanee Mills, spent Tuesday visiting friends in town.

Wm. H. Croft, of Toronto, is spending his vacation at Glen Island.

A. C. Stover spent Sunday in Kingston.

Mrs. Edward N. Crompton and Master Frank Crompton, of St. Thomas, are visiting her parents, Mr. & Mrs. Melvin Brown, Green street.

Miss Gertrude Brown has returned home after a pleasant visit with friends in Marlbank and Tamworth.

James Pringle, of the Big Store, spent his two weeks' vacation in Napanee.

Wm. Lynch spent a few days this week with friends in Bowmanville.

Miss Alice Brown is visiting friends at Big Creek, Fredericksburg.

Miss Huff is enjoying a vacation with friends in Belleville.

Master Frank Brown has returned home after spending a few days with relatives in Tamworth.

J. R. Deeds, druggist, Orangeville, was the guest of Dr. Simpson on Wednesday.

Miss Richmond, of Picton, has been visiting friends in town this week.

Miss Mamie Shaughan, of Kingston, is the guest of Miss Edwards, Centre street.

Miss Smith, of Montreal, is visiting her sister, Mrs. Chas. W. Thompson.

Mrs. Butler and Miss Matthews, of Chicago, daughters of Peter Matthews, formerly of Deseronto, are the guests of Mr. and Mrs. John Edwards, Centre street.

Miss Alonzo Howard is recovering from a severe illness.

Miss Home, of Toronto, is the guest of the Misses Stoddart, St. George street.

The Misses Davidson, of Shannville, are guests of Mrs. E. R. Chapman, Main street.

G. E. Deroche accompanied the Newburgh Sabbath School excursion to Glenora.

Mrs. Blodden, after having spent several weeks visiting at Mrs. Beylette's, returned to Belleville last Friday.

Mr. and Mrs. J. C. Gille and Miss Hoppe, of Rochester, N. Y., are guests of Mrs. John Baker, Fourth street.

Mrs. M. T. Mullett, of Toronto, has been visiting at Wm. Lowry's.

Mrs. Neish is visiting her sons in Kingston.

Mrs. John Ray and Miss Ethel Lovells, of Tweed, have been visiting friends in town.

Wm. Gould, of Silville, is now staying in Deseronto.

Eddie Cunningham, of Thomas street, left Sunday night for Rochester, where he will make his home.

Geo. Hewitt, of Peterboro, is stopping in town.

Mrs. R. Rayburn and Miss Annie Rayburn are visiting friends in Belleville this week.

LIVE MEN WANTED

To canvass for "Life and Work of Mr. Gladstone," by J. Castall Hopkins, Introduction by the Hon. G. W. Ross, LL.D., a thrilling narrative of the wonderful career of Mr. Gladstone. Profusely illustrated with portraits of great men of the century. A big book, nearly 2 in. thick, 8 in. wide, 1 1/2 in. high. Retail \$3.00. Agents: Geo. Book sent on depositing \$1.00, which we return with order for twelve books. From \$15 to \$50 a week according to ability.

BRADLEY, GARRETT & CO.,

SWEET MUSIC.

THE MYTHOLOGICAL ORIGIN OF IT
AND THE BEAUTIFUL FOLKLORE.Uplifts the soul—it is an inexpressible
Something that has a Far-Reach-
ing Influence Over the Listener—
Music and Patriotism.The mythological origin of music is
given in a beautiful poem by Elizabeth
Barrett Browning, called a "Musical
Instrument," which tells how music was
created. Pan, we are told, was the
creator or god of music. One day, by
the edge of the river, Pan cut a reed—"Stealthily from the outside ring
He drew the pipe, like the heart of man.
And notched the poor, dry empty thing
In holes as he sat by the river.
Then dropping his mouth to a hole in
the reed,He blew in power by the river.
Sweet, sweet, sweet, O Pan!"It is a little difficult to define the
term music. The dictionary explains it
as a harmony of sounds; a noted cynic
informs us—"of all sounds, music is the
least disagreeable." But these defini-
tions do not satisfy us. They do not tell us
what constitutes music. Byron says:"There's music in the sighing of a reed,
There's music in the gushing of a rill,
There's music in all things, if men had
ears,
Their earth is but the echo of their
spheres."We all know that music is an inex-
pressible something that has a far-
reaching influence, and seems to ex-
pand and uplift the soul above its im-
mediate surroundings. Dryden shows, admirably,
this feeling in his "Ode on St. Cecilia's
Day," in which he refers to the power
of two musicians, in these lines:"One raised a mortal to the skies,
The other drew an angel down."Music plays on every emotion of the
human heart, awaying it as it will. He
who wrote "I care not who makes his
songs, if he can move the love of his
country," it is like the siren's song, says a
writer, "upon which beautiful beads
are strung, when it appeals to the affec-
tions. It is like the band of fate, from
which no patriot can escape, when
called to defend his home and country."It is with the folklore music we have
to deal—that music which is understood
and appreciated by the masses, music
quite uneducated, exerting over them
a group influence. It is the old songs
that have been cherished and handed
down from generation to generation,
and have the peculiar power of opening
the flood gates of memory, causing
kaleidoscopic views to pass before our
eyes, and make the old songs are origi-
nally attracting the public fancy,
but few have the power to hold it, and
these few are only such songs that pene-
trate deep into the heart and take firm
hold upon the emotions.Among the many classes of folklore
music there are two that stand in con-
trast—the national or patriotic songs
that excite, encourage and spur on every
man who has a spark of patriotism in
his nature; and then those tender sooth-
ing songs that calm the excited and
make the troubled forget their cares,
carrying them back to thoughts of home,
love and happiness.One of the most important classes in
folklore music is our familiar hymns.
When we are in trouble, how we turn
to these dear old songs—"Rock of ages, cleft for me,
Let me hide myself in thee."

and—

"Jesus, lover of my soul,
Let me to Thee bosom fly."They show the weakness and depend-
ence of human nature, and its faith and
perfect confidence in the strength of
Divine love. Such songs can never lose
their influence. They have soothed and
comforted thousands of weary souls and
will continue to do so as long as the
world lasts.The foolish little jingles of our child-
hood and the lullabies, crooned in a
mother's sweet voice, are stored away
in some sacred recess of our heart, and
come back powerfully to our memories
in our best moments, revealing plainly
the wonderful influence of home folk-
lore."Gin a body meet a body,
Coming through the rye,"Immediately we are transported to
Burns' native land, and before our eyes
through the gauzy plaided ladies and lad-
ies, coyly questioning."Gin a body kiss a body,
Need a body cry?"The faint echo of a bagpipe can be
heard in the "Gin a body" song. The bagpipe
is "Are Coming." How it excites Scottish
patriotism. It is said this song once
saved a fort. The discouraged inmates
were about to give up in despair, when a
wounded soldier began softly playing
on his bagpipe. "The Campbells Are
Coming." So instantaneous and arousing
was the effect that the enemy was
soon repulsed.To the warlike hearted Irish "St. Pat-
rick's Day" will set the pulses thrum-
bling and every toe in rhythmic motion.
To the heart of the German Arndt's
lyric, "The Watch on the Rhine" makes
the strongest appeal, and "The Mare
celled" is most inspiring to the French.The rate of growth of the Christians in
India is more than double that of the
population.

ADAM'S FIRST WIFE.

Legends About Lilith, Talmudic and
Mohammedan.

But who is that?

"Lilith" is Adam's first wife is
the legend.Beware the lure within her lovely tresses.
The splendid seduction of her hair
When she succumbed to a youth to
share.Not soon again she frees him from her
Jesses.So responded "Mephistopheles" to
"Faust," as the pair stood together on the
Brooklyn and held a strangely fascinat-
ing female form amid the eerie though
that swept by at their feet. Unfortun-
ately the Doctor was entirely ignorant of
the intimate relations that once existed
between Lilith and the Prince of Evil, else
he would have eagerly sought for more
extended information concerning this im-
portant but shadowy personage in Biblical
history, and the world might have been a
deadlier wilderness.As it is, the great majority of well-in-
formed Christians probably know little or
nothing about Adam's first wife, although
the Book of Genesis itself is said to throw
out a vague hint or two on the subject,
and tantalizing allusions occur here and
there in profane literature, as in the in-
stance from Goethe's masterpiece.Accepted Mussulman traditions furnish
some interesting and precise details con-
cerning the birth of Adam which may be
widely known. It seems that the com-
mon ancestor of our kind was created on
a Friday afternoon at the Ash-hour, and
the first thing he did was to look upon the
form man in his own image, he ordered
the four archangels—Gabriel, Michael,
Uriel and Raphael to bring each from the
purpose of the four quarters of the
globe. Thus it came to pass that Adam's
head and breast were made of clay from
Mecca and Medina, his shoulders were
eventually to become the shrines of the
Holy Kaaba and the tomb of Mohammed.
The beauty of the completed man must
have been beyond comparison for the host
of angels who flocked to the gates of Para-
dise are declared to have been fairly daz-
zled at the sight. Eblis, the Evil One,
however, was filled with envy on behold-
ing the charms of the yet inanimate form,
and jealously remarked to the heavenly
host: "How can you admire a creature
made of earth? From such material not-
ing but fragility and feebleness can come."
Nevertheless, the host of the angels praised
God for his handiwork.The body of Adam was so great that if
he stood up his head would reach into the
seventh heaven. But he was not as yet
clothed in a living skin. The soul had
been made a thousand years before, and
had been steeped all that while in a sea of
light which flowed from Allah. God there-
fore ordered the four angels to bring him
skins from the four quarters of the globe.
It showed some indisposition to obey; how-
ever, God exclaimed: "Quicken, Adam,
against your will, and as a penalty for
your disobedience, you shall leave the body
sorely against your will." Then God
blew the spirit against Adam with such
force that it entered the nose and ran up
into the head, and soon as it reached his
eyes Adam opened them and beheld the
throne of the Most High. Afterwards the
penetrated all the members, reaching last
of all to the feet, and when he received
strength, he sprang up and stood upon the
earth.God then called all created animals be-
fore him, and laid before them their names
and their natures. Then he called upon all
the angels and bade them bow before Adam,
the man whom he had made. Only Eblis
refused to do this, and he said: "Why shall
I, who am made of fire, bend before him,
before him, who is made of earth?" There-
fore he was cast out of the heavenly pre-
sence.But Adam stepped forth with glowing
mien and preached to the angels, who
stood before him, and laid before them a sermon
on the power, majesty and goodness of God,
and he showed such transcendent knowl-
edge for he could name each beast in
season, and even the birds of the air, and
the creeping things of the earth, and the
insects of the field.Now the Talmudists, from whom the
Arabian legends borrow their sacred
traditions, distinctly affirm that Lilith is
the first wife of Adam. According to some
authorities, she was created joined to Adam's
side. Others believe that the two were
created separately, but that they were joined
together by the power of the beginning. How-
ever that may be, there is no manner of
doubt but that they soon fell to quarrelling
and even tore each other's clothing. Lilith,
furthermore, developed an unseemly
predilection for witchcraft, and assiduously
studied the black arts, and she was justly
justly annoyed and prayed that his
companion might be left to her own un-
hallowed devices.God was sorely vexed at the result of his
experiment and promptly expelled the
woman from Paradise. But something
had to be done, so the angel Adam for
his domestic misfortune.Thus it came to pass, so say the Rabbin-
ical writers, that Eve was created to fill
the void position from which the evil
Lilith had been expelled. A little later on
in the same chapter (twenty-third verse)
Adam says: "The Lord God said: 'Behold
I have created man in my own image, male
and female I created him.'"A sequel to the Lilith legend informs us
that the first and fairest of virgins was
nothing loth to shake off the dust of Para-
dise from her feet for the feet of the
Evil One himself might speedily be real-
ized.However this may be, Lilith gained her
soul and was duly recognized as Satan's
fourth wife, the others being Machalath,
Igereth and Nammah, the daughter of Lam-
ech and sister of Tubal-Cain. Each be-
came the mother of a numerous host of
demons, and each ruled with her respect-
ive progeny over a season of the year. At
the change of seasons there was an im-
mense gathering of demons about their
mothers. Lilith alone being followed by
no less than 476 legions.According to Abraham Ezechiel, the
children of Adam and Eve were endow-
ed with six qualities, three of which they
shared with men and three with devils.
The first quality was that they were
less antagonistic to men than their fair
mother, Lilith, however, whose name may
be literally translated screech owl or
normal species of demon, and the im-
plicable enemy of all infants, over whom
she exercised the power of life and death
for forty days after their birth for boys,
and twenty days for girls. Such
then was the altogether fiendish Lilith of
Bible, according to the Talmud and the
Mohammedan interpretation of the myth.

VASQUEZ DIED GAME.

A party of ranchmen sat about the office
of the International hotel the other even-
ing waiting for the Southern Pacific train
to Los Angeles. Louis Phillips, who owns
the largest real estate property in Los An-
geles county as "Lucky" Dwyer, and who is
famous throughout southern California for
his wealth and plain, common mode of
life, told the most interesting reminiscences
of the evening."The most remarkable villain and the
least moved man that I ever saw or heard of
in the presence of death was Tiburcio
Vasquez.""Vasquez was a Mexican of good family,
but he was as bloody and bold a brigand as
ever pursued in Arizona. His field of
operations for 10 or 15 years was all the
way from Tucson to Stockton, Cal. The
Vasquez band was known all over the coast
in 1885 and 1886. Part of his gang was
lynched at Phoenix in 1871, and two of the
bandits then confessed that they had taken
the lives of over 30 men over the coast and
along the Rio Grande in the
course of five or six years. They did not
know of any other men who had been
slaughtered by Vasquez and his fellows be-
fore they knew the chief bandit.""As Vasquez was caught and held so
securely that he could not escape trial and
sentence of death. It was in 1875 that he
was confined in the jail at San Jose, and as
soon as Sheriff Shattuck learned of the
Vasquez, of whom many a time I had been
in terror. As I, in the company of several
ranchmen, went into the jail corridor, Vas-
quez was sitting on a bench, and he said:
'I was a dapper little fellow, with bright,
laughing eyes, and I could not believe for
the life of my family that I was a bandit.
He had just been writing his last letter
and came forth nodding pleasantly to his
visitors. Each of us handed him a
letter. 'I am, gentlemen,' he said, 'but I
am afraid that I won't have time to
smoke as I have so much to do.'""He was so sure that he would not be
executed until all of us had chairs. He grasped
about the latest news from San Francisco,
about the political troubles in Mexico
and showed a courteous interest in the
cheerful man on the premises. He told me
that he had heard of me many times and
said he believed he once had got hold of a
horse with my brand upon him and that it
was a fine animal.""As he stood there, one hand on the arm
of his chair, the newspaper in the other,
and showing a courteous interest in the ef-
forts of the bustling deputy to find seats for
his guests, he was far from formidable in
appearance. He was now, however, a broad
shouldered, dark skinned, pleasant
faced Mexican, with nothing whatever
about him forbidding. Indeed his manner
was engaging. He was now a man.
He showed it in his politeness, and in the cool courage with which he
faced his dreadful end.""He said about something
else, if it is agreeable to you gentlemen,"
he said to a reporter who had joined us,
and he said: 'I am now waiting for the
Vasquez about his mental condition. I am
to be hanged tomorrow. Very well. I don't
like it, but I have no choice. See? And he
shrugged his shoulders and smiled. He
said: 'You feel that you deserve your fate?'"Well, that does not matter much," he
answered, looking at a cigar. "While I
lived anybody myself, I permitted my men
to do so, and in the eye of the law that is
the same thing as I suppose I deserve what
is going to happen. Since I cannot help
myself, I am content. Will you pardon
me, gentlemen, if I ask you to talk about
something that interests me? I am glad to
see you; I like company. The weather is
pleasant, eh?""He leaned back in his rick chair with
an animated countenance, ready to chat,
like one who wished to while away dragg-
ing hours. He had about 14 of them left.
He was not strong and firm. He was
in the prime of life and in perfect
health. His courage had been proved in
many a bloody fight, and if by murdering
all his victims it would have given him
one chance in a thousand to escape that
chance would have been taken and God
thanked for it. As it was he smiled coolly
and accepted the inevitable with a
manly composure. His politeness was in-
exhaustible.""One of the local newspapers
came in, greeting him with a boisterous
hilarity, meant at once to cheer the con-
demned and display to the metropolitan
journalists his superior intemperance with
a celebrated character. The editor actually
took a copy of his paper from his pocket,
and with the respect and respect you want
to hear what I said about you tonight," he
said down and read Vasquez three solid
columns about his crimes, the preparation
for the hanging and a minute description
of the gallows, with mention of the other
criminals who had stepped upon it. Vasquez
bore it in silence, without a wince or
frown.""On the next morning Vasquez walked
out into the sunlit jailyard, climbed the
steps of the gallows, and stood indifferently
the gaping mob of men below, threw a wis-
tful glance beyond the walls at the blue
sky over which he had added on many a
fray his cutthroats and then gave all his
attention to the ghastly business of the
moment. They sought to unbuckle his coat
and collar. He waved them aside politely
and did so himself. He assisted the hang-
men in adjusting the straps and rope,
glanced at the clock, and when his feet were
prettily to him by the priest and bore himself
with patience and dignity while they drew
over him a white sheet and placed on his
head and shoulders a great black hood.""I am ready," he said so softly, closing
his eyes, that he was the last of Vasquez.

The Patrons of Industry are steadily gaining in strength in Frontenac, three new lodges being formed recently.

A woman dressed in male attire was observed the other day in Belleville assisting her husband to shingle a house.

At Kingston last week 2,236 boxes were boarded; price offered 7 1/2 to 11 1/2c. Farmers are growing more and more wary.

Mrs. Charlotte Burrows, Watertown, sued that city for \$10,000 for damages received from a defective boardwalk.

The Merchants Bank building was purchased by Archbishopracy of Clergy for \$17,000 and may be converted into a monastery.

MEN AND WOMEN

Forge their Own Fetters.

Paine's Celery Compound Banishes Disease and Releases all Captive Sufferers.

Men and women forge their own fetters and shackles. They permit themselves to be completely bound and enchained by the common life of life, and the result is misery and intense suffering.

The laws of health when disregarded, bring severe penalties; and it is well to know that unless effective means are used to remove these penalties, chronic ailments result, and life is in danger.

Medical experience proves that the common life of life, such as dyspepsia, indigestion, headache, neuralgia, rheumatism, insomnia, kidney and liver troubles, and blood disease, can, in a short time, be effectually banished by that wonderful medicine, Paine's Celery Compound.

Weak, nervous and suffering men and women are made strong and vigorous when Paine's Celery Compound is used.

The life blood is purified and courses through the veins in a healthy state.

For pale, sickly, nervous and overworked women, Paine's Celery Compound is a God-send.

It is just the medicine that makes people healthy and strong during the heat of the summer. Paine's Celery Compound has cured thousands and will surely meet your case.

THE ONTARIO GAME LAWS.

During the last session of the Ontario legislature, the statutes relating to game were amended; in fact they are so often changed that one has to take care when and how you shoot or it may cost money or perhaps time in close retirement.

In the first place it is unlawful to kill, trap or destroy any bird known to live upon insects, or to destroy the eggs or nests of such. Penalty, not over \$20, the whole to go to the prosecutor, or imprisonment.

Eik, mouse, reindeer or caribou are protected until 1900.

Deer may be hunted between the 1st and 15th of Nov., inclusive.

Two deer only can be killed.

Non-residents of Ontario or Quebec may hunt deer and other game under the restrictions of the game laws by paying a license fee of \$25 to the provincial secretary, but may export their deer (if they kill them) under such license, but no other export allowed.

No hunting on Sundays.

"Crusting," or hunting deer while yarding, not allowed.

Deer must not be allowed to range in localities where deer are known to be.

Partridge, grouse, pheasants, woodcock, snipe, rail, plover, black and grey quail, red-legged partridge and other game are protected until the 15th of Sept. to the 15th Dec.

Wild turkeys, prairie fowl, English or Mongolian pheasants are protected until 1897.

Not more than 400 ducks may be killed by license between Sept. 1st and Dec. 15th.

Geese or swans may be killed between Sept. 15th and May 1st.

Cotton-tail rabbit or any rabbit may be hunted any time.

Beaver and other animals protected until 1897. From Nov. 1st until May 1st, sale and export of beaver skins, and muskrat and marten may be trapped, and muskrat and marten may be trapped, and muskrat and marten may be trapped.

Muskrat houses must not be destroyed at any time.

Hunting and shooting may be prohibited on private land.

Marsh lands may be enclosed by owner and game protected by erecting posts at intervals.

The fines for offences against deer are from \$50 to \$200 and costs, and other offences \$25 to \$50 and costs, together with the confiscation of guns and traps, or other implements. One half of the fine to be paid to the prosecutor, and the other half to the treasurer of the province to be applied in enforcing the act.

The best way to make when you are in need of a medicine. That is why you should insist upon Hood's Sarsaparilla.

GAINED A POUND EVERY DAY.

DYSPEPSIA AND CATARRH OF THE STOMACH CURED BY D. B. R. AFTER HOPE WAS NEARLY GIVEN UP.

GENTLEMEN,—For over three months I was very ill from what I believe was a maliculous type of Dyspepsia. I once consulted a physician who treated me for Dyspepsia without success. I then went to a specialist who diagnosed the case as Catarrh of the Stomach, his treatment also failed and I was getting worse every day. I could not rest at night and had to walk the floor to get any sleep. I failed from 195 pounds down to 135 pounds and almost gave up in despair when I heard of Hood's Sarsaparilla as a remedy for dyspepsia. I bought a bottle and a change for the better and I bought six more being delighted to find myself getting better. Under the use of B. R. I gained a pound a day. I took 15 bottles in all and am now nearly back to my old weight. I recommend dyspepsia to try the old reliable B. R. that always cures.

WM. CAMPBELL, 115 Maple St., London, Ont.

ARE YOU DEAF?

Or do you suffer from noises in the head then send 3 cent stamp and I will send a valuable treatise containing full particulars for those cure which costs comparatively nothing. A splendid work on deafness and the ear. Address, PROF. G. CHASE, Montreal.

A COLORED FATHER IN ISRAEL.

The Rev. Jasper is Still preaching "De Sun Do Move."

A unique and widely known character is the Rev. John Jasper, the pastor of Sixth Mount Zion Baptist Church, Richmond, Va., and the father in Israel of the colored race of the South.

He has preached his famous sermon, "De Sun Do Move," hundreds of times, and yet the mere announcement that he will preach from the old text, "The Lord is a man of war," is sufficient to fill the churches, and to draw thousands of visitors from the North attend his church to get a sight of the noted colored divine.

He first saw the light of day on a farm in Fluvanna County, Virginia, belonging to the Pechey estate. He was born July 4, 1812, and was the youngest of 24 children. According to a biography of the noted colored divine, written by E. A. Randolph, a colored lawyer of Richmond, he received his most striking characteristics from the prolific mother, who was particularly valuable to her master because of her intelligence and business at whatever work she was put. According to the same authority, his father was also a noted preacher, and held great sway in Fluvanna and other counties where his master owned property, and he himself too.

He has presided over a number of colored churches in Richmond and other cities. At one time, it is said, he baptized 300 candidates, commencing at 11 o'clock in the morning, and by 1 o'clock in the afternoon he was through, taking only two hours, or baptizing them at the rate of one every 24 seconds. He first preached his famous sermon in his present church, a neat brick structure. It was bought by his congregation in 1868 for \$2,023, and has since been remodeled at a cost of \$4,000. The church has a membership of 3,000, and is prosperous and free of all incumbrance of debt.

His congregation fairly idolizes him and looks up to him with a great degree of respect and veneration. It is said that he receives the modest salary of \$50 per month, and that though it has often offered to raise the amount he has uniformly declined an increase.

John Jasper was married for the fourth time two years ago. His marriage at such an advanced age created no little talk in his congregation at the time. The minister overheard his only daughter plotting with her husband against his life, presumably to get his property, and as he had to get rid of her and not having any one to care for him, he determined to marry again.

He is of a practical turn of mind, and selecting an elderly woman suitable for his wife he made a success of his courtship and was married in his own home with his staunchest church members around him.

The Rev. John Jasper, or, as his members delight to call him, "de doctor," is yet an active man, despite his 84 years, and his countrymen say he preaches with more power than when he was younger.

THE NEW MAN.

His Morning News-Taking from the New York Evening News. His Wife.

"Er—Mildred," he said, a trifle nervously, as his better half laid down the morning's paper, and lighting a cigarette, prepared for her departure to the city. "Mildred, dear, do you think you could spare me a little money to-day?"

His wife glanced at him impatiently. "What, again, George?" she said; "why I've given you your housekeeping allowance on—let me see—Thursday, wasn't it? Really, some of you men seem to think we women are made of money."

"You forget, my dear," he remarked, "there are the girl's wages, and the water rate, and the children both want new boots."

"Didn't I give you the money for that?" she asked.

"No, dear, that was for the flannel for little Mildred's warm petticoats I'm making."

"Besides, dear, I—don't be angry with me—I saw a cheap pair of trousers at the winter clearance sale yesterday and I couldn't resist buying them, and you know I've hardly a rag to my back."

"Always your cry, George," she said angrily, "really your extravagance in dress is something sinful. It is a pity you haven't got to go and earn the money; you'd know its value then. Here take this, and for goodness sake do try and pay some of your household bills with it and not frivel the money away on a lot of trash."

"That's a kind, good, darling wife," he cried joyfully. "Let me help my Mildred on with her coat," he added, following her into the hall. "What time will you be home?"

"Can't say, I'm not at home," she answered. "I've got to be at home at the office to-day, and I shall drop into the club for an hour or so after. So you needn't wait dinner."

"Oh, that'll be nice!" he responded, "I've got my young son coming to-day and the girls and I are going to put up clean curtains and things. Give me a kiss dearest!—there—there's your bus going home."

And as the breadwinner dashed out after the passing vehicle George blew her a parting kiss and went up-stairs to bathe the children.

"The Woman Plunger."

One of the heaviest winners at the Alexander Island track this year is a woman, from her constant wearing of black clothing, has come to be known to the frequenters of the race track as "The Lady in Black." She has also been known as "The Woman Plunger."

She never bets less than \$500, while she often makes as high as \$4,000 bets. She never moves a muscle during the running of a race, and a looker on would never think she had a large amount staked on the race. She always sits in the out of the way corner of the grand stand, and when the race is over and she remains there until the races have ended. She is said to have won more than \$20,000 on the races this season.

"I speak not out of weak surmises, but from proof."

LARD MUST CO.

since COTTELENE has come to take its place. The satisfaction with which the people have hailed the advent of the New Shortening

Cottolene

evidenced by the rapidly increasing enormous sales is PROOF POSITIVE not only of its great value as a new article of diet but is also sufficient proof of the general desire to be rid of indigestible, unwholesome, unappealing lard, and of all the ill that lard promotes. Try

Cottolene

at once and waste no time in discovering like thousands of others that you have now

NO USE FOR LARD.

THE MISSION FIELD IN FAR ALGOMA.

THE MISSIONARY'S COMPANION.

Mr. Geo. Boskin, missionary for the International Mission to Algoma and North-West, attributes his escape from severe illness timely through summer complaints to the timely use of Dr. Fowler's Kidney Pills. Dr. Fowler's Kidney Pills have been to me a wonderful, speedy and effectual remedy. It has been my companion for several years during the labors and exposure of my missionary work in Algoma. Well it is for old and young to have it in store against the time of need which so often comes without warning.

Yours truly,
Geo. Boskin, Missionary.

SAVED HIS LIFE.

"I'm weigh nearly 200 pounds," said a fine, robust looking man the other day; and yet this same man was given up to die of consumption less than two years ago. What cured him? Miller's Emulsion of Cod Liver Oil did. He took it when at a low ebb, when his weight was less than 100 lbs. It created new blood for him and that combined with his will power raised him up to a life of usefulness and happiness. If you are threatened with consumption or any lung trouble try Miller's Emulsion of Cod Liver Oil. Miller's Emulsion is the great nerve strengthener and blood maker, and cures Coughs, Colds, Bronchitis, Scrophula, and all Lung affections. In Big Bottles, 50c. and \$1. at all Drug Stores. Sold by W. G. Egar and W. J. Malley.

AN EXCEPTIONAL SALE.

MR. JOHN IS MUCH INTERESTED IN THE RECENT MEDICAL DISCOVERY.

MR. JOHN, N. B. Aug. 12. The many cases of marked restoration to health from various forms of Kidney trouble which have been constantly appearing in the daily press of the Dominion for some time awakened the interest of Mr. John, and the remedy which the cure were effect d namely, Dodd's Kidney Pills, are obtaining great celebrity throughout the province. The appearance of the testimonial of Dr. Egar and McCormick stating the benefits which they had personally derived from their use was considered a sufficient endorsement of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the apothecary to have an exceptional sale.

ORILLIA'S PROMINENT FURNITURE DEALER GIVES FACTS.

Orillia, Feb. 10th, 1894.

EDMANSON, BATES & CO.

Gentlemen,—About three or four weeks ago I had an attack of Itching Piles. I tried many different remedies, but was recommended by druggists as "the best and only cure," etc., but got no relief. About the time I was beginning to despair of finding any relief, I saw some slight notice of a remedy, and I bought a box of your pills, which I am pleased to say gave me almost instant and permanent cure. I consider your Ointment a God-send.

ALF. J. DEAN.

2 NEGLECTS AND THE RESULT.

Neglect cold in the head and you will surely have nasal catarrh, and you will be sure to induce pulmonary disease or catarrh of the stomach with its disgusting attendants, foul breath, hawking, spitting, mowing, etc. Stop it all by using Dr. Chase's Catarrh Cure, 25 cents a box cure.

WHY NOT YOU?

When thousands of people are taking Hood's Sarsaparilla to overcome the weakness and languor which are so common at this season, why are you not doing the same? You know that Hood's Sarsaparilla has power to cure rheumatism, dyspepsia and all diseases caused by impure blood, why are you not continuing to suffer? Hood's cures others, why not you?

Hood's Pills are prompt and efficient, 25c.

You will find a box of Ayer's Pills an excellent travelling companion. For constiveness, indigestion, sick headache, and all other ailments, they are prompt, safe, and efficacious. Taken in season, they may prevent serious illness and vexatious delay and disappointment.

The hair, when not properly cared for, loses its luster, becomes crisp, harsh, and dry, and falls out freely with every combing. To prevent this, the best dressing in the market is Ayer's Hair Vigor. It imparts that glossy gloss so essential to perfect beauty.

Belleville.

LOCAL ITEMS.

The population of the British Isles is now 38,000,000.

Always sign your name to a communication sent to a newspaper office.

The carpenter are making good progress with the new Oddfellows block.

The Resolute has been up on the marine railway undergoing some repairs.

The Ontario School of Pedagogy will be removed from Toronto to Hamilton.

The health officers of Ontario are holding their annual convention at Belleville this week.

It is said that seventy years ago the water in Lake Ontario was considerably lower than it is now.

Capt. Thos. C. Williams, aged 90, of Oak Land, California, is the oldest Oddfellow in the United States.

Frank Claus easily defeated officer Morton, of Belleville, at quoits in two games pitched last week.

The people of Lansdale and vicinity are anxious to secure a medical man as successor to the late Dr. Redner.

A typesetting machine that can set 50,000 ems an hour has been invented by Father Calendoff a Sicilian Dominican monk.

At Belleville on Tuesday twenty-eight factories offered 2,000 white and 200 colored cheese. There were sold 715 boxes at 7 1/4 and 7 3/8.

There are at present in the Central prison 300 prisoners, about 100 more than usual at this time of the year, and the majority are young men.

Twenty-one forest reserves, containing upward of 17,000,000 acres of land, are now the property of the New York government in different parts of the state.

Patrick Hayes has purchased from Wm. Scantlen the harness business formerly carried on by the late E. J. Culhane, Mr. Hayes solicits the patronage of the farmers of the district.

James Gordon, the co-partner of the Upper Canada Tract Society, was in town on Wednesday. He is succeeding admirably in his important work, having effected large sales during the past few months.

Dr. Newton has moved into his new office and residence on Centre street. A few doors north of the Big Store. This is a very central location and will be very convenient to all requiring his services.

Misses Eva Cook and Winnie Snarr held a bazaar the other day and the two juvenile workers, as a result, realized \$4.25 by their sale. This amount they devote to the fund of the Mission Band of the Presbyterian church.

Our good friend Amos Hicks, formerly of North Frederickburg, has been elected to fill a vacancy in the municipal council of Moosejaw, N. W. T. There were three candidates, and all agreed to do no canvassing. Mr. Hicks was elected by a large majority.

At 12:30 Monday morning the steamer Alexandria, bound from Charlotte to Montreal, went ashore a little south east of Piquet light. She sustained no damage. Her passengers were transferred to the Nellie Cutbert and brought to Brighton. The Alexandria was subsequently hauled off by the tug Chieftain.

A report to the English parliament shows that from 1877 to 1893 inclusive, 353 English convicts were sentenced to be hanged under laws which allow this punishment to be inflicted in certain gross cases of assault. It is said that such crimes have not diminished in frequency as a result of the severity of the punishment.

Arrangements are being made by which a portion of the cold storage chambers on the Atlantic steamers for dairy butter is to be given up for the purpose of making trial shipments of Canadian fruits to the mother country. The first shipment will be made in September. This will suit the shippers of fruit in the Bay of Quinte district. Cold storage for cheese is next wanted.

From first October postage rates by parcel post between Canada and the United Kingdom will be reduced to sixteen cents for the first pound and twelve cents for each additional pound. A direct parcel post will be established between Canada and New South Wales. The rate will be twenty cents for the first pound, and sixteen for each subsequent pound. The mail will leave Vancouver the sixteenth of each month.

All the school books for sale at THE TRIBUNE office.

Wims & Co. are holding a great clearing sale as it is their intention to leave Deseronto. Great bargains are offered in every department.

John McCulloch raised from fourteen acres on his farm near Marysville 274 bushels of wheat. That shows what can be done in this district.

The Prentice Boy's demonstration at Camden East was quite successful. The local lodges attended and the members report a very pleasant day's outing.

In consequence of the prevailing low water vessels will not be allowed to enter the Welland canal drawing more than thirteen feet six inches of water.

Another desperate effort is being made to bolster up the Upper Canada College. All in vain the institution is doomed. Its day of usefulness has long since passed away.

Anderson's grove, a few steps from Marysville station, is the place at which Father Quinn's picnic will be held next Wednesday.

The excursion of Messrs. Crossley and Stratton to the Thousand Islands last Saturday was well patronized and as usual all arrangements were carried out to the letter.

The prizes offered for the different athletic events which will take place at the Marysville picnic are numerous and handsome and will inspire a large number of competitors.

Visitors to Father Quinn's picnic at Marysville next Wednesday will find that every arrangement has been made for the proper care of horses and rigs, so that no anxiety need be felt on that score.

Private Hayhurst, who won the Queen's prize at Blenheim, has met with enthusiastic reception at Montreal, Toronto and Hamilton. We had the pleasure of seeing this renowned riderman on his arrival at Toronto last Tuesday morning.

The yacht Mirage, Capt. Thompson, of Toronto, was in port on Tuesday having a jolly crew aboard consisting of Messrs. W. B. Crowe, Crenin, Sullivan, White, etc. They had crossed the lake to Charlotte, thence to Oswego and Kingston, and were making their way home by the bay route.

The Walker Bros' Uncle Tom's Cabin Company played to a good house in Napanee last Monday and at Shannonville next day. Several members of the company spent Sunday in town visiting their homes. The company has met with great success all through the season.

An attempt is being made to have Tuesday evening included in the early closing list. Very little business is done at night by the people who have got accustomed to making purchases during the hours of daylight. It is thought that no one would be offended by closing on Tuesday evening as well.

Some thoughtless persons having mentioned his name in connection with the sale of that objectionable meat mentioned in last week's TRIBUNE, Mr. Pearson the market butcher, desires us to state that he never yet sold beef of such a description, a statement which all who know his reputation for honesty and fair dealing will accept without hesitation.

Master John Gowan's good dog "Tramp" can trot a rapid gallop as any one can see who watches him entering along the street yoked to his cart. On Tuesday at Napanee he had a friendly trial of speed with a pony owned by B. McGuinness of the Gravel Road. The dog was too fast for the pony winning with ease. He appeared to enjoy the trial of speed.

Frank Weldon, a young lad who is disposed to enjoy a free life in preference to the restraints of good friends at home, nearly caused his own destruction the other day. Chief Guyon was trying to capture him in order to return him to his friends when the desperate boy leaped off the dock at the Cedar Mill into the bay. He could not swim a stroke and it was only by great exertions he was rescued from a watery grave.

Rev. Dr. Horr, of Worcester, Mass., conducted the services in the Church of the Redeemer last Sunday, preaching able and eloquent sermons which were much appreciated by all present. He also, by request, gave a short address on the Boston convention at the meeting of the Christian Endeavor Society in the evening. He was greatly impressed with what he saw in the busy factories of Deseronto and with the delightful scenery of the Bay district.

Thomas Southworth, Forestry Commissioner for the Ontario Government, spent last Friday in town. It was his first visit to Deseronto and he made a careful inspection of the different industries. As a result he was profoundly interested in all that came under his observation. He was especially struck with the manner in which, what may be called, waste products of the forest are utilized and turned to commercial advantage. In this respect he considered the works of the Rathbun Company at singular and models to other lumber manufacturing in the province. He also visited Napanee Mills where F. G. B. Allan kindly showed him the process of manufacturing Portland cement. Mr. Southworth was struck at the care with which the mill and the numerous processes required to be undergone in order to produce the Star cement. The result of his observations will no doubt be incorporated in the annual report of his department, one of the most interesting in the public service of Ontario. Mr. Southworth, we may remark is a very keen and practical observer, being an old newspaper man. He was for many years one of the owners of the Brockville Recorder.

Prof. Denmark's orchestra will furnish the music at the Marysville picnic next Wednesday.

Farce from Deseronto to Marysville and return next Wednesday night 25c

The Call Accepted.

The call presented by the Church of the Redeemer to Rev. W. S. McTavish, D. D. of St. George, came up for consideration at a meeting of the Paris Presbytery held at Stratford last Tuesday, 13th inst. The call was signed by 173 communicants and 100 adherents. Mr. Russell as commissioner from the Kingston presbytery and the Deseronto congregation, supported the call, Messrs. Wood, Fleming and Reid representing the St. George congregation were present and in reply to earnest addresses expressed their objections to the removal of Mr. McTavish who was held in high esteem and affection by his people who were unanimous for his retention in his present sphere of labor. Their pleas were most forcible and pathetic. Mr. McTavish on being asked by the Presbytery stated his desire to accept the call to Deseronto, though it caused him untold pain to part with his people, but he felt that his relations had always been of the most friendly character. The Presbytery acquiesced in his decision and agreed to his translation to Deseronto and took the usual steps towards the severance of his pastoral ties. The members of Presbytery expressed the great regret they felt at the proposed removal of such a faithful worker and counselor as Mr. McTavish and subsequently passed very flattering resolutions testifying to his abilities as a preacher of the gospel, his scholarly attainments and to the great success which had followed his ministrations in St. George. It is probable that Mr. McTavish will be inducted into the charge of the Church of the Redeemer about the second or third week in September.

Our expert Optician will be at Malley's Drug Store, Tuesday, 13th inst. An opportunity of which every person who is suffering from defective sight should take advantage. Consultation and examination free. Angus McFEE & Co., Belleville.

Moonlight Excursion.

The annual moonlight excursion of the Deseronto Cricket Club will be held this evening per steamer Ella Ross to Massena Park. The boat leaves the steamboat dock at 7:30 o'clock sharp. Fare 25 cents.

1000 Islands Excursion.

Remember Reva, Crossley and Stratton's excursion to the 1000 Islands on Saturdays, Aug. 10th and 17th. The popular str. Merritt will leave Deseronto at 9 a. m. on each Saturday, Cole's 9:20, Picton 10:30.

1000 Island Excursion.

Don't forget the excursion to the 1000 Islands on Saturday next, Aug. 17th, str. Merritt leaves Deseronto at 9 a. m. on each Saturday, Cole's 9:20, Picton 10:30.

Lansdale Presbyterian Church.

Rev. D. O. McArthur, of Melrose, is spending his summer vacation with friends at Bath, his former field of work. During his absence the Lansdale congregation are thoroughly convulsed by their church painting and otherwise improving it both inside and out. It will be re-opened, Sunday 25th when Mr. McArthur will preach at 2:30 p. m.

A Lenient Sentence.

The two men Gillard and Gordon arrested on July 21 by Chief Guyon for robbing Frank Bishop on a Grand Trunk train were brought before Judge Lazier for trial. They pleaded "guilty" to the charge, and were sentenced to six weeks' imprisonment, their term to date from the beginning of their incarceration. They are to make restitution of all the money and pay expenses of Bishop. This is a very lenient sentence for such a crime and will have a tendency to encourage train robbers to pursue their calling. Had they stolen a few green apples from an orchard they would have got a year in the Central prison. Such is the administration of justice.

Daughters of Rebekah.

Mrs. E. T. Miller has been in Hamilton this week representing Aberdeen Lodge at the meeting of the Grand Lodge of Daughters of Rebekah. The order has made marked progress during the past year. It is pleasing to see that Mrs. Miller has been elected one of the officers of the Grand Lodge, a compliment both to her and Aberdeen lodge. The following officers were elected:—Mrs. E. Lee, Kingston, President; Mrs. Laura Ryan, Toronto, Vice-President; Mrs. Maggie Waddell, St. Thomas, Secretary; Miss Nellie Dobson, Chatham, Treasurer; Miss Robertson, Collingwood, Warden; Mrs. E. T. Miller, Deseronto, Outside Guard; Mrs. Winnie Bascom, Galt, Chaplain.

ROYAL ART STUDIO.

Our new studio will soon be ready, then we intend to give the people of Deseronto something entirely new in photographs. We have been experimenting with the process which is being remodelled and can guarantee something new and permanent. Prices will be right and every photograph perfect.

HERBERT A. OSBORNE.

Excursion to Thousand Islands.

On Saturday, August 24th, an excursion under the auspices of Court Deseronto No. 93, I. O. F., will be run to Thousand Island Park and Alexandria Bay. The favorite steamer Merritt has been chartered for the event. The steamer will leave Trenton at 6 a. m. Redriversville 7:30, Deseronto 9, Picton 10:30; calling at lower points and will reach the Park at 6 p. m. A pleasant sail to Alexandria Bay Saturday evening. Returning the boat will leave at 7 on Monday morning. Tickets all by parts as far as Picton \$1, below Picton 75c. Kingston 50c. Napanee passengers take steam Deseronto at 6 a. m., fare \$1. Committee: Jas. Stokes, E. M. Wallbridge John Prickett, Wm. Leslie.

PERSONALS.

Mrs. Robert Martin is recovering from an attack of typhoid fever.

Mrs. James Smith, of Belleville, and Miss Maude Robertson and George Robertson, of Mount Brydges, were the guests of Mr. and Mrs. James Davis, on Tuesday.

Miss Janet Maxwell, of Beaton, is the guest of her cousin, the Misses Maxwell, Dundas street.

Master John and Miss Emma Scrimshaw have been visiting friends at Hay Bay. Miss Ella Sutherland is the guest of Miss Gertrude Davis, Dundas street.

Mr. R. Taylor and Miss Taylor, of the Methodist Parsonage, were visiting in Kingston for a few days last week.

Mrs. H. A. Dean and Master Reggie Dean are stopping at the Sand Banks.

Mrs. N. T. Love and Master Aubrey Love are visiting friends in Coburne.

Miss Rose Judge, of Cobourg, is the guest of Mrs. Edward Miesien, Main street.

Mr. & Mrs. F. S. Rathbun and family returned home from Falmouth Heights, Mass., and were very much benefited by their stay at this pleasant resort.

Mr. & Mrs. T. H. Namith and Miss Namith spent Wednesday at the Sand Banks.

Master Ralph Carr, of Chicago, is the guest of Mr. & Mrs. A. G. Knight, Centre street.

Joseph Meagher and Fred Krimmer were guests at Redean Hall, Ottawa, on Wednesday.

Miss Annie Goodmumphy has returned home from Toronto.

Mr. & Mrs. L. Allam, Jr., spent Wednesday in Ottawa.

Miss Virginia Houle returned on Friday from a four week's visit to friends in Trenton and Campbellford.

Mrs. David Coolidge, of Demorestville, is visiting her parents, Mr. & Mrs. Joseph Morden.

Miss Dalton returned home last week from a pleasant visit with friends in Westport.

Mrs. F. S. Hall and Miss Kathleen Hall returned home on Tuesday on the steamer Hamilton from Toronto where she has been spending the past two months with friends in that city.

Philip Conley, of Stirling, spent Monday in Deseronto.

Geo. J. Carter was called to the Senate house at Ottawa on Tuesday.

Misses Hugh McKee and Ralph Vanusen are spending a few weeks with friends at Point Traverse.

Miss Roach, of the Napanee road, is spending a few weeks visiting her brother at Gananoque.

Miss Maggie Ingoldby, of Centerville, is visiting Mrs. E. J. Edwards, Second street.

Wm. Scanlin returned on Tuesday from Montreal after disposing of two carloads of fat cattle.

W. B. Northrop, M. P., was in town on Saturday.

Rev. Dr. Horr, of Worcester, Mass., and his sister, Mrs. Fuller, of Little Falls, N. Y., were the guests of Mr. and Mrs. Jas. A. Davis for three or four days during the past week.

Herbert Sager, second engineer of the steam barge Aberdeen, favored us with a call on Saturday. He is succeeding admirably in his profession.

Dr. Vandervoort spent Wednesday in Ottawa; it is just possible that our deputy reeve has ambitions in that direction.

R. Miller was hypnotized at Carleton Place on Wednesday.

W. N. Mark is attending the meeting of the Grand Lodge of Oddfellows in Hamilton, as delegate from Deseronto lodge, No. 102.

Miss Lottie Johnson spent a few days last week with friends in Belleville.

Chas. Oliver leaves to-morrow to resume his duties as teacher at Bongarce, Prince Edward.

Miss D'Arcy and Miss Clara D'Arcy spent the week visiting friends in Picton and at the Sandbanks.

Miss Scott, of St. Catharines, is the guest of Mrs. Jas. Wilson, Dundas street.

Chas. A. Crawford spent last Saturday and Sunday in Foxboro.

Bert Poitras has been visiting friends in Deseronto.

F. Barber and N. W. Perry took in the great excursion to Ottawa.

Miss P. Lowry, Miss Sadie Head, of Milford, and Misses Eva and Lydia Garrison, of Cherry Valley, were the guests of Mrs. Albert Palmator the past week.

Miss Pigion and her niece, Miss Marion Pigion, spent a few days this week in Oswego.

Misses Jessie and Clemmie Mackie have returned home from Kingston.

Mrs. Bogart and Master Fred Bogart are visiting friends in Napanee.

Miss Elliott has been visiting friends in Trenton.

Joseph Carwell has been suffering from a sprained wrist.

Mrs. R. Siler and Miss Helen Siler have been returned home to Syracuse, N. Y.

Miss Barbara Butler is visiting friends in Kingston.

A. Hoppins, of Kingston, spent Tuesday in town.

Miss Ella Robertson, of Belleville, is the guest of Miss McWilliams this week.

Arthur Namith, of the Imperial Bath, Toronto, who has been spending his vacation in Deseronto, returned home on Wednesday.

Mr. James Fowler, former driver on the Bay of Quinte Railway and now stationed at North Bay on the C. P. R., was in town yesterday and favored us with a call.

Mr. & Mrs. Rayburn are in Kingston to-day.

A good time guaranteed at the picnic at Marysville Wednesday, 21st inst.

BIRTHS.

STODART—At Arrowsmith New Zealand, on June 18th, 1895, the wife of George Stodart, of a daughter.

DEATHS.

BRANT—At Tyndinaga Reserve, on August 10th, Mary Eikel, infant daughter of Jacob L. and Annie Brant, aged 1 month and 12 days.

Mrs. J. H. Anderson who, it will be remembered, was stewardess on the Quinte when that vessel was burned, passed up the bay on the North King last Sunday on her way to Rochester. She has a good position in a charitable institution in Montreal and her son is getting on well, being in the employ of Fotheringham & Workman, of that city.

On Friday, a Mrs. R.ley hired a horse from Thos. Gough, to go to Napanee, in instead of going to that town she went to Pictou and then proceeded to Port Hope. Mr. Gough communicated with the police at Port Hope who arrested the woman and held the horse and rig in custody. Mr. Gough went up by train to recover his property.

Capt. Chalmers, of Adolphustown village, father of Neeve Chalmers, died on Tuesday, last Friday while he was unloading grain in the barn something went wrong with the fork and it broke striking him on the side. He lingered until Tuesday morning. Deceased was well known in the district having been a captain on the lakes for many years.

Two of our young men enjoyed a very pleasant trip to the Thousand Islands the other day. To judge from the size of their tin box it would have been thought they intended staying a month, but a new light was thrown upon the question when they were joined at Kingston by two young ladies. The boys had a most pleasant time and their friends hope they may be able to spend a week or two at Kingston this summer.

Teachers and Scholars.
 August 15—Last day for receiving appeals against entrance examination; August 19—rural schools reopen; August 20—Normal schools reopen; August 23—last day for receiving applications for admission to Model schools by Inspector; August 29—High schools reopen; September 3—Model schools reopen; September 15—last day for receiving appeals against primary examination.

Concert at Tamworth.
 The congregation of St. Andrew's Presbyterian church, Tamworth, intend giving a grand concert on Mr. Coxall's new hall on Sept. 15th, the last evening of the county fair will be held at Tamworth. A strong array of excellent music talent has been engaged for the event.

Scotland Yet.
 The gathering of the Clans at Massasauga Park last Friday proved to be a great affair, the attendance being on an enormous scale. The games were witnessed by thousands of spectators and the different events were well contested. The members of Scotland Yet camp and their friends went up to the Park on the Armada and it is satisfactory to learn that the Scotchmen of Deseronto were about the best looking men on the ground. The medals given by this camp for two of the events were won by G. Nolan and F. Sanford. W. D. McRae, A. D. McIntyre, Wm. Stoddart filled auspicious positions in several committees.

Norway Pine Syrup cures coughs, colds and all throat and lung troubles. Price 25 and 50c.

LIVE MEN WANTED

To canvass for "Life and Work of Mr. Gladstone," by J. Castelli Hopkins. In introduction by the Hon. G. W. Ross, LL.D., the scholarly Minister of Education. A thrilling narrative of the wonderful career of Mr. Gladstone. Profusely illustrated with portraits of great men of the century, with many of Mr. Gladstone's letters when six years old, published by his permission. A big book, nearly 2 in. thick, 8 in. wide, 10 in. long. Retail \$3.00. Agents—this book sent on depositing \$1.00, which we return with order for twelve books. From \$15 to \$50 a week according to ability.

BRADLEY, GARRISON & Co.,
 Brantford, Canada.

- Gift Sale -

—FOR ONE MONTH AT—

P. SLAVEN & CO.'S

—COMMENCING—

AUGUST 6TH.

As we intend moving in October we are anxious to have our stock as low as possible, and in order to have August a business month instead of a quiet one, as it usually is, we offer these inducements: To every customer buying one dollar's worth of goods we will present a lovely pair Gold Cuff Buttons.

Customers buying \$2 worth, 1/2 dozen hem-stitched Handkerchiefs.

Customers buying \$3 worth, 2 yards wide Brocade Brilliant Silk or a Baby's Bonnet.

Customers buying \$4 worth, Handsome Silk Handkerchiefs or a nice Wool Cloud.

Customers buying \$5 worth, a pair of good linen Towels.

Customers buying \$10 worth, 3 1/2 yards handsome Brown Satin, 22 inches wide.

Customers buying \$15 worth, handsome Japanese Cabinet, worth \$5.

Customers buying \$20 worth, a beautiful Japanese Rose Jar.

Customers buying \$25 worth, large all-wool Boating Shawl.

Customers buying \$30 worth, handsome Silk Waist.

Customers buying \$40 worth, lovely Satin Dress.

Remember everyone buying over One Dollar's worth of goods is entitled to a present, and as our goods have already been reduced to very little over half their actual cost it is a rare opportunity. If it was not that we really need the money we would not offer these inducements. This Sale will continue only for ONE MONTH. Terms Cash.

NOTICE TO CREDITORS.

IN THE MATTER OF THE ESTATE OF Frank Daniel Clement, late of the Town of Deseronto, in the County of Hastings, carpenter, deceased. Notice is hereby given pursuant to Chapter 110, Section 36, of the Revised Statutes of Ontario, 1887, that all creditors and other persons having claims against or liens upon the estate of Frank Daniel Clement, late of the Town of Deseronto, in the County of Hastings, carpenter, deceased, who died on or about the second day of July, 1895, are required to send by post prepaid, or to deliver to Messrs. Deroche & Madden, of the Town of Deseronto, or to Messrs. Deroche & Madden, Solicitors for Janet Clement, administratrix of the estate of the said Frank Daniel Clement, deceased, on or before the 27th day of August, 1895, their names and addresses with descriptions of their claims duly sworn to and the nature of the securities, if any, held by them. And notice is hereby given that after the expiration of the said date the said Administratrix will proceed to distribute the assets of the said Frank Daniel Clement among the parties entitled thereto, and persons or persons of whose claims notice shall not have been received by the said Administratrix, duly verified as above at the time of distribution.

JOHN HERRING, Napanee Agricultural Works

SALVATION ARMY.

The Naval Brigade Brass Band in charge of Adjutant McGillivray will arrive by the Army Cruiser "William Beatty" in Deseronto 11 45 a. m. Monday 19th. A unique street parade will take place and a grand musical demonstration will be held in the B-tracks at night. Admission 10 cts.

Deseronto Race.
 The Deseronto Driving Park Association will hold their annual races on Monday, Sept. 2nd, Labor Day. It promises to be the most successful meeting yet held as nearly all the fast horses of Eastern Ontario have been sent to the track. The races are very valuable and the attendance on such a holiday being likely to be very great.

The Marysville Picnic.
 The annual picnic of St. Mary's congregation, Marysville, which will be held next Wednesday, 21st inst., holds fair to be an unparalleled success. Father Quinn and his people have been working with great zeal and energy to make ample preparations for the vast numbers expected to partake in the festivities of the day. The grove is easy of access. Arrangements have been made with the Grand Trunk which will carry passengers from Trenton on the west and Napanee on the east at one fare good to return next day. Fare from Deseronto only 25 cts. return. Dinner and tea will be served for 25cts each. Prof. Denmark's orchestra will furnish music for dancing. The games and sports will be on an extensive scale and some very exciting contests are expected for the five prizes offered. All that is needed is fine weather to ensure a gratifying success.

A MILE DOWN IN THE EARTH.
 The great novelty at the Paris exhibition of 1900 will be, it is expected, a dive down into the bowels of the earth.

M. Grousseau's plan, which, it has been announced, has been prepared by the management, is to dig a series of eight vertical shafts each six hundred feet in length, one beginning where another leaves off.

Two passenger elevators are to run in each shaft, and there are to be galleries or stations at the end of each elevator journey, where refreshments will be served under the blaze of electric lights.

The excavations will be thoroughly ventilated, and the traveller who descends to the lowest gallery depth will be 4,500 feet below the surface from which he started. The estimated cost is £500,000, which one would think, is quite moderate for so large an undertaking.

DISTRICT ITEMS.
 There are 509 registered dogs in Belleville.

Free Cooler, of Ganauque, was badly injured by a fall.

John A. Corbett, formerly of Pe'leville, died at Davenport, Iowa.

A successful Sunday school convention was held at Robin Mills.

Several new schoolhouses are being erected in Montserrat.

About forty people left Napanee to assist harvesting in the Northwest.

The Methodists of Havelock have added \$100 to their ministers' salary.

Wm. McGregor, of the west end of Keweenaw, was attacked by a vicious bull and badly gored.

At Napanee burglars entered Robison & Co's store and stole \$25, and J. F. Smith's grocery carrying off \$4.

John Jordan, of Montague township, cut some stems of oats on his farm which were seven feet in length and the heads seventeen inches long.

George Nolan, of Clyde, who was to have been married on Monday to Anna McGowan, blew his brains out on Sunday afternoon. He was in good circumstances and highly respected. He wished his marriage to be the happiest, but he refused and shot himself shortly after he ended his days.

THOMAS HURN NOTES.

Whatever God will have us to do He will help us to do it.

To know some people is a standing invitation to be good.

The man who would walk with God can not do it in a crooked path.

Comparing ourselves with somebody else won't make our sinning any safer.

The pleasures of sin are only pleasures for a season.

Some people pray that God will use them, but they want Him to do it in their way.

If you want God to warm others, ask Him to send fire from heaven into your own heart.

If you will make it the habit of your life to look on the bright side, we will always have a bright side to look on.

A revival is as much the result of obedience to certain laws and conditions as the production of an electric light.

Religion pure and undefiled never makes a prayer for the good of men that it is not willing to take off its coat and help answer.

OUT-OF-THE-WAY PLACES.

Greece stands lowest in point of wealth of all the countries in Europe.

A Madagascar correspondent tells of four hundred phantasies being bought and delivered as school picnic treats for \$1—four shillings.

In the Loo Choo Islands, though there are neither vehicles nor public lighting, the inhabitants have letter boxes and telephones.

Habitual toppers are to be photographed in New Zealand towns. Each saloon is to have a gallery of them, and the proprietors who supply liquor to them are to be fined.

In some parts of Japan at a wedding the bride, as a sign of her subjection, kneels and washes the feet of the bridegroom after he has trodden upon raw rice.

A Persian sacred fire which is burning in a temple at Leigile, Persia, is known to have not been extinguished since the days of Rapphorth, who lived twelve centuries ago.

CURRENT SMILES.

After a man loses his ante he goes out in the world to find his uncle—Galveston News.

It is fortunate for most of us that we do not appreciate how much we are disliked.

"What is the golden mean we hear about?" asked one small student of another. "It must be a misson," replied the latter.—Detroit Free Press.

BRIEF BITS.

Life, like the water of the sea, freshens only when it ascends toward heaven.—Richter.

He who always professes his tale with laughter is polished by his impudence and folly.—Lavater.

Without labor there would be no earnestness, and no leading place to nothing to a Great.

Five things are requisite to a good officer—ability, clean hands, dispatch, patience and impartiality.

When thought is too weak to be simply expressed, it is clear proof that it should be rejected.—L'Avanquere.

I know no number of speaking so offensive as that of giving praise and closing it with an exception.—Steele.

Altruism to preserve—U. G. Grant.

When spinning out the time is but the weaving of new sorrow.—Suckling.

In the treatment of nervous cases, he is the best physician who is the most ingenious imitator of hope.—Coleridge.

Nothing is more dangerous than an imprudent friend; better it is to have to deal with a prudent enemy.—La Fontaine.

The woman who is resolved to be respected can make herself to be so even amidst an army of soldiers.—Derwent.

True bravery proposes a just end, measures the dangers, and meets the result with calmness and unyielding decision.—La Fontaine.

The first ingredient in conversation is truth; the next, good sense; the third, good humor; and the fourth, wit.—Sir W. Temple.

Can any man or woman choose duties? No more than they can choose their birthplace or their father and mother.—George Eliot.

Money is only thus far a standard of value; that which it can measure is perishable; that which it cannot is immortal.—Boyer.

GRAINS OF GOLD.

Life is fortified by many friendships. To be and to be loved is the greatest happiness of existence.—Sydney Smith.

What's a real deal of time and case that man alive who is not troubled with the spirit of impertinent curiosity about others.—Anon.

There should be as little merit in loving a woman for her beauty as a man for his property, both being equally subject to change.—Pope.

Laughter is day, and sobriety is night; a smile is the twilight that betwixt them between both, more bewitching than either.—H. W. Beecher.

We must conform to a certain extent to the conventionalities of society, for they are the ripened results of a varied and long experience.—A. A. Hodge.

One watch set right will do to set many by; one that goes wrong will be the means of misleading a whole neighborhood; and the same may be said of example.—Dilwin.

Be not too presumptuously sure in any business; for things of this world depend on such a train of unseen chances that if it were in man's hands to set the tables, still he would not be certain to win the game.—Herbert.

Abstracts, abridgements, summaries, etc., have the same use with burning glasses, when they are used out doors, and learning in authors, and make them point with warmth and quickness upon the reader's imagination.—Swift.

FOREIGN FACTS AND FANCIES.

The dome of the Palais de Justice in Brussels is made of papier mache, and weighs sixteen tons.

The Pope has appointed Right Rev. Father O'Reilly, bishop of Port Augusta, to be Archbishop of Adelaide.

It is probable that in a very few years it will be a common thing to sell electricity in jars, like milk.

Signor Crisp, it is said, wears a shirt of chain mail, made by a Milanese armorer, when he goes out doors.

Paper is being used as an insulating agent for three main telephone wires that are being laid in Nottingham.

The Earl of Jersey owns a margarine factory near London, which turns out 175,000 pounds of butter substitute per day.

A Woolwich cadet was recently killed by a concert ball. He missed the ball on its rebound from the wall, when it struck him in the left temple, producing compression of the brain.

The sign of the decline of the new schools of poetry in France is the appearance of a treatise on the new prosody, explaining their forms of versification and the meaning of their technical symbols.

The Lord Chief Justice of England, at Liverpool assizes, said recently that he saw the diminution of the crime of Liverpool criminals with the diminution in the number of public houses.

Japan's small losses in men in the battles with the Chinese were due to the actual use of a bullet-proof material. Owing to the severe cold, the Japanese soldiers were a quantity of dress silk under their clothes, which they wore life, was found in many cases to have stopped the bullets.

Prince Bismarck is quite a hearty eater for a man of his years. Choices of varied and many kinds and varieties of game are especially pleasing to him, and he likes a good deal of food at certain seasons. He has always been very partial to the delicacies of the table and has even been suspected of an admiration for French cookery.

That Tired Feeling

Means danger. It is a serious condition and will lead to disastrous results if it is not overcome at once. It is a sure sign that the blood is impoverished and impure. The best remedy is

HOOD'S Sarsaparilla

Which makes rich, red blood, and thus gives strength and elasticity to the muscles, vigor to the brain and health and vitality to every part of the body. Hood's Sarsaparilla positively

Makes the Weak Strong

"I have used six bottles of Hood's Sarsaparilla as a general tonic and have enjoyed the best of health. Although I had a strain of work I have had no sick spells for many months and no lost time so I am doubly repaid." THOMAS H. HILL, 201 Brunelle St., St. John, New Brunswick.

Hood's Sarsaparilla

Is the Only True Blood Purifier Prominently in the public eye.

Hood's Pills cure habitual constipation. Price 25c per box.

Orders by mail will receive our prompt and careful attention.

DISTRICT ITEMS.

Smith's Falls has now a daily newspaper.

Antville is being enlivened by horse races.

Almota's rate of taxation has been fixed at 17 1/2 mills.

There are five ladies in Bloomfield who own bicycles.

James Hughes, of Belleville, died last Saturday, aged 75.

The Methodists of Stella realized twenty dollars by a social.

The Roman Catholics of Eganville cleared \$1,100 by their picnic.

Alex. McCoy, a well known fireman of Belleville, is dead, aged 26.

McGowan's mill, six miles from Eganville was destroyed by fire.

James McLean, Pembroke, slipped and fell and broke his collar bone.

A stevedore weighing 35 lbs. was recently captured in the Madawaska River.

George McAllister, North Elmley, had several ribs broken by a kick from a horse.

An unknown man, aged about 23, was out to town by a passing train near Smith's Falls.

W. R. Miller, of Macdonald, killed five coons which had camped in a tree on his place.

W. T. Tilley, formerly of Napanee, has been promoted to a captain in the Royal Engineers.

W. H. Hubbs, two miles from Wellington, shot an eagle which measured four feet from tip to tip of wings.

Two of the Brophy boys, drowned at Ottawa last night, each an insurance of \$10,000 in the Canada Life.

Fire in the lumber yards of the Skillings Whitney and Barnes lumber company, Osgoode, did damage to the extent of \$800,000.

Adam Miller's house at Stella was injured by fire; there was a bee at his place at the time or it would have been completely destroyed.

The saw mills at Annapolis are expected to close down early, the piling grounds being crowded with lumber, few shipments being made this year.

J. H. West, of York, and others are applying for letters patent as a Joint Stock Company, under the name of the West Wheel Co., of York.

Butcher's shrike, northern shrike, are numerous in the vicinity of Picton and Kingston. They have beautiful plumage but a somewhat harsh note.

George Pike, Wolfe Island, planted the seed of sweet potatoes, an experiment large crop.

It is said this bird, from point of beak to end of claws, and 6 ft. from tip to tip of wings. The bird had been frequenting a spring near a swamp for some days and that it appeared to come within range of the hunter's aim. A taxidermist is preserving the skin.

Mrs. Sophie Amey, who lives on a farm in the township of Kingston, was fined by K. Freeman, J. P., and costs for raising her hay on Sunday. In her defence she claimed that she observed Saturday as the Sabbath day.

It was stated that Mrs. Amey is a member of the denomination known as the Seventh Day Baptists, who hold strongly to Saturday as the proper Sabbath. The case will be appealed.

FATHER AND SON CURED

THE VILLAGE OF WHITECHURCH DEVELOPES A SENSATION.

THE FATHER ATTACKED WITH RHEUMATISM AND THE SON WITH ST. VITUS DANCE—A STORY THAT CAN BE VOUCHERED FOR BY ALL THE NEIGHBOURS.

Mr. Joseph Nixon is the proprietor of the only hotel in the village of Whitechurch, and is known to the whole countryside as a man who thoroughly understands his business, and a jovial companion as well. It is well known in this part of Ontario that Mr. Nixon's hotel was destroyed by fire, but that which is characteristic of him he quickly set to work to rebuild. His story, as told a reporter of the *Wingham Advance*, who recently had occasion to visit his locality, will prove of interest. "I was helping to dig out the cellar," he said, "and in the dampness and cold, I contracted rheumatism which settled in my right hip. It got so bad that I could not sit in a chair without doubling my leg back at the side of my chair, and I could not sit in a buggy without letting the affected leg hang out. I suffered a great deal more from the trouble than anyone who has not been similarly affected can imagine. How I was cured is

"I WAS HELPING DIG OUT THE CELLAR."

even more interesting. One day I saw a neighbor whom I knew had rheumatism in his hip, and he was sitting in a chair, and I asked what had cured his rheumatism. Dr. Williams' Pink Pills he promptly replied, and that determined me to try the same remedy. Well, the result is that Dr. Williams' Pink Pills cured me, and that is something other medicines failed to do. I don't know what is in them, but I do know that Pink Pills is a wonderful medicine. And it is not only in my own case," continued Mr. Nixon, "that I have reason to be grateful for what the medicine has done. My son, Fred, who is twelve years of age, was taken with an attack of cold. Inflammation of the lungs set in and as he was recovering from this, other complications followed, which developed into St. Vitus dance, which got so bad that he could not possibly stand still. We gave him Dr. Williams' Pink Pills, with the result that he now was thoroughly cured, and looks as though he had never had a day's sickness in his life, and if these facts, which are known to all the neighbors, will be of any use to anyone else, you are at liberty to publish them."

Dr. Williams' Pink Pills are a specific for all diseases arising from an impoverished condition of the blood or a shattered condition of the nervous forces, such as St. Vitus dance, locomotor ataxia, rheumatism, paralysis, sciatica, the after effects of influenza, and all the various forms of chronic rheumatism, sciatica, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressing and forming of false weakness, building anew the blood, and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excess of any nature. Dr. Williams' Pink Pills are sold only in the village of Whitechurch, and are wrapped in red ink, and are to be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Brockton, Mass., or, Schenectady, N. Y., at 50 cents a box, or six boxes for \$2.50.

Windsor Hotel, Kingston, A. J. Frailek proprietor, is located on Princess Street. When leaving boats or cars take electric cars to the door. Good sample rooms and stables, large airy dining and parlors. First class in every respect. Charges moderate.

MINING TOUR.

The School of Mining, Kingston, will organize a party to go out on a prospecting tour up the Rideau canal to the North of Frontenac and adjoining counties. The objects of the tour are to train men in the methods of prospecting for valuable minerals, and to give them a practical study of the geology of the district. The travelling will be done by canoe, which, with the camping outfit, will be provided by the School of Mining. Each member of the party will pay his own expenses, rounded off at 50 cents a day. It is estimated that the total cost of the trip will not be more than fifteen dollars for each person for three weeks' tour. A deposit of twenty dollars must be made with the bureau by each member of the party, not later than Aug. 20th. At the end of the tour the expended part (less than two dollars), will be returned. The party will leave Kingston on Tuesday, Sept. 3rd, and will be led by Mr. W. G. Miller, of the School of Mining. Catarrh—Use Nasal Balm. Quick, positive cure. Soothing, cleansing, healing.

THE SAME CAT.

B. V. Wolfe, agent of the North German Lloyd Steamship Company in Middleton, N. Y., has a cat that he has for months been trying to get rid of. The cat is given to farmers who have taken their miles away from their homes, time after time, but she has never failed to put in an appearance again at the Wolfe man's house. The cat is named "The Same Cat." The other day Mr. Wolfe went to New York. He put the cat in a bag, and placed it in the trunk of his car. When the train reached Strerling, Mr. Wolfe dropped the cat out of the window. Strerling is forty miles from Middleton. Mr. Wolfe transacted his business in New York and went home. This was on Tuesday. When he went home to supper on Thursday night he found the cat in his house. The cat was the same cat. She got up, rubbed herself on his master's legs, and purring in a way that showed him she was the same cat. He little joke, Wolfe sat down and seemed dazed for a minute. Then he stroked the cat fondly, but respectfully, and said, "You can stay here as long as you like if it's a hundred years. I'll get a gold collar for you and tie it full of red ribbons. Pussy, you're a dandy."

DR. FOWLERS.

Extract of Wild Strawberry is a reliable remedy that can always be depended on to cure Cholera, Cholera Infantum, Colic, Cramps, Diarrhoea, Dysentery, and all losses of the bowels. It never fails.

NEWS OF THE DAY.

Natural gas has been struck at Chatham. Forest fires are raging in Washington Territory.

The coronation of Czar Nicholas II will take place next April.

Baltimore was visited by a cyclone, doing \$50,000 damage, Sunday.

Spanish troops are to be sent from Spain to Cuba to quell the disturbance there.

The German Admiralty Court has issued its finding on the *Elbe-Gratie* inquiry.

Yehina Burk, a prominent farmer near Chatham, has met with a fatal accident.

The imports of gold last week into New York amounted to \$40,834, exports \$2,006,00.

Lawrence Lawless, a clerk in the London Postoffice, shot himself last evening fatally.

The crops reported collected by the Manitoba Government are of the most encouraging nature.

R. D. Theaton, lumber dealer of Lindsay was drowned while measuring lumber on Saturday.

Dr. John R. Alexander, a prominent citizen of Montreal, died on Sunday after a long illness.

The question of annexing Burlington Beach to the City of Hamilton is again being agitated.

'The Triumph of Love

IS HAPPY, FRUITFUL MARRIAGE."

EVERY MAN WHO WOULD KNOW THE GRAND TRUTH: THE PLAIN FACTS: THE NEW DISCOVERY OF THE SCIENCE OF LIFE: THE APPLIED MARRIED LIFE: WHO HAS ATTAINED FOR PAST YEARS AND AVOID FUTURE PITFALLS, SHOULD SECURE THE WONDERFUL BOOK CALLED "CUPID'S PSYCHE: MARRIAGE AND HOW TO ATTAIN IT."

"Here at last is information from a high medical source that most work wonders with this generation of men."

The book fully describes a method by which to attain full vigor and manly power. A method by which to end all unnatural drains on the system. To cure nervousness, lack of self control, despondency, etc.

To exchange a faded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion of the organs of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is purely medical and scientific, useless to curiosity seekers, invaluable to men only who need it.

A despairing man, who applied to us soon after wrote:

"Well, I tell you that first day is one I'll never forget. I felt bubbled with joy. I wanted to hug every body and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIC MEDICAL COMPANY, Buffalo, N. Y., and ask for the little book called "CUPID'S PSYCHE." Refer to this paper and the company promises to send the book, in sealed envelope, without any charge, and entirely free, until it is well introduced.

LADIES OF DESERONTO.

Our assortment of ladies' oxford shoes, in tan color and black, are much superior to any we have ever had. We have taken special care in selecting goods for this department. Call and inspect them when in Napanee or Belleville. Prices range from \$6.00 up to \$12.00, an extra quality shoe for \$1.00. Haines & Lockett, 4 big stores.

DISTRICT ITEMS.

Mrs. W. N. Keeler, of Trenton, died last Friday.

Rev. Vincent Price, late of Belleville, died recently in England.

At Tichborn a bass was caught which weighed 3 lbs. 7 oz.

A grand cake walk occurs at Alexandria Bay on the 23rd inst.

Leroy Cardiff, a nine-year-old boy in Indiana, has committed suicide from the disgrace he felt at his parents' divorce.

Hon. Edward Blake will return home shortly, and then proceed to New Zealand on a tour of inspection, returning to London for the opening of Parliament.

The fourteenth Imperial Parliament of Queen Victoria opened at Westminster.

To remove worms of all kinds from children or adults Dr. Low's Worm Syrup is a safe and sure remedy.

Captain Sweeney, U. S. A., San Diego, Cal., says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by W. G. Egar.

SERIOUS ACCIDENT.

Mr. Milo Slaven of Waupoos, met with a serious accident recently. While walking along he met a boy carrying a jug of machine oil over his shoulder on a stick. Mr. Slaven made a motion at the boy as though he would hit him and the boy jerked back causing the jug to fly off the handle and to strike Mr. Slaven in the face, making an ugly gash and causing him to faint and fall to the ground. The boy who lives on Waupoos Island fled to his boat and was soon seen and shot by a constable where he was. He said "I have killed Milo Slaven," whereupon the story was told and the boy and his father proceeded back to Milo and made a motion at him as though he would hit him but being too weak to go home he had fainted the second time. Mr. Slaven was soon taken to the doctor and his face dressed and is now getting on nicely.—Picton Times.

Now that the nights are growing longer and you find, when reading by gas or lamp light, it necessary to hold the paper farther from you, consult our expert Optician at once. He tests your eyes free and you pay for glasses only when they are required.

Angus McFee & Co.

A WARNING TO SMOKERS.

For some time past certain dealers have been selling inferior brands of tobacco under the name of "T.B." and "T.B." is asked for, thus not only trading on the reputation of the manufacturers but also injuring the sale of the article.

The Geo. E. Tackett & Son Co., of Hamilton, have taken the matter in hand and intend prosecuting the offenders.

Smokers should be careful to see the "T.B." stamp on each plug as, to gain extra profit, unscrupulous dealers tear the tag off other brands and say it is "T.B." and "just a good."

The best cough cure is Haysard's Pectoral Balm. It heals the lungs and cures coughs and colds.

NAPOLEON AND THE BARBER.

Napoleon's smooth face was a sure evidence of his dislike for a beard. In some anecdotes of the Russian campaign there is a story told of the great Emperor and a poor but witty barber, who had occasion to shave him.

Napoleon had made a rather lengthy detour from the line of march with a detachment of officers. Arriving at a small village they refreshed themselves with a good meal and bath. Napoleon, wishing to be shaved, the village barber was called in.

The barber, who was a Frenchman, shaved and passed it industriously over the great Emperor's chin, he remained silent and seemingly motionless, although performing his work with amazing rapidity and smoothness. When he had finished, Napoleon complimented him, remarking, "But, my boy, do you hear such a melancholy race? You should be happy to have the privilege of shaving an Emperor."

"I am doubly happy, your Majesty," "Then what is it that troubles you?" "Alas, your Majesty, when I think of the Kings upon Kings and Emperors that have died without knowing what it was to be shaved by me, I am sad and melancholy."

ANOTHER HAS ENTERED HER REST.

Mrs. Lucy Williams, widow of the late Rev. Hiram Williams, whose name is as an eminent pious lady, was laid to rest in the cemetery by the side of her husband, just as the sun was setting on Tuesday night. She died from paralysis at the home of her son-in-law, the Rev. G. W. Andrews, B.A., at Homesville. The corpse was brought here by train for burial. Rev. Dr. Garolmer, an intimate friend of that venerable couple, attended the obsequies from the station to the grave accompanied by Rev. Amos Campbell, George W. N. Smith, Rev. Nelson Cummings, Isaac DeMille, Nathaniel DeMille, Mr. Turner, G. S. Johnson, old neighbor Mrs. Williams was born in Prince Edward and was in the 72nd year of her age. Four sons and two daughters are left to mourn her demise.—Belleville Ontario.

By consulting our optician you escape any injury to your sight and ascertain the proper cause to pursue regarding the use of your eyes. Write to Angus McFee & Co., 272 Front Street, Belleville.

HOUSES AND HOUSES.

In frame houses there is, unluckily, an almost infinite variety of colored paints. When one passes between the rows of small and cheaply ornamented frame houses which disfigure our suburbs and the many "parks" which run for miles beside our railroads, one could almost wish that paint had never been invented. Are our carpenters and contractors and the buyers of their wares all born color-blind that they can endure without suffering the varied patches of hideous coloring that rush past our aching eyes? Red, blue, green, yellow, and sometimes all four, seven more, on one looking house? But the fault is not altogether in the colors. A red house may be even beautiful if the tint is dark and soft, like that of sumac berries, and half hidden in masses of green. But it is an affront to the eyes when spread over the boards of a high and much be angled house brooding on the sand bank of an unfinished roadway, without even a hint to shelter it. The once much derided white house with green blinds seems much to be regretting favor, and is at least the advantage of a smoking stove protruding to aught but needless, cheerless, and comfort. With plenty of green about it is even beautiful. The white and deep soft red in suitable situations, there is a good combination of cream-color (real cream, not made with chrome-yellow, but by mixing a little yellow ochre with a good deal of white lead) with white trimmings; and there are a few tints of gray or brown which may be used to advantage, but only in two or at most in three shades, and always of the same color, using the lightest for the body of the house, and the darker for trimmings and window blinds. All attempts at window or panelling are odious. Even after one has done one's best to secure softness and uniformity of color, one is impatient for vines to grow, and with their cool greens in summer or changing hues in autumn, or by the delicate tracery of their denuded stems in winter, to soften all crudities of outline or tint.

The minister of Agriculture has issued the following circular:— Several applications having been made to this Department by various Agricultural Societies for an interpretation of section 29 of The Agriculture and Arts Act, 1895, the following is given to the officers and directors of such societies as being the evident intention of the Legislature when passing the Act. By section 9 of the said Act, the object of such societies, as relating to live stock, is confined to two things, (a) the purchase or importation of valuable animals, (b) awarding premiums for excellence in the raising of stock, etc. Sub-section 3 of this section declares that none of the funds shall be expended for any purpose inconsistent with the above. The opinion of the Legislature, as expressed in section 29, was that horse racing as ordinarily conducted is inconsistent with the objects above set forth. It is pointed out, therefore, in awarding premiums for live horses of any class, that form, soundness, a d style shall always be considered as well as speed, and that no horse shall be placed first for speed alone. If, in the judgment of the officers or judges, it is deemed desirable to test the speed of the contesting horses, it is allowable under this clause to do so, but the prizes must in every case be awarded on general excellence as seen in the above characteristics. It is not intended that purses shall be placed, made up of deposits or entry fees from owners of contesting horses, but that premiums shall be offered in the ordinary way. The object of this clause will do away with the professional race horses at our agricultural shows, and tend to promote the development and encouragement of the breeding of sound, stylish, right-stepping horses so much in demand in the great horse markets of the world. It is hoped therefore that directors of Agricultural societies will readily and cheerfully enforce the regulation as thus set forth. JOHN DRYDEN, Minister of Agriculture.

HORSE RACING AT AGRICULTURAL FAIRS.

The minister of Agriculture has issued the following circular:— Several applications having been made to this Department by various Agricultural Societies for an interpretation of section 29 of The Agriculture and Arts Act, 1895, the following is given to the officers and directors of such societies as being the evident intention of the Legislature when passing the Act.

By section 9 of the said Act, the object of such societies, as relating to live stock, is confined to two things, (a) the purchase or importation of valuable animals, (b) awarding premiums for excellence in the raising of stock, etc. Sub-section 3 of this section declares that none of the funds shall be expended for any purpose inconsistent with the above. The opinion of the Legislature, as expressed in section 29, was that horse racing as ordinarily conducted is inconsistent with the objects above set forth. It is pointed out, therefore, in awarding premiums for live horses of any class, that form, soundness, a d style shall always be considered as well as speed, and that no horse shall be placed first for speed alone. If, in the judgment of the officers or judges, it is deemed desirable to test the speed of the contesting horses, it is allowable under this clause to do so, but the prizes must in every case be awarded on general excellence as seen in the above characteristics. It is not intended that purses shall be placed, made up of deposits or entry fees from owners of contesting horses, but that premiums shall be offered in the ordinary way. The object of this clause will do away with the professional race horses at our agricultural shows, and tend to promote the development and encouragement of the breeding of sound, stylish, right-stepping horses so much in demand in the great horse markets of the world. It is hoped therefore that directors of Agricultural societies will readily and cheerfully enforce the regulation as thus set forth. JOHN DRYDEN, Minister of Agriculture.

The village of Hastings has struck its rate at 22c, having just assumed the dignity of electric light.

Two sons of Wm. Cox, three miles north of Cobourg, died in the course of three weeks from consumption.

Alf. Smith, one of A. T. Smith, Kingston, lost the fingers of a hand at Oshawa by the explosion of a mine.

The Deloro gold mine near Madoc has been leased for twenty years and in a short time operations will be in full blast.

IN DEEP DESPAIR A MONTREALER RELATES HIS WONDERFUL EXPERIENCE.

HE HAD TROUBLED FOREHEAD AND LOCAL PHYSICIAN AND WAS OPERATED UPON WITHOUT SUCCESS—DR. WILLIAMS' PINK PILLS CURED WHEN ALL OTHER MEDICINES FAILED.

In times of marvellous cures by the use of Dr. Williams' Pink Pills for Pale People are known, but the one related below was of special interest, owing to the peculiarity of the illness, and also to the fact that it is the present instance the gentleman is well known in Montreal. Mr. Charles Frank, Inspector of the mechanical department of the Bell Telephone Co., at 571 Avenue, in an interview with a Herald reporter, related the following wonderful cure by the use of Pink Pills. Mr. Frank, who is 25 years of age, is a Russian by birth, exceedingly intelligent, speaks several languages fluently, and is now apparently in good health.

"My illness came about in a peculiar way," said Mr. Frank. "Up to three years ago I was in the best of health. About that time while in Glasgow, Scotland, where I was employed as a clerk in a hotel, and while waiting on the Clyde, a storm came up, and I had a pretty rough time of it for a while. I evidently must have injured myself internally, although I felt nothing wrong at the time. On my way home, however, I felt helpless on the street, and had to be conveyed home in a cab, as my legs were utterly unable to hold me up. I was confined to bed for several days in the same helpless condition, when I rallied, but found that my urine was of a strange reddish hue. I called

on a physician, who prescribed, but did me no good. I then called on Sir George McAdam, M. D., who also prescribed and advised me to go to the hospital. I was averse to doing this, and he advised me to try a change of climate, telling me my bladder was affected. I acted on his suggestion, and to the hospital I went. I did not do anything for about a year, as I wished to get cured. All this time my urine was tainted with blood, although I suffered no pain, but this abnormal condition was a source of continual anxiety. I finally went to the General Hospital, where the physician in charge advised me to stay, which I did. After remaining there for five weeks with no benefit, a consultation of physicians was held and an operation suggested, to which I was at first averse. The operation was performed. I was no better, my condition remaining absolutely unchanged. From this time I was continually trying medicines and physicians, but derived no benefit from anything or anyone. I was in despair, as the physicians who had operated on me could not decide as to my trouble. I visited the hospital and they said they would operate again; but I did not care to undergo a second and perhaps equally unsuccessful operation. Some physicians said there was consumption of the bladder, others that it was Bright's disease, but could not cure that strange bloody condition of my urine.

"Finally I went to work for the Bell Telephone Co., some two years ago, where I worked myself up to my present position. But I was in a state of constant anxiety, as I felt myself getting weaker all the time, and was listless and sleepy and weak in the legs. I was also pale and ill-looking, no doubt owing to loss of blood. From a naturally cheerful man I became morose, and gave up all hopes of ultimate recovery. One Saturday, some months ago, while walking along Bloor Street, having seen the advertisement of Dr. Williams' Pink Pills in the Montreal Herald I stopped at John T. Lyons' drug store, and bought a box. I had tried so many medicines that I said to myself, 'If they don't cure me I can't be any worse off than before.' After taking the first box I felt stronger and more cheerful, although there was no change in the bloody condition of my urine. But I felt encouraged and got three more boxes, determined to make a thorough trial of Pink Pills. After I had finished the second box I found my urine was getting clearer, so I continued the use of the pills, taking two every meal. When I had finished the third box my urine was quite clear, and in the first time in three years. I was delighted, and continued taking the pills until I had finished the fourth box. Since then I have had no recurrence of the trouble, and as you can see, the flush of health shows itself in my face. To think that I was cured by a medicine so simple, and so cheap, is a marvel to me. I am sorry that I didn't know about this grand medicine before. I would have willingly given \$200 or \$300 to have been guaranteed a cure by anyone."

"I am willing," said Mr. Frank, in conclusion, "to see anyone who wishes to verify this statement, as I consider it my duty to my fellow-men to make known the gratifying results of the cure of my illness. I have come to the conclusion that Pink Pills are the best and most reliable medicine in existence, and I think everyone should try them."

THE PEARL OF GREAT PRICE

To woman is beauty. Beauty the key that unlocks every door, commands deference inspires homage. But beauty of face cannot exist unless the additional grace, beauty of the body, adds its charm. Fine teeth, sweet breath, rippling laughter—these are the graces that always go together. Ivory teeth are desirable, and strong and sound, remove discoloration and the tartar from the teeth, and renders the breath as fragrant as flowers.

IN YOUR BLOOD

Is the cause of that tired, languid feeling which afflicts you at this season. The blood is impure and has become thin and poor. That is why you have no strength, no appetite, cannot sleep, wrily your head with Hood's Sarsaparilla, which will give you an appetite, tone your stomach, and invigorate your nerves.

Hood's Pills are easy to take, easy in action and sure in effect. 25c.

Cold in the head—Nasal Balm gives instant relief; gently cures. Never fails.

TO CHEAT THE MOTH—

their Food to be Infected Should be Sprayed With Benzene.

It would seem as if an insect so long a household pest as the clothes moth would be well known by the housewife, yet it does not seem to be so. In the adult or perfect stage it is not uncommon to see careful housekeepers who have been long in the habit of flying about the evening lamp without regard to size or appearance, while at the same time little moths are found on woollen clothes that have been long in storage. Clothes moth prefers darkness to light, and insects of this kind are not attracted to lights.

The well-known moth is light brown in color on the front wings and silver gray on the hind wings. The larva is a small white worm with a light brown head. It makes no noise, but burrows in whatever it feeds upon, thus making channels.

Remedies: If clothing and the like can be enclosed in perfectly tight paper bags before the moth begins to fly, they will be completely protected. Out of doors the moths appear the latter part of May or June, and during the month of June the campaign must be vigorously prosecuted. Articles found infested, or if suspected, may be sprinkled, or better sprayed with benzene, and will be little trouble during the remainder of the season. After spraying and airing articles may be safely wrapped in papers or put in tin cans. If tin cans are used, the worth of paper bags is worth far more than costly cedar chests or closets.

Furniture, carriages or other large articles in constant use are not likely to be attacked. If stored they should be covered with paper if this can be done so completely as to leave no opening for the ingress of moths. If this cannot be done then spraying with benzene or bisulphide of carbon early in June, and again in a month or six weeks, should prevent their coming. When more convenient cotton cloth may be substituted for paper in covering carriages or other objects.

FAMOUS VOICES.

Forrest had a deep bass voice that seemed to come from the bottom of his chest.

Bunyan had what was called a persuasive voice. He never scolded in his sermons.

Jeremy Taylor was always very much in earnest, and showed the fact in his voice.

Lord Bacon had a voice described by one of his contemporaries as "very smooth and oily."

Henry VIII. had a voice so gruff that it earned for him the sobriquet of "Bluff King Hal."

Garfield had an exceedingly flexible voice and could mimic almost anyone he ever heard speak.

The Duke of Marlborough had a voice that, it was said, he could be heard above the roar of artillery.

John Van Edwards had sharp strident tones that rivaled unpleasantly on the ear of all who heard him.

Old Kaiser Wilhelm had a soft voice, and spoke in a soothing tone that gave pleasure to all who heard him.

Brigault was known as the "silver-voiced." His tones though not strong were exceedingly pure and sweet.

A Remarkable Cure.—J. W. Jenison, Gifford—Spent between \$200 and \$300 in consulting Doctors; tried Dimes and all other remedies, but failed. He tried a box of Chase's Catarrh Cure. Did me more good than all other remedies, in fact I consider myself cured with a 25 cent box at that.

HANDS AND ANKLES RAW.

For years I have been a great sufferer from itchy skin from the use of cheap soaps. My hands and ankles were literally raw. The first application of Dr. Chase's Ointment relieved the burning itching sensation. One box and a half cured me. It is also an instant relief for chilblains. Henry A. Parmenter, St. Catharines, Ont.

NO HOME WITHOUT IT.

Miller's Emulsion of Cod Liver Oil should be emblazoned in letters of gold upon the altar of every household. It saves life when every other means for the cure of consumption and lung disease fails. For many years Cod Liver Oil was held in disfavor on account of its unpleasant taste, and the inferior quality of its preparations. Miller's Emulsion of Cod Liver Oil revived its use because it is pleasant to take and gives immediate results in creating new blood, and thus giving strength to the body.

For many years I have been a great sufferer from itchy skin from the use of cheap soaps. My hands and ankles were literally raw. The first application of Dr. Chase's Ointment relieved the burning itching sensation. One box and a half cured me. It is also an instant relief for chilblains. Henry A. Parmenter, St. Catharines, Ont.

FORCE OF HABIT.

LONDON PEOPLE HAVE BECOME USED TO THE GREAT REMEDY.

LONDON, Aug. 10.—The despatch from Detroit with reference to the cure from Bright's disease and blood poisoning of Mr. Langley, of this city, by the use of Dodd's Kidney Pills, has recalled the wonderful facts of the case to the citizens, among whom Mr. Langley is well known. It has reminded them that Mr. Langley among other things made an equally wonderful recovery. The use of the pills however has become so universal here, and there has been so many testimonies of its efficacy, that it is hardly excitable as much interest now as it did then when the medicine was less known.

A GLORIOUS LIFE IN WHICH WE LIVE.

We ought, more frequently, to cast out thoughts upon the marvellous achievements of our race, and to realize the fact that the medicine alone there has been an advance all along the line, securing to mankind ever increasing exemption from pain and suffering.

Perhaps the discovery most important to that large class of sufferers known under the general designation of "Nervous" is the fact that people all run down in nerve and muscular force—is embodied in the preparation known to doctors as "Maltine with Coca Wine."

A builder of nerve and muscular tissue is this—as of buoyance and nerve—indeed, by a titful galvanizing that speedily restores the vitality of the system, and more deplorable than the first. No Maltine with Coca Wine gives the needed impetus to the flagging power of the body and mind; it strengthens the system, improves the assimilative functions, and sustains the vital forces, by the impetus of its tonic, brings about the equilibrium of functions, and restores health and energy. Maltine with Coca Wine is sold by all druggists.

A SHORT STORY.

COTTOLENE is the best Shortening for all cooking purposes.

ATRUE STORY.

COTTOLENE is the only healthful Shortening made. Physicians endorse it.

An OLD STORY.

That uncomfortable feeling of "too much richness" from food cooked in lard.

A NEW STORY.

Food cooked in COTTOLENE is delicate, delicious, healthful, comforting.

Do You use COTTOLENE?

Made only by N. K. FAIRBANK & CO., Wellington and Ann Streets, MONTREAL.

THE MISSION FIELD IN FAR ALGOMA.

THE MISSIONARY'S COMPANION.

Mr. Geo. Baskin, missionary for the International Mission to Algoma and North-West, attributes his escape from severe illness timely through summer complaints to the timely use of Dr. Fowler's "Wild Strawberry" remedy. It has been my companion for several years during the labors and exposures of my missionary work in Algoma. While I have not and young people have it in store against the time of need which so often comes without warning.

Yours truly, GEO. BASKIN, Missionary.

HORTICULTURAL NOTES.

The best time to plant evergreens is just before the starting of the new growth.

Peach trees may be planted in the young apple orchard, if you live where peaches grow.

It is not foolish to grow apples and store them and let half of them rot for want of care! The loss of apples from neglect is a serious matter.

Much fruit is lost because there is not sufficient care to put nothing but sound fruit in the cellar. A stitch in time, in such matters, saves nine a year.

Put the cellar in winter fruit is stored that it may not become too warm. Fruit requires a low temperature. Cool off the cellar by opening the windows.

We observe that some of our exchanges, without denying the merits of sunflower culture, pool-pool the idea. It is the old disposition to carry the grain with a stone in one end of the bag for balance.

When grafting, mix together four parts resin, two parts beeswax and one part beef tallow. It must be softened when used, but need not be worked with hand; apply with a stick. If the winds chill it too readily in the vessel, place a piece of glass over it.

GAINED A POUND EVERY DAY.

DYSPEPSIA AND CATARRH OF THE STOMACH CURED BY B. B. AFTER HOURS WAS NEARLY GIVEN UP.

VENTILATION.—For over three months I was very ill from what I believe was a malignant type of dyspepsia. I at once consulted a physician, who treated me with dyspepsia without success. I then went to a specialist who diagnosed the case as Catarrh of the Stomach, his treatment also failed and I was getting worse every day. I could not rest at night and had to walk the floor to get any sleep. I failed from 195 pounds down to 135 pounds and about gave up. I then tried Dr. Chase's Catarrh Bitters as a remedy for dyspepsia. The first bottle made a change for the better and I bought six more being delighted to find myself getting better. Under the use of B. B. I gained a pound a day. I took 18 bottles in all and am now nearly back to my old weight. I recommend dyspepsia to try the old reliable B. B. that always cures. Wm. CAMPBELL, 115 Maple St., London, Ont.

CATARH, RELIEVED IN 10 TO 60 MINUTES.—One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarrh Powder, diffuses the Powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headaches, Sore Throat, Tonsillitis and Deafness. 60 cents. At W. G. Eggar's.

ARE YOU DEAF?

Do you suffer from noises in the head then seal 3 cent stamp and I will send a valuable treatise containing full particulars in home which will show you why you are getting nothing. A splendid work on deafness and the ear. Address, PROF. G. CHASE, Montreal.

Have you ever had in the morning what is fancifully called a "dark brown taste" in the mouth? If so, it is the effect of a deranged stomach and liver, the best remedy for which is a dose of Ayer's Pills, together with a little discretion as to diet and mode of living.

You cannot say that you have tried every thing for your rheumatism, until you have taken Ayer's Pills. Hundreds have been cured of this complaint by the use of these pills alone. They were so potent on exhibition at the World's Fair as a standard cathartic.

SITUATIONS

Have been secured for all recent graduates of the

FASHION HINTS

A wool Tann-o-Shanter, or a straw dowsel stick, are excellent for this. Sew, with a thin spotless veil to keep the hair tidy. A sunbonnet is the best, though. It is sufficiently mannish, and usually more becoming. It adds a tinge of coquetry to a demure face, and demureness to a coquettish face.

Heavy gloves are, of course, the best to wear, and gauntlets are by no means to be despised, as they give the wrist more freedom than do the buttoned glove. The different shades of tan and brown dogskin, with the big buttons, are quite the smartest. In the gauntlets the tan suede is the

brown, as quickly as possible, and rub the forehead smooth with the fingers. Frowns are exceedingly unlovely, and ways try to revenge themselves by leaving a disfiguring crease on the brow. Check them of this by remembering not to scow. A fruitful source of wrinkles is the habit many have of sitting before a blazing fire "toasting" themselves, and thinking back with their faces puckered into a hundred infinitesimal creases.

cream lace all made by hand. The fronts are made broad enough to gather a little into the collar band and long enough to blouse a trifle at the belt, and are worn with tailor-made blazer coats of cloth, tulle and linen. Colored batiste blouses with tucked muslin and lace collars and cuffs and a wide plait down the front are charming little additions to the wardrobe.

In many states cottonseed meal is produced in such quantities as to sell for one cent per pound. The same states will buy annually millions of dollars' worth of meal and flour at an average of one and a half cents per pound. The economic advantages of the use of cottonseed meal as human food are obvious.

ly. The wood used should be such as will harmonize with the other furniture of the room, or, if that is of a variety of woods, as is frequently the case, more latitude may be taken in selecting a handsome wood for this purpose. Oak, ash, cherry or white wood may be used with good effect. Let the top and front be treated with simplicity, placing the work of finishing in the direction of securing a handsome service, rather than an ornamentation of "filigree" work, that is neither effective nor in good taste.

Hints to Housekeepers.
Never allow meat to be put on ice, as its juice will be absorbed. But place the meat in a cool place free from dampness.
Nothing is better to clean or scour knives (steel ones) than ashes. They should be very fine or they possibly may scratch. The ashes should be sifted.

Soda will clean tinware excellently; apply with a damp cloth and then rub.

Lemon juice or salt will remove ordinary iron rust.

To brighten the carpet. Dip the broom in water in which has been sprinkled ammonia. Shake the broom off well and apply to the carpet.

Drinkable coffee will clean cream-colored lace beautifully.

Never use soap on oil-cloth as it fades the colors. When the colors have become dim from constant use, it may be beautifully brightened by giving it a thin coat of coal varnish.

Mildew may be removed from a piece of goods by putting in a spoonful of chloride of lime in a quart of water, strain, and dip the mildewed piece in it. Repeat if necessary.

Either Married or Widows.

There are sixty banks in the United States where women are employed, and, curiously enough, out of the whole number all, save one, are either married or are widows. Another curious feature of this employment is that no two women are found at one bank, and no two banks where women hold positions of any kind are located in the same city or town. The posts filled range from bank trustees, presidents, vice-presidents, to cashiers and

Fly Poison.

An effective fly poison, which has the merit of being poisonous only to flies, is made of the yolk of an egg beaten up with a tablespoonful each of ground black pepper and molasses. It should be poured in shallow plates and set about. This is a simple process to catch the few flies that slip into a house before the screens are put up.

Men and Women Dress Alike.
To this day Lapp men and women dress precisely alike. Their tunics belted loosely at the waist, their tight breeches and their wrinkled leather stockings, their pointed shoes; the whole appearance of them, in short, is identical.

Latest Novelty in Watches.
The latest novelty in watches resembles a large button and is worn on the lapel of the jacket. When indoors many women use the long muff chain, passing it twice around the throat. This is a revival of a

Medicine is not a profession into which a woman may go; it is a place where she should go. There are certain branches of that profession where no one but a woman ought to be, just as there are other departments into which she has no desire to enter. The woman who studies medicine should do so, not because she considers that

that lawyer men can do women are fitted for, which is nonsense, but because she realizes that parts of his profession are essentially her work.

The two little white points turning out the stock collar of imported dresses may be described as the half of an oblong square turned from opposite corners, which are sewed into a band of muslin or linen worn around the neck inside the dress collar. The tabs may be of fine batiste hem-stitched and edged with a narrow lace of Valenciennes or Mecklin in white or yellow or they may be of plain sheer linen hem-stitched or embroidered. The shape may be also a square.

These collars, from the Priscilla band the shoulder collar of cape-like proportion form an important item in the summer girl's wardrobe. Most of the thin-styled gowns are trimmed about the neck and

shoulders, relying wholly upon the adjustable collar of lace or embroidery for ornament. Different colors may thus be worn at different times with the same gown, giving the effect of entirely fresh toilet. A collar of lawn with fine tucks and of pointed yoke shape, is edged with a trill all tucked. There is a straight choker collar with perpendicular tucks. Where the ruffle is fastened to the yoke and the yoke to the collar, there is a finish of Russian veining. A second collar is of the same cut as the first, but in place of tucks there are insertions of fine embroidery and ruffle of the same. A third is trimmed with a fine gauze or tulle.

With tuft dresses, trim sets of pla-
turn-over collar and cuffs are much worn
and give an appearance of exquisite neat-
ness to simple attire.

Hobbin' or Pillow Lace.

"Have you ever thought," said a brig-
lady not long ago, "that a common arti-
cle of one generation is often a 'curio'
the next?" The object that called forth
this remark was a yellow piece of lace
made lace, known as "hobbin' or 'pillow
lace."

The making of hobbin' lace has never
been popular in the United States, but in
England and the continent it has been an
industry that at times has been considered
of national importance.

There are two general classes of hanc-
ma lace, and should the lighter class be

or needle point, has entirely taken the place of bobbin lace. Ladies fond of decorative needlework, naturally take to the art of making "point lace," not only because it is its day, but also because it is better, but because it can be easily carried off. For "thimble parties," and such functions, the dainty stitches form and multiply while millie plays her needle in and out, adds her bon net to the hum of social conversation, and the time passes away in tasty gowns set in little groups with needlework that does not detract from the real object of the party, namely, its social feature. With bobbin lace, the size and weight of the cushion or pillow, the position of the disarranging hair, the hands of the bobbins, and toward making this, *lure* what it is, a mechanical labor.

rather than a pastime. And we are no fond of labor unless it is disguised.

It is said that for centuries lace was sacred to the service of religion only, on account of the amount of labor required in making it; the Church alone could afford it.

Although as a work of art bobbin lace does not rank with needle-point, yet many valued laces are ranked with this class of work. Brussels, Mechlin and Valenciennes are all cushion lace.

Bobbin or pillow lace is supposed to

have originated in Italy at the close of the fifteenth century, although it has been claimed that it is a German invention but at the history of the art does not begin at St. Annaberg earlier than 1562, and lace was exported from Italy in 1530, the former country may claim its origin. Germany and Switzerland and other countries in time specialized this work, and in course of time characteristic laces were produced that had a local character, such as Brussels, etc.

The piece of lace referred to at the beginning of this article was described by its owner as having been made in Europe in the 20s of this century. It was made on a "rops" cushion of green color. This pillow was filled with bran or sawdust until it was hard.

woolen and leather leggings are both un-
comfortably warm, and many women are
adopting golf stockings in preference to
either. They are great things for those of
slight build, for they certainly disguise the
thin ankle and calf, and for this is the
very reason are worn by many of the
women of symmetrical limbs. Though
looking hot and thick they are decidedly
cool, being very loosely woven; in fact, so
loose that they are objectionable to
many men. The shops are making great
use of bicycle leggings and boots in all shades
of russet and tan, most of the boots reach-
ing to the centre of the calf and being made
of a material which confines the
bloomer below the knee. The
shoe, however, is a broad-soled, low-heeled
Oxford tie to be worn with leggings.

Ladies' Costume.

A pretty costume consisting of a particularly graceful French blouse was made over a fitted lining and with quite the latest thing in collar and sleeves; and three-gored skirt with three small shape box-plaits in the back, which measured 5½ yards around the bottom—quite full enough for any useful purpose.

This model is entirely adapted to the

A black and white illustration of a woman in profile, facing left. She is wearing a high-collared dress with vertical stripes and puffed sleeves. The background is plain.

A fawn crepon with a shading of salmon pink in the undermeshes, will make up exquisitely with cream white batiste embroidery over the lining of pink for collar, revers and cuffs.

Black silk grenadine over a silvery green apple green, or changeable blue silk lining, may have the same white decorative

The stylish rever shoulder collar may be developed in lace, mull, batiste or broderie or grass cloth, whether to be worn with silk, wool or wash fabrics. Cream white muslin or pure grass cloth decorated with a delicate, green, fern-like pattern.

Beauty Only Skin Deep

The day of the pretty typewriter like day of the rose when summer really settles down to business, is about over. It is to be expected that as the novelty wears the ephemeral type of business woman would brush away like superfluous leaves and leave only the sturdy stock to

ure. For years the novelty lasted a while it did, men put up with bad orthography, faulty punctuation and a score of other evils to retain in their employ so pretty girl with a doll-face and baby was as ill suited to the practical demands of every-day routine as a painted cockatoo would be for an incubator. Gradually, a new generation came around to make

the innovation of women into business is of a novelty, the idea grew in the commercial mind that it were not bleached and beauty that was needed to make the type-machine a success and the stenographer's pencil an adjunct to prosperity. As the thought grew, the revolution went on, until there really seems to be a prospect that the middle-aged and unprosperous bread-winner is to have a chance

body who has not kept both eyes open in this state of things knows exactly how the subordinating merit to appearance has been carried. Worthy women of a aptitude have been driven to the by popinjay youngsters whose only claim to consideration was good looks joined in a pert manner and jaunty dress. The first and only requisite looked for when a

But Still Watching.

LOCAL ITEMS.

Frank McMaster will resume his old position in Apothecaries Hall.

Editor Young, of the Trenton Courier, and Mrs. Young are enjoying a trip to England.

A new post office called "Bromley Line," has been opened about four miles from Westmeath village.

A photographer has a way of taking things that would not be tolerated in any other line of society.

London has decided to convert into parks and playgrounds for children the 173 disused graveyards in that great city.

Ohio leads the States of the Union in the number of pensioners—99,837. New York is next with 89,642, and Pennsylvania third with 89,387.

The Journal states that Rev. H. B. Patton is rapidly becoming popular with all classes in Prescott, and that he is proverbial for his pleasing and genial manner.

The longest broken stretch of telegraphic cable in the world is that which connects the Red Sea with India, 3,590 knots being the total length of cable used.

The steamer Eurydice, of Toronto, passed down on Sunday morning on her way from Toronto to the Thousand Islands. She was aground for three hours at Presque Isle.

L. H. Luck, the new principal of the public school, arrived in town last week. He has taken up his residence in the house on Thomas street vacated by Dr. Newton.

Revs. Crossley and Stratton's excursion to the Thousand Islands last Saturday was very well patronized and pronounced one of the most enjoyable ever held by these gentlemen.

Frank Vance of the General offices, has returned home from a visit to his sister at Towanda, Pa. He wheeled from Oswego to Towanda, a distance of 173 miles, in two days.

John Mark, of the Reserve, has brought in a few samples of 1891 corn raised on his farm. The tallest stalk is 9 ft 11 in. high. He has two and a half acres and all nearly the same height.

E. S. Westmoreland will forward another large shipment of heavy cattle and sheep to Montreal to-morrow. Most of the heavy cattle are shipped from Montreal to the English market.

The annual school expenditure in the United States is \$2.40 per inhabitant; Great Britain has an expenditure of \$1.20; France spends 50 cents; Germany 50 cents and Italy 25 cents.

Principal Dyer, of Albert College, Belleville, had a narrow escape from heart failure, at Glen Island, on Thursday night of last week. It took several hours' hard work to restore the circulation.

The recent touching vote as to whether North Bay or Mattawa should be the county town of Nipissing resulted in a majority of five for North Bay. Why not make two counties and make each a capital?

Wm. Drumme, gravel road, Tyendinag, boring for water struck a fine flowing well. The water is beautifully cold and clear and has a decided mineral taste. It will not be surprising to find that it possesses medicinal properties.

At Belleville market last Saturday the following prices obtained: potatoes 50c to 60c per bag, apples 30c to 40c per bag, pears 25c to 40c per bushel, plums 10c per quart, butter 15c to 25c, eggs 9 to 10c, chickens 35c to 50c per pair.

L. Wright is agent in this district for Olette of Iron the most valuable article in existence for polishing and preserving harness, buggy tops, carriages, shoes, etc. It is waterproof and is also extensively used for curing cracked hoofs. Livermen consider it unequalled for all these purposes.

Apple dealers should bear in mind that the law provides a heavy penalty for packing inferior apples with good ones, to take nothing of the serious disappointments and loss occasioned in sales. It doesn't pay to ship poor apples under any circumstances. The packers are of course the parties blameable.

Rev. John C. Kimball, a well known Unitarian clergyman of Hartford, Conn., with his wife and daughter were in town on Saturday. They are enjoying a cruise up the St. Lawrence and through the Bay of Quinte on their yacht Emily. Mr. & Mrs. Smithers, of Clayton, accompanied them as far as Deseronto.

Carpenters have been busy shingling the roof and making other improvements to the Callaghan house.

A great many intend to take in the excursion to the Thousand Islands on the steamer Merritt to-morrow.

Harold Rathbun and George Egar started off to Toronto on Monday, making the journey on their wheels.

At Belleville on Tuesday twenty-one factories bore 1,230 boxes of cheese. There were no sales at 70 and 75c.

A second listing of the order of Canadian Foresters will be instituted in Deseronto. The list of charter members will soon be completed.

Do not fail to take in the I. O. F. excursion to the Thousand Islands, per steamer Merritt, Saturday, August 24th. Steamer leaves dock at 9 a. m.

David Smith was back to the Bald Mountains last week for a load of huckleberries. He reports a very poor crop except in low lying localities.

The flower plots in Central Park are looking very pretty and visitors say that they are looking to be compared to them in neighboring towns and cities.

If you have hay to buy or sell, or are in any way interested, send postal card request for sample copy of the Hay Trade Journal, Canajoharie, N. Y. It will save you money.

In the athletic sports which took place at Tipperary, Ireland, the other day, J. M. Egan, the champion, broke the record for the high jump, clearing six feet four and a half inches.

Rev. J. H. M. Coleman, of St. Mark's, will be ordained to the priesthood by the Archbishop of Ontario at a special service to be held to-morrow in St. George's cathedral, Kingston.

W. J. Malley, of the West End Pharmacy, has done little or nothing this week but receive the congratulations of friends on the arrival of a son and heir at his house. No use now to dispute his qualification as a member of the Public school board.

The election for the vacant seat in the Dominion commons takes place in Westmoreland, N. B., to-morrow. The candidates are, Powell, government, and Killam, opposition. At the general election the government carried the riding by a majority of over two thousand.

Herbert D. Poitras left on Monday, on a visit to relatives in Burlington and other parts of Vermont. He is wheeling the whole distance, passing through Northern New York. He has also an invitation to join a number of friends in a coaching tour to the Adirondacks, so it is evident that he has a royal time ahead of him.

Nat Nairn, who has been assisting Mr. Egar in Apothecaries Hall during the past year, will take a course in the College of Pharmacy, Toronto, at the approaching session. He left on Monday for his home in Mothwell, wheeling the whole distance. He made a great many friends while in Deseronto, being courteous and affable.

It is announced that Lord Wolseley will succeed the Duke of Cambridge as commander-in-chief of the British army. The appointment is everywhere hailed with satisfaction. It was feared that the Duke of Connaught, a son of the Queen, would get the appointment for which, like the Duke of Cambridge, he is totally unfitted. It is probable that the service will now be thoroughly reformed.

W. Stoddart and D. Armstrong enjoyed three days outing and fishing at Charleston Lake last week. W. Duxce, of Napanee, accompanied them. They went by train to Lyn where Robert Bryson joined the expedition. At Charleston Lake they were joined also by John and Allen Armstrong, father and brother respectively of D. Armstrong. They caught many fine fish, and were more than delighted with the picturesque beauty of Charleston Lake which they consider one of the best summer resorts in Ontario.

A party of twelve consisting of Mr. and Mrs. A. G. Knight, Mr. and Mrs. S. Russell, Miss Davis and Miss Gertrude Davis, Miss Poitras, Miss Sutherland, Miss Carr, Miss Grace Poitras, Wm. Knight and Ralph Carr enjoyed a trip to the Sandbanks on Monday afternoon. The drive was delightful and as there was a stiff northwest wind blowing the surf on the lake shore rolled in quite majestically. The Sandbanks is one of the most delightful resorts in Ontario. The proprietors say that business is not so brisk as last year, a fact probably due to lack of advertising in the press of Canada and New York States.

The Post Office Department has found it necessary to issue instructions to postmasters in order to correct a very common misapprehension in regard to the postage on open or unsealed letters. The law is that a letter which has been left open is not on that account entitled to any reduction in postage. A letter or any communication of writing serving the purpose of one, must be prepaid at letter rate, whether the envelope containing it is open or closed; and if any letter goes forward insufficiently prepaid, the postmaster at the receiving office is charged to be careful to collect double the deficient postage on delivery.

Messrs. Phillips & Richardson, writing to the Rathbun Company from Fortage in Prairie, under date of Aug. 15, state that there had been no frost in Manitoba up to that time. Some people get alarmed even when the thermometer stands at 50. The lowest recorded temperature for six weeks was 48. At that time a great deal of cutting had been done in southern Manitoba. Very little had been done in the section, but it was expected that the harvest would be in full swing the following week, the weather being perfect for ripening the grain. They stated that the crop was magnificent everywhere and that its removal by the C. P. R. would be a difficult problem.

The Schools.

The high and public schools reopen next Monday. All pupils should be present on that day so that classes may be formed and work proceed without delay.

Midland Fair.

The sixth annual fair of the Midland Agricultural Society will be held at Kingston, Sept. 2nd to 6th. The Society is putting forth strong efforts to ensure a success. For information address, J. P. Oram, secretary, Kingston.

Surgical.

On Wednesday Dr. Yeomans, in the presence of the other medical men of this town, removed an abdominal tumor from Mrs. Norman Williams. Misses Frank Hudson and Lottie Edwards, two registered nurses late of Belleville hospital, are in attendance upon the patient.

Citizens Band.

The citizens Band have been engaged to play at Kingston fair on Monday, Sept. 2nd, Labor Day, and at Belleville fair on Thursday, Sept. 19th. This speaks well for the band and its excellent reputation as a musical organization. In past years they gave unequalled satisfaction on such occasions.

Deseronto Gun Club.

The Deseronto Gun Club is now organized, W. D. McRae, an ardent sportsman and crack shot, having been elected president. The club have purchased a large quantity of material for their practices which will be held regularly in the driving park. There are many good shots in Deseronto and the club will afford much amusement.

Deseronto Races.

The Deseronto races will be held in the driving park, Monday, Sept. 2nd, being Labor Day. They promise to be the best ever held here. All the horses of Eastern Ontario which have been at the other meets in this district will be present to compete for the liberal purse offered by the directors. As the day is a general holiday all over the harvest celebration will be very great.

Harvest Home Picnic.

The congregation of Christ Church, Tyendinag Reserve, will hold a harvest home picnic in the Parsonage Grove, on Thursday, 29th inst. The committee are making arrangements on a very extensive scale and guarantee a most enjoyable event. Dinner and tea will be served at popular prices. The Mohawk Brass Band will furnish music. Addresses will be delivered by W. B. Northrup, M. P., and other members of parliament. There will be a large attendance.

Canadian Oddfellows.

On account of misrepresentations the Canadian Order of Oddfellows was some time ago cut off from connection with the Manchester Unity. The Grand Lodge officers of the Canadian Order appealed to A. M. C. and Board of Directors, and A. D. McIntyre, secretary of Local Hastings Lodge of the Canadian Order of Oddfellows, has received the welcome news that the Canadian Order had been restored to the same privileges with the Manchester Unity as it once enjoyed.

To Belleville and Twelve O'Clock Point.

The steamer Merritt will carry an excursion to Belleville and Twelve O'Clock Point, from Picton, Deseronto and Northport, on Tuesday August 27th. The steamer leaves Picton at 7:30; Deseronto 8:45; Northport 9:30; Belleville 10:45; reaching the Point at 11:45. Returning will leave the Point at 3:30, and Belleville at 4:30. Tickets from Belleville to Twelve O'Clock Point 15c. from other parts to Belleville or the Point 25c. Proceeds will be devoted to the organ fund of York St. Sunday school, Picton. A. S. Carson, superintendent.

Burth's New Sensation.

George Burth's New Sensation is making a grand triumphal progress through the Western peninsula of Ontario. The great pavilion is crowded to excess and Mr. Burth has been frequently asked to give return dates. The press notices are of a most flattering character and it is evident that the New Sensation has succeeded in gaining the popular heart to an extent not often vouchsafed to travelling companies. The members of the company are enjoying good health and are naturally very much elated by their success. The New Sensation appeared yesterday at Cayuga, Haldimand.

Shannonville Fair.

Now that the Marysville picnic is over the next great event to be looked forward to in the district is the annual fair of the Tyendinag Agricultural Society, which will be held at Shannonville on Saturday, September 28th. The directors are confident of their ability to make this event one of more than ordinary merit. The prize list is very large and has been carefully arranged so as to ensure lively competition. There will be special prices for speeding in the district. Those wishing information should address A. Macfarlane, the secretary, Melrose P. O.

Visiting Country Friends.

On Wednesday evening a large party of young people drove out in the direction of Burry Hill in response to an invitation from a farmer who asked them to bring along thirty or forty—the more the merrier. There were about fifteen in the party and as they approached the house they commenced to sing and cheer in their exuberance of spirits. They were completely taken back when their anticipated host said that if they could not make less noise they had better not come at all. They took this as a hint that they were not welcome and resolved on an immediate change in the programme. They accordingly proceeded to the residence of Mr. Martin where they were cordially welcomed and spent a most enjoyable evening. All's well that ends well.

PERSONALS.

Mrs. Sherwood, of Napanee, has been the guest of Miss Hathorn during the past week.

Mrs. W. B. Graham and family returned home last week after a month's visit to friends in the States.

Miss Annie (Uncle) of Kingston, who has been visiting in town as the guest of Miss Smythe, returned home by the Hero on Monday.

Miss Cameron, of Rochester, N. Y., is the guest of her grandmother, Mrs. Heggarty, Thomas street.

A Rountree, Peterboro, for selling liquor without a license, was fined \$50 and a fine, and it being his third offence he loses his license.
The Cobourg Advertiser says: That a state of subsidence was noticed by J. W. Roberts' garden measuring 5 ft. 1 in. from end to end; 3 ft. 1 in. across the leaf; 6 in. around the stalk; and weighed 16 lb, 13 1/2 oz. What a whopper!

Mr. David Yerr, lot 12, con. 2, Mariposa, the other day, picked a few heads of Rosebuds or 'Aide, out from a field, one of which on being cut was found to contain 200 double kernels or 400 grains. Mr. Yerr has 24 acres of this oats, and he anticipates a bountiful yield.

An accident of a peculiar kind, entailed the loss on Saturday morning last of a fine horse belonging to Mr. Thos. Brown, of Colborne. The animal would not become familiar with the harness and in order to be able to bring about that result, Mr. Brown tied it with a rope to a tree on his premises while a bicycle accident occurred. It became very much excited, and pulled until the rope snapped causing it to tumble over and sustain injuries which resulted in its death.

While Sell's circus, was in Brockville on Wednesday the female hippopotamus belonging to the menagerie gave birth to a baby hippopotamus. The male and female started to kill the baby and it had to be taken out of the cage. Then it was put in with the mother alone, when she attempted to kill it and it had to be taken out again and placed in a cage by itself. The baby weighs fully 100 pounds and an attempt will be made to raise it on corn meal. Sell's Bros. have had the pair of hippopotamus fifteen years. They were quite young when they got the pair, and this is the first time they have bred. The new arrival will be christened "Brockville," in honor of the place of its birth.

Catarrah—Use Nasal Balm. Quick, positive cure. Soothing, cleansing, healing.

THE PASSING OF THE STREET CAR HORSE.

It has been estimated that electric railways have displaced in the United States no less than 275,000 horses, and the movement has not yet stopped. It is claimed by a Tokyo paper that that many horses would require about 125,000 bushels of corn or oats a day. A decrease of 125,000 bushels a day in corn and oats consumption is enough to appreciably affect prices of those grains. It amounts to 45,000,000 bushels a year. Furthermore, the loss of this commercial demand for these coarse grains in the cities means an enormous loss of tonnage for the railroads—about 62,000 carloads.

DR. FOWLERS.

Extract of Wild Strawberry is a reliable remedy that can always be depended on to cure Cholera, Cholera Infantum, Colic, Cramps, Diarrhoea, Dysentery, and all loose stools of the bowels. It never fails.

NEWS OF THE DAY.

Lucien Bonaparte Wynn, the French explorer, is not dead, as reported a few days ago.

Archduke Franz, nephew of Emperor Francis Joseph and heir to the throne, is dangerously ill.
Gibney, insurance agent of Orillia, has disappeared, and no trace of him can be found.
William Taylor was convicted of perjury and larceny at Brockton on Friday. He was sentenced to six months.
Mr. O'Leary, the millionaire miller, after a tour of inspection in Manitoba, makes a hopeful cruise as to the wheat harvest.
It is said that Republicans in portions of Spain are taking advantage of despatch of troops to Cuba to make uprisings for the overthrow of the monarch.
The English and American commission for inquiring into the massacre of missionaries in China have arrived at Kucheng, and a number of arrests have been made.
A schooner collided with a steamer upon the Miramichi River, in New Brunswick, near Black Brook and swept three girls into the water. Two were drowned.
The British expedition sent to punish the revolted tribes of Fombasa, in Africa, has had some fighting.
An explosion in a barracks at Tula, in Russia, killed 300 persons, it is said. Nineteen are blamed for the outrage.
Probably 25 persons were killed by a boiler explosion in a Denver, Colo., hotel Monday, and a great many others injured.
Five boys, ages ranging from fourteen to sixteen, were drowned on Sunday at Village des Avallons in L'Islet County, Quebec.
The barber at the Clifton House, Niagara Falls, Joseph Booth, committed suicide Monday afternoon by going over the falls.
The building in Englewood, Ill., known to newspaper readers as "Holmes' Castle," was totally destroyed by fire Monday morning.

Lawrence Crowley, a seventeen-year-old boy, was struck by lightning and instantly killed in his father's barn near Sebringville on Saturday.
Joseph Berlier has been arrested in Montreal for fraudulently drawing the life pension of his father from the Dominion Government after his father's death.
The Montreal express over the New York Central, which was delayed by a defective freight car, was derailed by a defective freight car on a mile north of Neshamony Monday morning. No one was seriously injured.

C. E. Carboneau, until recently Manager of the Canadian Trading Company, Montreal, has been arrested for alleged fraudulent dealings. Sensational developments are expected.

Miss Marie Sullivan, seventeen-year-old daughter of Thomas Sullivan of Raleigh Township, Kent County, was drowned Thursday evening by a boat upsetting. The girl's companions had a narrow escape.

Weakness is the symptom, impoverished blood is the cause, of Hood's Sarsaparilla cures. It makes the weak strong.

SUDDENLY ATTACKED.

Children are often attacked suddenly by painful and dangerous Colic, Cramps, Diarrhoea, Dysentery, Cholera Morbus, Cholera Infantum, etc. Dr. Fowler's Extract of Wild Strawberry is a prompt and sure cure which should always be kept in the house.

A GREAT WATERWAY.

The great lakes are, perhaps, the most distinctive feature of the American continent. They occupy an elevated plateau, which is, for the most part, a vast expanse of level land which spreads out between the Alleghenies and the Rocky mountains. They cover nearly 100,000 square miles of our national territory, and are bounded on one half of the fresh water on the globe. Lake Superior is 603 feet above the level of the sea. Lake Erie is 176 feet below the level of Huron and Ontario by the great cataract and rapids of Niagara is brought to a still lower descent of 333 feet. The river, more properly speaking, the strait of Sault Ste. Marie is a series of channels winding among innumerable islands. Some of these, as St. Joseph and Drummond, cover many square miles. They line the whole northern coast of Lake Huron. The rocks that here lift their bald peaks from the waves are the primitive rocks or primary rocks of Canada, which Agassiz declared: "The new world is the real old world. Here was the first land lifted out of the water; here was the first shore washed by the ocean that enveloped all the earth before the deluge."

The Detroit river—the strait between Lakes Erie and Huron—was named by the Jesuit missionaries, who were the first white men to set foot in this region—is one of the unique streams of the world. From Windmill Point Light Lake Ste. Claire to Fort LaSalle, it flows a distance of twenty-seven miles, 1,515 yards. Its greatest width is three miles, and its average depth is thirty-four feet. The Detroit river is the natural drain, or channel, of 82,000 square miles of lake surface and of 125,000 square miles of land, thus rivaling the Ohio which is more than forty times as long. The mean current of the Detroit is 1.97 miles an hour. Such is its potential description in epitome of the greatest chain of natural waterways in the world.

By consulting our opinion you escape any injury to your sight and ascertain the proper cause to pursue regarding the use of glass. Test free. Angus McFee & Co., 272 Front Street, Belleville.

Sick headache and constipation are promptly cured by Burdock Pills. Easy to take, sure in effect.

A GREAT DISCOVERY
Fast... For Cotton and Diamond Dyes... Mixed Goods.

The Only Complete Dyes on the Market that Make Fast and Unfading Colors.
The Fast Diamond Dyes for Cotton and Mixed Goods (12 colors) are triumphs of science. They are new and important discoveries, controlled by Diamond Dyes, and are found in no other pack year has been sent out by the only living brother, the venerable Roger B. Conger, enjoyed meeting each other very much. Mrs. McMillen is in her eighty-ninth year. The three are the children of Stephen Conger, who died in 1827 and was active and prominent as an early settler in Prince Edward the close of the last century. Old records in the possession of the family also show that Stephen Conger was married at Kingston on July 14th, 1863. Thus in this family the latter parts of the two centuries are linked together.
Owen Roblin is still living at eighty-nine, but was too feeble to make his visit to Pictou with his wife.—Pictou Gazette.

A FAMILY RE-UNION.

Mrs. Owen Roblin, Amesbury, accompanied by her daughter, Mrs. Webb, and her grandson, W. H. C. Roblin, paid a visit to her sister, Mrs. D. McMillen, Pictou, on Wednesday. Although Mrs. Roblin is in her eighty-fifth year she was not specially fatigued by the drive of eighteen miles. Mrs. Roblin, Mrs. McMillen and their only living brother, the venerable Roger B. Conger, enjoyed meeting each other very much. Mrs. McMillen is in her eighty-ninth year. The three are the children of Stephen Conger, who died in 1827 and was active and prominent as an early settler in Prince Edward the close of the last century. Old records in the possession of the family also show that Stephen Conger was married at Kingston on July 14th, 1863. Thus in this family the latter parts of the two centuries are linked together.
Owen Roblin is still living at eighty-nine, but was too feeble to make his visit to Pictou with his wife.—Pictou Gazette.

EDUCATIONAL REGULATIONS.

The following regulations as to candidates for junior and senior leaving examinations of the Central Training School, Department, it was generally understood that the new regulations would be put in force at the opening of colleges, which would be in the month of September, or two in their work. But this is not so, as they will be allowed for the next two years to pursue their work and get their certificates under the old regulations. The following is the provision under present regulations for all such candidates:—
Candidates who, in 1895, have a certificate obtained under former regulations, or are entitled to write for a junior or senior leaving certificate, may at the examination of 1897, if they so desire, have the subject of the certificate re-examined under the regulations of 1893, and as defined in the regulations of 1890. For candidates for a junior leaving certificate, the examination of 1897, on application shall be the physics and botany prescribed for Form III under the regulations of 1893.

Candidates who have failed at the junior leaving examination of 1895, or a preceding year, but have passed in English grammar and rhetoric, arithmetic and mensuration, history and physics, shall, on application to the Education Department, be entitled to a certificate of having passed Part I of the second form examination, and may write for a junior or senior leaving certificate under the regulations of 1895.

Candidates who held commercial certificates obtained under the regulations of 1895 and who present themselves at the examination of 1896 or 1897, shall be exempt from the first form examination.

HOW TO PRONOUNCE VALKYRIE.

There has been much talk and many opinions about the word "Valkyrie" the name of Lord Dunsany's epic challenger as to pronunciation and meaning. Mr. Oswald G. Dunsany, a dictionary to the *Wish* which stated that the word was pronounced as Val-kir-ree not Val-ki-ree as it is generally pronounced. Valkyrie is a Scandinavian word and means "northern goddess or destiny of the battle field."

THE MOST remarkable cures on record have been accomplished by Hood's Sarsaparilla. It is unequalled for all BLOOD DISEASES.

CATARH RELIEVED IN 10 TO 60 MINUTES—One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarrh Powder, diffuses the Powder over the surface of the nasal passages. BRISTOL'S PILLS
The Wonderful Cheap Man.
FRONT STREET - - - BELLEVILLE

Gough
THE WONDERFUL CHEAP MAN.

Always Good at GOUGH'S.
They Came, They Bought, as They Never Bought Before!

And still they come, and still they buy. Busy yesterday—busier to-morrow. We have to "hustle," trying to get every customer served quickly and properly. Straw Hats, Summer Shirts, Summer Underwear, Summer Clothing and Summer Neckwear were most in demand. But we have the goods this season—as we always have—and we are selling at very close prices—as we always do. That's why we have your trade. We want your trade, and we know that the right way to get and keep it is to have a good variety of everything and to sell cheap—cheaper than anybody else.

Our Summer Campaign.

Our summer campaign for business is carried on on business principles—keeping the best clothing for the best money. We are just far enough away from Farkerville to consider living a pleasure. Merchants all over Canada are trying to figure out where we get goods to sell so cheap. Sometimes they club together and petition manufacturers not to sell us, and sometimes they swear the goods are not as represented, and sometimes they buy the goods to sell again.

Success hasn't come by chance. This business has grown because you wanted it to. Your encouragement gave us the right to go ahead.

Men's Summer Clothing.

We have sold an immense quantity of clothing this far. Come and see what we can sell you in Light summer Coats and Cool Vests, Sporting, Camping and Vacation Suits, etc.
200 Men's Suits in Sack Tweeds have been marked \$8.45 and \$9.50, but they have been knifed and 5 dollars takes any. Fine English unshrinkable flannel coats and vests, striped and check, all sizes, \$3.
Fine French Lustre Coats and vests in stripes and plain effects, various shades, \$2.50.
Fast Black Lustre Coats, all sizes, silk finish, \$1.75.
Blazer Coats, 75c. \$1.50, \$2.
German Lustre Coat in black or grey, all shades, \$1.
Men's White Duck Trousers, the sort American Tourists are wearing, two qualities, \$1.40 and \$1.75. Shapely and swell.
Men's White Duck and Pique Vests, pearl detachable buttons, all sizes, 75c.
10 doz. English Cashmere and silk Fancy Vests, washable, mother-of-pearl detachable buttons, worth \$1.50 for \$1 each.

Boys' Summer Suits.

Boys Galatea Suits, fast colors, all sizes, sailor collar, 90c.
Boys' Twaed Coats, 75c—a snap!
Boys' Blazer Pants, 50c and 75c.
We like to talk Boys' Clothing to parents—especially to mothers. We like to draw their attention not only to our low prices, but we have something even more important—namely, the style and finish and the strong wearing qualities of our Boys' Suits:
Boys' Washable Sailor Suits, \$1.25, \$1.50 and \$1.75.
Boys' Twaed Suits, \$1.50, \$1.75, \$2 and \$2.50.
Boys' 3-piece Suits, \$3, \$3.75 and \$4.
Youths' Suits, \$4.50, \$5 and \$5.50.

Straw Hats.

We welcome comparison. Does anybody know of a larger Hat Store in Canada than ours? Large and roomy enough to enable us to serve great crowds with ease. Our Hats are not all in the windows—they are on the ground floor—thousands to choose from at prices lower than ever. Light weight Felt Hats in very many shapes, just the Hat for present wear. Hats and Caps for touring or a bicycle. Any kind you want for boys or children.

Like Mary Ann, we have "followers," but imitation is sincerest flattery.

Tourists, the correct thing, start at 60c; Fedoras, all full-felt, as low as \$1; Derbys, all colors, right shape, \$2; Stanley Hat, sole agents, \$2.50; Caps, Varsity, all colors, 15c.

In Advanced Years

The strength and pure blood necessary to resist the effects of cold seasons are given by Hood's Sarsaparilla.
"I have for the last 25 years of my life been complaining of a weakness of the lungs and colds in the head, especially in the winter. Last fall was again attacked. Reading of Hood's Sarsaparilla I was led to try it. I am now taking the fifth bottle with good results. I can positively say that I have not spent a winter as free from coughs or pains and difficult breathing spells for the last 25 years as was last winter. I can lie down and sleep all night without any annoyance from cough or pain in the lungs or asthmatic difficulty."
E. M. CHAMBERLAIN, Jr., Cornhill, N. B.

Hood's Sarsaparilla
Is the Only True Blood Purifier

Prominently in the public eye today.
Hood's Pills pure blood medicine. Price 25c. per box.

MILLER'S ANNUAL SUMMER SALE

—IS NOW GOING ON—

Everything in Summer materials will be offered for sale at clearing prices.

No more quoting prices, as they give no idea of values. Come and see the goods and get prices.

We need to make room for Fall Goods, which will very soon be coming in.

R. MILLER,

ST. GEORGE ST., DESERONTO,
We are Agents for Swiss Steam Laundry, Toronto.

All Ready in Our New Store!!

IN THE BAKER BLOCK.

We are now showing the most complete stock of

Dry Goods, Boots & Shoes, Hats & Caps

—AND—

READY-MADE CLOTHING

—ever shown in Deseronto.—

Space will not admit of enumeration of prices, but a careful inspection of the above lines will repay intending purchasers.

J. J. KERR.

Main street, Deseronto.

We are, to-day, opening a second consignment of

SPRING IMPORTATIONS

which will be passed through the Customs and placed at the disposal of customers on Saturday, the 13th inst. The public are fully aware of the superiority of the lines we import, and of the fact that we keep our season in advance of the Wholesale trade in Canada.

Mr. Hall has a complete stock of imported fabrics for Spring and Summer wear. Call early, as orders are being placed rapidly.

You can get all the leading lines of foot wear from us—newest styles and best makes.

Cooking Stoves and Ranges, for wood, coal or gas; best assortment in Canada. Also Tinware and all kindred goods.

Groceries and Provisions all bought on a wholesale basis and sold accordingly.

We want all the Produce Farmers have to dispose of.

Your patronage is respectfully solicited.

THE BIG STORE.

THE RATHBUN COY,

per A. A. RICHARDSON

Deseronto, April 15th, 1895.

Manager.

WEAKNESS OF MEN

Quickly, Thoroughly, Forever Cured by a new perfected scientific method that cannot fail unless the case is beyond human aid. You feel improved the first day, feel a benefit every day, soon know yourself a king among men in body, mind and heart. Drains and losses ended. Every obstacle to happy married life removed. Nerve force, will, energy, brain power, when at low ebb are restored by this treatment. All small and weak portions of the body enlarged and strengthened. Victims of abuse and excess, reclaim your manhood! Sufferers from folly, overwork, early errors, ill health, regain your vigor! Don't despair! Even if it has been robbed you. Let us show you that medical science and business honor still exist here go hand in hand. Write for our book with explanations and proofs. Sent sealed, free. Over 2,000 references.

ERIE MEDICAL CO., Buffalo, N. Y.

LADIES OF DESERONTO.

Our treatment of ladies' exfoliated skin, in tan color and black, are much superior to any we have ever had. We have taken special care in selecting goods for the department. Call and inspect them when in Napanea or Belleville. Prices range from 25c up to \$1.00, an extra quality shoe for \$1.00. Haines & Lockett, 4 big stores.

The best cough cure is Haysard's Pectoral Balm. It treats the lungs and cures coughs and colds.

Now that the nights are growing longer and you find when reading by gas or lamp light, it is necessary to hold the paper farther from you, consult our expert Optician at once. He tests your eyes free and you pay for glasses only when they are required.

Angus McFee & Co., 310 Front St., Belleville.

Shiloh's Cure is sold on a guarantee. It cures incipient consumption. It is the best Cough Cure. Only one cent a dose, 25c a bottle. W. G. EGAR.

Windsor Hotel Kingston, A. J. Fralick proprietor, is to be sold. The hotel is on the corner of the street. When leaving boys or cars take electric cars to the door. Good sample rooms and stables, large airy dining hall and bedrooms. First class in every respect. Charges moderate.

DISTRICT ITEMS.

PEA GROWERS, ATTENTION

Now is the time to attach a

PEA HARVESTER

To your mowing bar, so as to be ready to cut peas.

If ground and vines are dry we guarantee first-class work.

PRICE REDUCED TO \$10.00.

JOHN HERRING, Napanee Agricultural Works

Address a Postal Card to

C. B. SCANTLEBURY,

Belleville,

The WALL PAPER KING of Canada.

Then write upon the other side:

Dear Sir—
189
Please send me samples of Wall Paper suitable for (mention rooms) and not to exceed (mention price) per single roll. I saw your advertisement in (mention paper).
Yours truly,

YOU will receive by return mail samples of Wall Paper suitable for any kind of a home, and which we positively guarantee better, and lower in price than any other house in Canada. The samples will be large and in sets comprising Wall Paper and Border, and will enable you to make a selection for an entire house as you sit by your own fireside and with your friends to assist in the selection.
You have absolutely no responsibility in the matter—you simply write the postal as above and we do all the rest—send you samples enclosing order blanks, a guide "How to Paper or Economy in House Decoration," showing how to estimate the quantities required for the different rooms, and directions for ordering, etc., in fact we entirely relieve you of the trouble and anxiety of Wall Paper shopping. We positively guarantee satisfaction. Can we say more?
Our Mail Order Department reaches throughout the Dominion. We pay the express charges on all orders of a reasonable size. Full instructions with samples.

NOTE.—Steel Tubular Axle Wagons.

TYENONAGA RESERVE.

Frank Claus attended a quilt tournament at Woodstock last week where he succeeded in capturing a prize.
The annual Harvest Thanksgiving service for the parish will be held at All Saints church on Sunday morning, September 3th.
The Missionary and family took in an excursion to Twelve O'Clock Point on Tuesday.
The picnic took place in the best picnic ground in the Bay district except the Parsonage grove.
Your correspondent took in Father Quinn's picnic on the 21st which was fine.

BARDOLPH.

The camping season is about over and campers are starting for their several homes.
Harvest is over and thrashing is the word of the day and although the season was dry the grain averaging a good yield.
The Sunday schools of the different appointments of Bay circuit held their annual picnic in E. Kendall's grove on 3rd inst., to the enjoyment of all present.
The Rev. E. H. Visser, wife and children and Mrs. Dixey, of Boston, are visiting at their father H. Woodcock's Bay.
School is again opened and little travellers are again directing their course towards the school house.
Robert Sherman, an old land mark has been laid to rest.

MARYSVILLE.

Miss Hattie Daven, of Napanee, is the guest of Miss Annie McNeil this week.
J. E. Ryan and F. H. Port left on Monday to attend the high school in Deseronto.
Johnnie Farrell, of Trenton, spent Sunday at home.
Miss Mary Callaghan, of Campbellford, was the guest of Miss K. Drummond last week.
Miss Maggie Barrett, of Napanee, spent a few days with her friend, Miss White, recently.
Mrs. Scanlin entertained a number of her young friends one evening last week and her report having a good time.
On Saturday Aug. 24th, many excursionists from the surrounding country attended the I. O. O. F. excursion to the local island.
Among the many were Mr. and Mrs. Port, Mr. and Miss McCullough and Mr. W. Tripp.
A few of the young people spent a pleasant evening at the home of Mr. Joe McNeil, last week.
Mrs. Joe Farrell, of Stoc, has returned home after spending a few days with friends here.
Mrs. Lafferty is visiting friends in Stirling this week.
M. J. Hunt, of Reid, spent Sunday in Marysville.

YARKER.

A large number of spectators witnessed an interesting baseball match on the baseball grounds here on Friday between Bath and Yarker. The game was a close one, the home team by the following score:
Yarker..... 0 0 0 0 2 3 — 8
Bath..... 0 0 0 0 1 0 0 0 — 7
And the home team had one inning to spare.
The home team played a perfect game with the exception of a couple of errors in the first innings which gave the visitors six runs.
Mr. Robin, of Bath, is an exceptional strong pitcher and does it with considerable grace.
The visitors had a large number of the fair sex to encourage them in their game. But the girls got very calm before the game was over. We expect a strong game when return match is played.
Dominion wheel factory is closed for repairs.
We are to have another wheel factory here under the management of West and Co. Arthur and Chas. Miller, of Russell, N.Y., and Miss Lena Boyd, of St. Paul, Minn., are visiting at Mr. West's.
Mrs. Margaret McLaughlin, of Fulton, N.Y., left Chas. Nolla.
A. W. Benjamin has returned from some months camping down the Ottawa river.
Our sports are making great preparation for duck shooting.

CENTREVILLE.

All the farmers are through with their harvest and report a good yield of grain. Thrashing has commenced. Hop picking will commence on the 2nd of September. The hops are large and of a good quality this season.
Our road contractors are now busily engaged finishing their contracts, the time for the completion of such having nearly expired.
Mr. & Mrs. Wm. Weese were visiting friends at Cloyne for a few days during the past week.
School reopened on the 19th inst.
Everyone around here intend taking in both the County and Township fairs, particularly the latter. A concert will be given in the Hall in the evening, the proceeds to go to the benefit of the poor.
An excellent troupe will be engaged to assist in the performances so that a rare treat may be expected.
The majority of the farmers here attended the cattle fair held at Croydon on the 21st inst., but very few cattle changed hands there and at low prices.
Gordon Storrings, Overton, paid friends here a visit last Sunday evening.
A peddler passed through here one day last week and for the benefit of his friends we would advise him to have his life insured before he makes a similar visit. To get all you can and pay for nothing seems to have been his motto. The order will be reversed the next time he puts in an appearance.
Several from here attended the Patrons' picnic at Croydon on Monday.
The eloquent addresser given by Messrs. Haycock and Wilson were greatly appreciated by all who heard them.
Patrons' seems to be fast gaining strength in this neighborhood.
Messrs. D. Dunn and M. Knolly have returned after paying an extended visit to friends in Deseronto.
Miss Jennie Longdaley returned to Victoria on the 21st, after spending a couple of weeks with friends here.
Rumor says a wedding soon.

GREEN POINT.

Mrs. Charles Cornwall, of Long Island, N.Y., Miss Adah and Zillah daughters of ex-Rev. Cunningham, of Hollowell, are visiting at Mr. H. Carman and other relatives.
A. Vandusen, Miss E. Mabel Carman were visiting friends in Trenton and Belleville last week.
Allen Francis of Napanee, Mrs. John Dorsey, of Pictou, and Mrs. E. Cronk, of Chicago, are the guests of Mr. and Mrs. A. Van Dusen. Providence brings together the de-servings.
Rev. Mr. Rodger, who is assisting Rev. Mr. Marsh, is engaged in a protracted service at Mount Carmel, the last two weeks.
Mr. H. T. Carman drove over to Bethel on Sunday to visit his brother-in-law, Thos. Loraebek, who met with a very serious accident in Pictou last week.
Mrs. A. J. Warner, of Hillsdale, Michigan, has spent several weeks visiting here.

NORTH MARYSVILLE.

A jolly fishing party went out to the main Ducks fishing, Wednesday, the 14th inst. Before leaving the cove the party presented Mr. J. B. Fryer with a handsome gold-headed cane. They report having a splendid time.
Mr. Dollie Slater, of Cressy, was married to Mr. W. H. A. of Toronto, on Wednesday, 14th inst.
John Milne, Grand Organizer of the A. O. U. Y., left for Deseronto last Thursday and as a result fourteen new members were initiated Friday evening.
The Ladies Aid of Waupoos church purpose holding a Harvest Home dinner in the near future.
Waupoos again defeated Cressy at baseball about time ago and we now hear Waupoos purpose challenging Kingston Princess street nine.
Miss Baker, of Clayton, is visiting friends in Cressy.
Mr. and Mrs. Byron Hicks and Miss Wadsworth, of South Bay, were renewing acquaintances in Cressy and Longsands Sunday.
The Messrs. Davy, of Bath, were the guests of Capt. A. G. Stanton, on Sunday.
Mr. John Priyner spent a few days in Kingston last week.

Mrs. Northill and daughter Maggie have returned from Woodruff.
Miss Dean's house is undergoing repairs.
T. Maxwell who has been visiting his brother at Alexandria has returned.
Visitors—Mr. and Mrs. John J. Chicago; Mr. Ellis and Mr. Cliff, Kingston; Mrs. Barnett, the Messrs. Beaul, Deseronto;

the Messrs. Cresham, New York; Mrs. Ardern, Toronto; Mrs. Thos. Winnings; Miss Daggar, Montreal; Mr. & Mrs. and Miss Minnie, Kingston; Mrs. Mace, Toronto; Messrs. Guy and Pen, Camden East; the Messrs. Henig, Kingston; and Miss McDonald, Yarker.

GREYNA.

Harvesting is nearly finished, the crop when gathered seems to be ahead of the calculations, those that have threshed are still better pleased.
Timothy and Ben Scrimshaw have rented the farm lately occupied by James Hambley.
Last Friday the Sunday school held their annual picnic in Edward Handell's grove. The day was a little dull during the morning, but the afternoon turned out fine. They were met by the Hay Bay, Sunday school and before two o'clock the grounds had the appearance of a real picnic. The young ladies were engaged at base ball, the young ladies pitching quots, others with croquet, rather down there were swings going in full blast. The game given by the teachers for races, and about five o'clock the committee called the entire crowd to the grass, the children were seated on the grass, then visitors &c., after during justice to the good things brought there, they began to pick up the balance of the morning, but the song God Save the Queen, the parties broke up to leave for home with the intention of making this a yearly gathering. All were so well pleased to have such a social time.
Rev. Mr. Snowden has commenced for a Harvest home service next Sunday evening. There will be special music and the church beautifully decorated with flowers, fruit, and grain.
John Hambley had a valuable colt cut with the wire fence last week.
Miss Carrie Davis, of Napanee, spent last week visiting her friend Miss Ella McKelvey.
We are pleased to see Mr. McCarton able to be out again after having such a serious illness caused by a heavy gore from a cow.

THE PASTOR'S WIFE.

AN INTERESTING INTERVIEW WITH MRS. (REV.) F. B. STRATTON.

THREATENED WITH PARALYSIS—WEAK, EMACIATED AND UNABLE TO STAND FATIGUE—PINK PILLS RESTORE HER HEALTH.

The Rev. F. B. Stratton, of Selby, is one of the best known ministers in Bay of Quinte. His wife, Mrs. F. B. Stratton, is the President. During the two years Mrs. Stratton has been stationed at Selby, both he and Mrs. Stratton have won hosts of admirers among all classes for their unassuming and sincere Christian work. Some time ago Mrs. Stratton was attacked with partial paralysis, and her restoration having been attributed to the use of Dr. Williams' Pink Pills, a reporter of the *Beaver* was sent to interview her. In reply to the reporter's question, Mrs. Stratton said that she had been greatly benefited by Dr. Williams' Pink Pills and was perfectly willing to give her experience that those similarly afflicted might be benefited. Mrs. Stratton said that before moving to Selby she had been greatly troubled by a numbness coming over her head, and a feeling of paralysis which, when she moved, felt as though hundreds of needles were sticking in the flesh. For over a year she had been troubled in this way, with occasionally a dizzy spell. She was becoming emaciated and easily fatigued and was unable to get sleep from this trouble. The trouble seemed to be worse at night. Mrs. Stratton had become greatly alarmed at her bad state of health, and it was feared that complete paralysis would ensue as Mrs. Stratton's mother, the late Mrs. Weaver, of Igershall, had been similarly stricken, at about the same age. Known by the name of "Pink Pills" where Mrs. Stratton had been previously stationed, who had been cured by Dr. Williams' Pink Pills, was determined to give them a fair trial. When Mrs. Stratton began using the Pink Pills she was very thin and her system badly run down, but after taking the pills a month, all her ailments disappeared, and she found her health and strength renewed and her weight increased. Mrs. Stratton is about fifty years of age, more healthy, robust, and younger looking lady is seldom seen at that age. In reply to the reporter's inquiry as to why Pink Pills had done for his wife, Mr. Stratton said, "Look at her, look at her, doesn't she show it," and the reporter could not but admit the truth of the statement. These pills are a positive cure for all troubles arising from a vitiated condition of the blood or a shattered nervous system. All at dealers or by mail from Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N.Y., at 50 cents a box, or 3 boxes for \$2.50. There are numerous imitations and substitutes against which the public is cautioned.

COCA AND ITS USES.

We are wont to associate this new drug of marvelous medicinal properties with the grateful beverage of the breakfast table, but they are quite different in source and in properties. Coca is a most beneficial gift to the sick and suffering, as is attested by its rapid rise in vogue, and by the reliance now placed upon it by the most eminent practitioners in Europe and America.

Coca with Coca Wine is the most reliable form in which the full medicinal value of coca may be obtained and the striking results derived from its use in nervous exhaustion, debility, weakness, or palpitation of the heart, warrant the high appreciation of its merits expressed by medical men who have used it in their practice. Matinee with Coca Wine is not a patent medicine, but a highly specialized pharmaceutical and scientific preparation to cure disease in the only way disease can be cured, viz., by helping nature. This it does by aiding digestion and assimilating its food, and by imparting tone to the nervous system. Matinee with Coca Wine is worthy of your confidence. Sold by all druggists.

Douglas Bro & Co., Napanee Ont.

Dear Sir—Having thoroughly tried the sample of Liniment left at our stables, we consider it to be as represented, and just what we required. Please send at once twelve dozen bottles.

GILMOUR & CO., TRENTON, ONT.

IVORINE MAKES DISCOLORED TEETH WHITE.
Ivorine, the new dentifrice, displaces all other preparations, because it does good work. Discoloration and roughness are speedily removed and the teeth white and bright. Ivorine is fragrant and makes the breath sweet and refreshing. Preservative to sound teeth and decay retarding. Ivorine removes tartar and discolorations and makes the teeth beautifully white.

THE THIMBLE.

A thimble was originally a thumb-bill, because it was worn on the thumb, as sailors wear their thimbles. It is a Dutch invention, and in 1884, in Amsterdam, the bi-centennial of the thimble was celebrated with a good deal of formality. This very valuable addition to the lady's work basket was first made by a goldsmith named Nicholas Van Benschoten, the ancestor of the Van Benschoten family of Van Benschoten. The first thimble was made in 1684 to Anna van Wely, the second of Kiliaan van Rensselaer, the purchaser of Rensselaerwyck, and the first Patron. Madam van Rensselaer's memory was duly honored in Holland on the occasion of the thimble bi-centennial.
In presenting his useful gift Van Benschoten begged Madam van Rensselaer to accept this new covering for the protection of her diligent fingers as a token of his esteem.
It was not until 1695, just two hundred years ago, that the thimble was introduced into England by a goldsmith named John Lofting, who opened a thimble manufactory at Islington.
To remove worms of all kinds from children or adults Dr. Low's Worm Syrup is a safe and sure remedy.

PATRIOTIC TO THE LAST.

A couple of Englishmen en route from Rome, were joined by an American, whose blatant patriotism first amused, then bored them. The American was a man of means, and he was always something in America to elope it, according to our countrymen. The Americans determined to teach the Yankee a lesson, and taking advantage of the chronic thirst of their companion, they piled him with all the liquor he could imbibe in by a regular interval from the nose of the prostrate patriot, his companions concluded that he was dreaming of the Fourth of July, and would therefore be a nuisance to the party. They procured a sheet, purloined from their hotel and until now carefully concealed, they took the Yankee by the collar, and rolled him up, and then left him to "do" the Catskills on his own account.
Retaining an hour later they found him still sleeping. One of them drew him under his coat a tin-filled, and blew upon it a blast just sufficient to grant and produce a first-class case of the syndrome of the sleeper. A second blast, however, longer and louder, brought him to a sitting posture, with eyes wide open and senses all alert. A moment of bewilderment, and then he exclaimed, joyously: "Gabriel's trumpet! Resurrection day! First man up! Hurry! America still ahead!"—From the "Editor's Drawer," in *Harper's Magazine* for September.

Windsor Hotel Kingston, A. J. Frick, proprietor, centrally located on Princess Street. When leaving boats or cars take electric cars to the door. Good sample rooms and stables, large airy dining and billiard rooms. First class in every respect. Charges moderate.

ROYAL ART STUDIO.

Our new studio will soon be ready, then we intend showing the people of Deseronto something entirely new in photography. We have been experimenting with the process while our building is being remodelled and can guarantee something new and permanent. Prices will be right and every photograph perfect.

ANDERSON & CO.
272 Front St.
Belleville.

LOCAL ITEMS.

Duck shooting becomes legal next Monday.
License Inspector Lally was in town last Friday on official business.

There is a change in the partridge season this year; it now opens on the 15th of September.

E. Tinsley, chief warden, parliament building, Toronto, kindly forwards us a copy of the "Ontario Game Laws" of 1895.

The *Piton Times* states that Henry R. Pope has sold his promising mare Nettie P. to George Stewart, Deseronto, for \$200.

A young lady in the East gave a five o'clock tea yesterday. There was a pleasant party and all enjoyed themselves most heartily.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c, 50c, and \$1.00. Sold by W. G. Edgar.

The *Rebelle* Reba, formerly of Fredericksburg, but now at Melita, Man., lost five thousand bushels of wheat, their whole crop, by a hailstorm of unprecedented violence.

For 1000 Islands. The Last Trip of the season. On Saturday, August 31st, the steamer *Verona* will make the last trip of the season to 1000 Island Park.

Mr. Donnelly and his partners soon released the *Resolute* and she gained deep water none the worse of her experience. She cleared for Charlotte on Monday afternoon.

No person shall expose or keep for sale, or sell or barter, or give to any other person any snipe, woodcock or partridge, no matter where killed or procured, before the fifteenth day of September.

A. B. Heller of New York City, who frequently visits Deseronto, was elected president of the National Cynquet Association of the United States at its late meeting in Norwich, Conn. His many friends here extend congratulations.

In the Woodstock "quoting" tournament Frank Claus won his first and second games, but was beaten in his third by John Cowan, of Bright, Kitchener, Toronto, won the first prize of \$25. Claus won in the first and second rounds of the second series.

A number of shameless girls from Napanee drove up to this town on Thursday evening, last week, and made themselves objectionable by their talk and conduct. The chief drove them out of town at eleven o'clock and they are found again in town they will be arrested.

The Order of Fraternal Guardians are paying attention to demands and will have a balance to the good. It has been discovered that its financial affairs were in excellent condition and it would have fulfilled all engagements had not a few disgruntled members in Philadelphia caused its dissolution on some legal technicalities.

The steamer *Nellie* Outhbert taking the trip of the *Verona* on Monday morning broke her crank this side of Northport. She broke down to Peterson's ferry where Capt. Fowler of the ferry boat took her in tow to Deseronto. Her passengers went to Piton by the *Rebelle* in the afternoon. Repairs were effected at the Deseronto Machine shops.

According to the game laws none of the contrivances for taking or killing the wild fowl known as swags, geese, or ducks, which are described or known as batteries, snipe guns or snipe traps, shall be used at any time, and the wild fowl known as ducks or other water fowl shall be hunted, snipe or killed from snipe boats or steam rafts. The warden in this district will enforce this part of the act most vigorously this year.

The eldest Spartan of the R. & O. N. Co. has been selected as a school boy. He was named Thomas. He was a pugger in her bottom and she settled down. She was afterwards got off and brought to Kingston dry dock for repairs. The *Terribles* also struck the rocks in the Cascade rapids but managed to reach the foot of the *Beauchamp* canal where she settled in seven feet of water. It was found that her injuries were slight.

Two *Estimote* has been asked to draw attention to the conduct of several young girls who had left and continued presence on the streets make them almost a nuisance. It is unfortunately the case that there are too many girls in town who are absent from their homes almost every evening of their lives. Home appears to have lost all its charms for these young persons. Their parents are especially distressed by this young people and a hanging word upon their names. There is a lack of parental or moral influence which young people thus show the parents' loss. Parents are not without blame, especially those who make no effort to control their child and wandering propensity of their daughters.

MONUMENTS.

A monument is something you buy but once.

Cautious buyers prefer to know just what they are getting.

Pictures and designs are often misleading.

Intending purchasers will take no risk by selecting from my large stock of Granite and Marble Monuments on hand this Spring.

Grocers, Feed and Seed Merchants,
BELLEVILLE, ONTARIO

Napanee has fixed its rate of taxation at 20 mills on the dollar.

Six boxes of iron tonic pills at Eggar's for \$10.00.

The Methodists of Parady cleared \$75 by a harvest home picnic.

John Purdy, Ernestown, has a crop of corn averaging eleven feet three inches.

Richard Hann, a former resident of Adolphustown, died in Belleville last Sunday morning.

Thos. Hanley, the contractor, is making rapid progress with the extension to Albert College, Belleville.

At Belleville on Tuesday twenty-five factories boarded 1,925 boxes of cheese. 650 were sold at 8c.

The trunk line of the Bell Telephone Company between Montreal and Toronto will soon be completed.

Prof. John Fletcher, M. A., of Queen's College, Kingston, has been appointed to the professorship in Latin in University College, Toronto.

R. W. Goddard will represent the Y. P. S. C. Endeavor Society of the Church of the Redeemer at the Provincial convention in Brantford in the closing week in September.

Miss Renix, of Mr. Dalton's millinery novelties, left on Wednesday to attend the ladies' openings in Toronto and study the latest novelties and styles for her department.

Michael Wright the oldest agent of the Belleville corporation, is 54 years of age. At present he is laid up with a broken leg. Mr. Patrick Hart, of Deseronto, is a daughter.

Harvesting operations in Manitoba are now well advanced. The crop is immense, exceeding all anticipations. Frosts have done some injury but not enough to effect the general outlook.

The picnic under the auspices of Christ church came off in the personage grove yesterday. Despite the heavy rain of the previous night there was quite a rush of visitors, and all were enjoying themselves.

Norman W. Williams, of the *Weekly Courier*, Sault Ste Marie, is in town and favored us with a call. He came to Deseronto to attend the funeral of his mother. He likes the country on the Upper lakes and believes that there is a great future for Sault Ste Marie.

Mr. David Earl Burdett died at Belleville on Sunday aged 67. By a strange coincidence his brother Daniel A. Burdett, of Newburgh, died on the same day. The latter, who was a successful business man, was father of F. D. Burdett, auditor of the Bay of Quinte Railway. Both brothers were much attached to each other.

Mr. Norman Williams, of the *Weekly Courier*, Sault Ste Marie, is in town and favored us with a call. He came to Deseronto to attend the funeral of his mother. He likes the country on the Upper lakes and believes that there is a great future for Sault Ste Marie.

Mr. David Earl Burdett died at Belleville on Sunday aged 67. By a strange coincidence his brother Daniel A. Burdett, of Newburgh, died on the same day. The latter, who was a successful business man, was father of F. D. Burdett, auditor of the Bay of Quinte Railway. Both brothers were much attached to each other.

Call at the Royal Art Studio and have your photograph taken with the "Stanger" the very latest.
Herbert A. Osborn.

At Last.
At last we have the correct figures of the yield of that fourteen acres of land on John McCallum's farm near Marysville. Mr. McCallum tells us that it was 374 bushels. It shows what careful cultivation can accomplish.

Baseball Pitch.
A game of baseball will be played next Monday, Labor Day, between nine of Bath and Deseronto. This will be the decisive game of the season, each of the clubs having won a game. There will be an exhibition of football play, games called at 10 a. m. Admission 10 cents, ladies free.

Induction Service.
The Presbytery of Kingston will hold a special meeting in Deseronto on Tuesday, Sept. 12th, at 7:30 p. m. for the induction of Rev. W. S. McTavish, B. D., into the pastoral charge of the congregation of the Church of the Redeemer. At the same meeting Mr. W. V. Peck will be licensed to preach the Gospel.

Notice.
In addition to issuing tickets at reduced fares on the occasion of the Roman Catholic fair at Toronto on the 4th of September, the Bay of Quinte Railway authorities desire to inform the public that these tickets will be good to return on the day following the picnic, thus allowing all who may desire to do so to remain over for the ball in the evening.

Deseronto Races.
Next Monday, Labor Day, is the date of the annual races at the Deseronto Driving Park. Everything indicates a day of great sport. The entries are very numerous for all the events and all the best horses of Eastern Ontario will compete for the valuable prizes offered. The boats and trains carry passengers at reduced rates and there will be a large attendance.

Sodality Day.
The members of the A. O. U. W. R. O. T. M. G. O. O. F. and Brighton Fire Co. will hold a Union Society Day, to day, Aug. 30th, on the Agricultural Grounds, Brighton. There will be horse races, cricket match, football match and numerous other sports for which prizes will be given. Steamer Merritt carries the excursion calling at Deseronto at 9:15 a. m. Fare for round trip 25 cts. Citizens' band from Piton will be on board.

Salvation Army.
The annual harvest festival will be held in the Army barracks, on Saturday, Sunday, Monday and Tuesday, August 31st, Sept. 1st, 2nd and 3rd. The barracks will be suitably decorated and there will be a public exhibition of gifts on Saturday evening. On Sunday there will be a thanksgiving service. On Monday evening there will be a sale of gifts. Admission to all these services free. The ice cream social will be held on Tuesday evening. Admission 10 cts. Capt. McKinnon and Lieut. Ollis are meeting with much encouragement in this annual festival.

An Aged Pioneer.
Our old friend Donald Anderson, of Melrose, favored us with a call last Friday. He is one of the pioneers of Tyndinaga. He was born on Feb. 16th, 1812, in the parish of Caputh, Perthshire, Scotland, and in 1850 came to Canada in response to the invitation of his two brother-in-law who had previously settled in this country. He took passage in a sailing ship at Glasgow and after a voyage of eight months and four days reached New York, whence via the Erie Canal and Oswego he came to Tyndinaga. He settled on lot 14, north range, 2nd concession of Tyndinaga, where he has resided ever since. He is still wonderfully active for a man of his advanced years. Hyment.

A quiet wedding occurred at the residence of Joseph H. Hoppes, Stanley Avenue, Deseronto, on the evening of Wednesday, 28th inst. The principals in this happy event were Saul B. Geisner, a wealthy real estate agent, of Buffalo, N. Y., and Miss Lettie V. Stokes, daughter of Richard B. Stokes, of Kingston, N. Y. The ceremony was performed in the presence of a few friends, by Rev. Rual Dean Stanton, of St. Mark's church. The pretty bride wore a new traveling dress and was attended by Miss Ida Hoppes. John Stokes was best man. After the ceremony the wedding party partook of a sumptuous collation. The bride received many handsome gifts, a diamond ring, a diamond initial pin and a cheque for a thousand dollars. He also presented the bride with a ruby ring and the best man with a pair of cuff links. The happy couple left for Buffalo on the early morning express. The bride, who is a niece of James Stokes, has been a frequent visitor to Deseronto, and has been spending her past vacation with her cousin, Mr. Hoppes. The happy young couple carry with them the congratulations of very many friends in Deseronto.

PERSONALS.
H. B. Rathbun, of Belleville, has been spending a few days in town.

Miss Theresa Meigher is visiting friends in Rochester, N. Y.

FACTS IN A FEW WORDS.

The "yellow jacket," about which so much has been heard of late, is rather a vest, than a jacket. It is made of yellow satin, and reaches to the thighs. It is fastened on the sides by buttons, and has a small pocket on the bosom, the royal dragon of China. There are but half a dozen men in the empire, who are entitled to wear it.

An ostrich in the London Zoological Gardens got hold of an attendant's chromometer watch a few days ago and swallowed it. The ostrich, which was quarter and half hours, which continued for three hours, appeared to exhibit the curiosity and created a great deal of amusement among the spectators.

Orders have been issued in New York respecting inventors' bullet-proof coats from wearing their coats while marksmen are testing them. New York people have recalled the accidental killing of Annie Van Breun by a bullet-proof coat, which occurred several years ago.

An ancient bull dug out of the ruins of an Indian city, has been found to contain gold worth \$11,000. For the Denver mint worked on it for forty-eight hours, and the discovered was handed a new brass brick worth \$4.25.

The human system can endure heat of 210 degrees, the boiling point of water, because the skin is a bad conductor and because the perspiration cools the body. Men have withstood without injury a heat of 300 degrees for several minutes.

A negro had a stroke of luck while fishing in the Flint river, near Albany. His line became tangled in something, which proved to be a lady's gold necklace, which had evidently lain at the bottom of the river for many years.

A policeman in Jersey City, finding a thief was getting away from him, jumped aboard a trolley car, impressing it into the city's service, gave chase with it, and eventually overhauled and captured his man.

Wine made from potatoes is the discovery recently made by a French chemist. It always attracts the eyes from the potato before he begins work, as his process is a secret one.

A loud clap of thunder will cause a woman to drop her claws, a coward his fins, a woman to scream, a cat to become deaf, a pig's nose to bleed, and milk to turn sour.

Ninety tiny reptiles crawled out of the body of a greater snake eaten in two by a train at Washington, Mo. Several advantages support the singular story.

Some Chinese and many Africans use the same pocket to carry coins and other small articles.

A perfectly formed face is one-third forehead, one-third nose, one-third upper and lower jaw.

A New York dog whose eyesight is affected is said wearing a pair of spectacles.

Nearly a million and a half dollars remain unclaimed in the New York savings banks.

The longest, largest and strongest bone in the human system is the femur, or thigh bone.

The size of a woman's shoe should be just half that of her torso.

Household Hints.—Grease may be removed from woolen goods by sponging it with strong cold coffee.

Finelaces may be cleaned by being packed in wheat bran and allowed to remain twenty-four hours.

Ten or chocolate should never be served with fried foods. Always serve coffee with fried oysters, fish or lobsters, also with cheese.

Two parts of crude oil and one part of turpentine remove white spots from furniture and make as good polish as one can desire to have.

A carpet formed of layers of paper, a ply of felt, and an intermediate filling of cotton wool, covered with a fine silk, producing a spring effect, is a late invention.

An agreeable way of treating the eyes with salt and soft water is to wink them in a cup that is brimful. The eyes will be sufficiently simply winking the lashes in the water.

All vegetables should be put in boiling water when set on the stove to cook. Peas, asparagus and all delicately flavored vegetables should be only covered with water, but those with a strong flavor, like carrots, turnips, cabbage, onions and dandelions should be cooked in a generous quantity of boiling water. All green vegetables should be cooked with the cover partly off the stove, so that steam will be better color and a more delicious flavor. The average housekeeper is careless as to the time of cooking vegetables, yet a vegetable is as much injured by too much cooking as by too little cooking as is a loaf of bread.

Pensive Penitents.—The wise man's motto: "If you don't see what you want, advertise for it." It is the fashion now for successful authors to give readings from their unpublished manuscripts. The unsuccessful ones could do this even better. They have more material.

The fact that there are 146,000 babies born in London every year doesn't prevent each new father from thinking that there never was a child like his in all the world.

The third river in Scotland in size is the Forth. The natives can understand that without a river in Scotland.

It has been shown that the color, yellow, both vegetable and animal, is more permanent than any other. This may account for the prevalence of the yellow dog.

Parisian cabmen are not allowed to smoke pipes while driving but they say that there is no law to prevent fares from giving them a cigar.

Well Stocked.—With her sweet, pensive face she came and at bedside her hand was laid on "Papa," she whispered, "Alfred and I are two souls with but a single thought." The old man said nothing.

"My child," he said, reassuringly, "I do not feel discouraged; that's one more than your mother and I had when we were married."

STATISTICS IN PARAGRAPHS.

Chicago's manufactured products are valued at \$60,000,000.

It is said that the New-England makes the best milk in America.

Cincinnati makes every year over \$100,000,000 worth of goods.

Philadelphia manufactures every year \$25,000,000 of material.

The manufacturers of Brooklyn are making \$25,000,000.

Utah has 4,800 factory hands, and St. Louis annually makes up and sells \$10,000,000 worth of goods.

Nebraska has 35,870 factory hands and an annual product of \$10,000,000.

The United States is the leading manufacturing country in the world.

The manufacturers of Baltimore are valued annually at nearly \$50,000,000.

The value of the manufactured products of Philadelphia exceeds \$1,750,000,000.

San Francisco manufactures each year about \$100,000,000 worth of goods.

Florida has in her factories 19,927 persons, the annual output being \$18,325,000.

Maine has 75,780 mill hands, who make annually goods valued at \$65,000,000.

Washington has 20,306 factory hands and makes \$14,700,000 worth of product.

Tennessee has 42,750 manufacturing hands and makes \$27,355,280 worth of goods.

Colored people of the South soon acquire great dexterity in the cotton mill.

Georgia has 56,383 factory hands, who make annually \$27,000 worth of goods.

South Dakota employs 2,422 hands in her factories, with \$5,682,748 worth of product.

The northeastern States manufacturing has increased to the detriment of agriculture.

Oregon has 18,768 hands in her factories and makes every year \$11,432,174 worth of goods.

Twenty years ago England produced nearly three times as much iron as the United States.

The manufacturers of Illinois employ 312,108 persons, the annual output being \$68,040,280.

Delaware has 21,021 persons engaged in its manufactures, the annual output being \$7,871,848.

Louisiana has 31,001 hands engaged in its factories, their annual product being \$7,884,715.

Minnesota employs 70,629 factory hands, with an annual output of \$192,033,478 worth of goods.

There are 1,144 persons engaged in manufacturing and makes \$2,967,611 worth of goods.

Kentucky's factories employ 65,570 hands and send out annually a product valued at \$19,719,877.

Kansas has 32,843 mill and factory hands making every year a product valued at \$10,919,803.

The factories of Indiana furnish employment to 124,849 persons, the output being \$228,825,000.

Colorado has 17,067 employees in its factories, making annually a product valued at \$12,435,255.

In Arkansas 15,972 persons are employed in manufacturing, who turn out a product valued at \$69,174.

California has 83,643 employed in its factories, turning out an annual product of \$213,408,996.

RELIGIOUS NOTES.

There is a flourishing Young Women's Christian Association in Calcutta, India.

The First Congregational Church, Bridgeport, Conn., will celebrate its 30th anniversary June 19 and 30.

It is interesting to note that in Scotland they have established Christian Endeavor Societies among the blind.

General Booth has forbidden Salvation Army people to belong to any secret societies or to retain their membership in churches.

The oldest universalist minister in the United States is Rev. H. Lucius B. Paul of Cambridge, Mass. He was ordained in 1820.

The German Evangelical Presbyterian Missionary Society has recently opened a theological academy at Tokio. Its library has 9,000 volumes.

There has been great encouragement in regard to Japan, 70,211 separate gospels and 1,449 new testaments having been distributed among the soldiers.

The Presbyterians of Belfast, in order to meet the rapid growth of the city, have resolved to raise a fund of £20,000 towards the erection of ten new churches.

"Le Signa," the only French Protestant daily journal, has now attained a year of existence and is steadily gaining support among the French Protestant population in Scotland.

John McNeil has just returned to Scotland after a wonderful trip of evangelistic labor in Australia, South Africa, and India, where he closed his work in Bombay.

The United Presbyterian Church proposes to reduce the membership of its local assembly from 375 to 38.

They want a less expensive and more manageable body.

Fifty-four ministers, eighteen from each of the three Presbyterian bodies in Scotland have for some time been engaged in drawing up a scheme for Presbyterian union in Scotland.

There is one missionary to every 50,000 Jews in the world. Altogether there are forty-nine societies at work with 12 stations, and a total of 84 workers, ordained or not ordained.

Dr. Talmage says that "the proposition to open saloons on Sundays in New York is the greatest insult to decency and religion that has been offered since the discovery of America."

During the last four years there have been 850,000 in the City of Chicago forty new Methodist ministers, valued at nearly \$250,000.

Of these thirty-one have become self-supporting.

In less than two years the Brotherhood of Andrew and Philip has extended into thirteen denominations, and it now has chapters in more than twenty-five churches in the nation and in Canada.

The Christian Adolphe notes, published in Durham, Me., with a population of 1,233, has furnished thirty Methodist ministers, and how many of other denominations.

Special efforts have been made by the Y.M.C.A. in Germany to reach the 500,000 young men in the army of that country. The results are as yet comparatively small, but are nevertheless encouraging.

In Japan there are more than 1,200 places where Christianity is taught. There are 7,000 Protestant schools, and every year about 1,800 young persons go out from these schools into the life of the nation.

The Young Men's Christian Association is doing a wonderful work in the colleges of the world. In 1894 there were 455 college associations with 30,000 members. This does not

Entirely Free, in plain sealed cover. "A refuge from the quacks." Address

ERIE MEDICAL CO., Buffalo, N.Y.

NEWS OF THE DAY.

Dr. Bardett of Belleville is dead. Mr. James Burns of Hamilton was killed by an H. & D. train, and an inquest will be held.

Harvesting continues under favorable conditions in Manitoba, and some phenomenal yields are reported.

Mr. David B. Moss of Mountbatten was found dead in a culvert, where it was supposed he fell on his way home from church.

Four of the leaders of the attack recently made by natives upon the Christian missions at Kuching have been executed.

The body of Mr. A. T. Douglas, one of the victims of the steamer Fire, five two years ago, has been recovered from Lake Nipissing.

The C. P. R. is restoring its officials' wages to the former rate.

Mayor Isaac Preston, formerly of Durham County, died at Vancouver.

Dr. McMeister has been appointed Principal of the Technical School.

Mr. G. F. Pearson of Selkirk was thrown from his horse and killed.

Postmaster Knight of Swift Current dropped dead while sorting the mail.

Eight women were burned to death in a fire in the convent of Ribou, 1847.

Capt. James Murray, the well-known contractor, died suddenly at his residence in St. Catharines.

The last Mr. Warden King of Montreal. Left several bequests to Presbyterian church schemes.

Detective Geyer, after a long search, has unearthed the remains of little Howard Pictel in a cottage occupied by Holmes at Indianapolis.

Prof. John Fletcher of Queen's University has been appointed professor in Latin and Mr. F. L. Smale lecturer in chemistry at the University of Toronto.

J. C. Prevost, Registrar of the Supreme Court, has disappeared from Victoria, B. C. Audit of his books is being made. His arrest and detention have been ordered, and the Provincial police are endeavoring to locate him.

LADIES OF DESERONTO.

Our assortment of ladies' oxford shoes, in tan color and black, are much superior to any we have ever had. We have taken special care in selecting goods for this department. Call and inspect them when in Napane or Belleville. Prices range from 60c up to \$1.00, an extra quality shoe for \$1.00, ladies' & Lockett, 4 big stores.

METHODIST CHURCH.

Good congregations greeted the pastor at both services last Sunday, and the League meeting on Monday evening was well attended.

The "Lament Workers" are making things go apace. September 15 will be the final winding up of their work, when they will bring in reports of accounts raised and how done. It is expected to be the event of the season. A sociable will be held in connection with it.

Services next Sunday at usual hours. Everybody welcome.

The best cough cure is Hagar's Pectoral Balm. It heals the lungs and cures coughs and colds.

Now that the nights are growing longer and you find, when reading by gas or lamp light, it necessary to hold the paper farther from you, consult our expert Optician at once. He tests your eyes free and puts you for glasses only when they are required.

Angus McFee & Co., 310 Front St., Belleville.

ARE YOU DEAF?

Or do you suffer from noises in the head? Then send 3 cent stamp and I will send a valuable treatise containing full particulars for home cure which costs comparatively nothing. A splendid word on deafness and the ear. Address, PROF. G. CHASE, Montreal.

THE BUBBLES WINKING AT THE BRIM.

It is now beyond all cavil. The test has been made. The results have been satisfactory. You can have a good wine for a trifle. Wine has made glad the heart of men from time immemorial. It has made him eloquent; it has cheered him in his loneliness; it has made him forget his troubles, at least in countries into which it had been imported. The Bordeaux Claret Co. will sell you an excellent wine at \$3 and 8 per dozen quarts. This they have been doing for some time past to the whole people. All are delighted. The orders are pouring in. A sound wine, thoroughly wholesome, making blood and muscle. Address: Bordeaux Claret Co., 30 Hospital Street, Montreal.

WILL PITCH HIS TENT.

Arrangements have been made by Mr. F. W. Hudson, Superintendent of Farmers' Institutes and Secretary of Associations, to temporarily move his office from the Ontario Agricultural College, to the new Agricultural Exhibition grounds Toronto. From Sept. 21 to 14 he will, with Mr. J. W. Wheaton, Secretary of the Ontario Dairywomen's Association, occupy a tent situated east of the cattle ring, and in front of the horse and calf sheds. One or more members of the college staff will be there during the greater part of the time.

Officers and members of all Farmers' Institutes, of Live Stock, Dairy, Poultry, Fruit Growers' and kindred associations, are invited to make this tent their headquarters during the time of the Exhibition.

Mr. Hudson will be pleased to meet all members of Institutes and kindred associations to discuss with them the means to advance the work of the Institutes in their respective districts. On Tuesday, Sept. 10th, at 1 p. m. the officers and directors of the Dominion Sheep Breeders' Association will convene in the tent to consider the report of the committee appointed at the last meeting of the associations to consolidate the by-laws and re-draw the constitution of each association. At 2:30 p. m. the members of this association will meet to consider the report of the officers and directors on the constitution and by-laws, and to consider their action at the last meeting in appointing delegates to meet the Minister of Agriculture to consider the record question. But two delegates are allowed to each association. At the last meeting seven were elected; therefore a new election must be held. On Tuesday, Sept. 10, at 8 p. m. the officers and directors of the Dominion Swine Breeders' Association will meet to consider a similar report; and at 8 p. m. the members of this association will convene to re-select a Record Committee to meet the Minister at the case of the Dominion Sheep Breeders' Association and to consider the report of the officers and directors regarding the revision of the constitution and by-laws. Wednesday, Sept. 11, at 7 p. m. the members of the Dominion Cattle Breeders' Association will convene to consider the report of the committee appointed to draft a new constitution and by-laws.

TORONTO OPERA HOUSE.

DAN MCCARTHY, THE BRILLIANT IRISHMAN, TO PLAY DURING THE FAIR, SEPT. 2 TO 14.

With the death of Dion Boucicault, the unfortunate mental collapse of W. J. Scanlan, and the retirement of Joseph Murphy, the stage has lost but one legitimate exponent of Irish character. Dan McCarthy, the announcement of whose appearance at the Toronto Opera House during the weeks of the Canada Great Fair, should be greeted with pleasure by the patrons of that popular theatre, as well as intending visitors to this year's exposition. The engagement, which will embrace no less than six performances, will be the most extensive ever played in Toronto by a theatrical star, and will be staged in the same sumptuous manner and interpreted by the same excellent cast as during their extended runs in New York, Boston and Philadelphia.

Mr. McCarthy is a national in all his methods and does no violence to the traditional Irishman of the stage, hence his popularity with the Irish people. The story of an Irishman is full of earnestness and humor, and he makes him a live, light-hearted boy, ready for a song or a fight or a dance or a bit of mischief. He pleases his audience in all that he does.

"Every time I see Mr. McCarthy I think he is a new man," said an English lady said to her escort in Buffalo recently, while some of the laughter caused by the "Pride of Mayo" still remained to brighten her face. And she was not the only one acquainted with Irish character who might have uttered a like sentiment. The Irish have been the most maligned of all races. To be sure, some of the prejudices against them, in this country at least, has disappeared, but the stage still remains some. The prejudice has been heightened by the present time, the stage of the most ridiculous and brutal pictures of Irish life. Its almost total obliteration has been effected by the same means, through the same medium that was used in strengthening it—the stage. It needed only that Irishman who was so successful in repelling the public faithfulness that they should be appreciated, and the need was met by such men as Dan McCarthy, and by none more than him. He certainly deserves everlasting praise from his countrymen for his good work, and the Irish can hardly perform a more religious act than praising that his voice may long be preserved to him.

All of Mr. McCarthy's plays are written by himself, as are his songs, and the success of "The Craikkeen Law," "Dear Irish Boy," "True Irish Hearts," "McCarthy's Cat," "The Greenhorn," "The Rambler from Clare," and "The Pride of Mayo" have made him famous and wealthy.

Mr. McCarthy's supporting company this year is perhaps the best and best ever carried by an Irish comedian, including the charming subreptic, Miss Lou Ripley, than whom more explicitly comic person does not appear in Irish comedy.

Much of Mr. McCarthy's success of late years has been achieved by his attention to the details of production. Few indeed are the travelling attractions that are better equipped than his. His admirers have come to know and appreciate this fact, and the result is that he always plays to crowded houses.

ST. MARK'S CHURCH NOTES.

The Rev. W. Lewin preached at both services on Sunday. He and Mrs. Lewin left for their new home in Kingston on Monday, both much benefited in health by their visit to Deseronto.

A meeting of the congregation was held on Wednesday evening to consider and discuss matters financial.

Mr. Briscoe's Bible classes will resume their studies next week, one being held on Sunday afternoon in the church, the other on Tuesday evening at Mr. Briscoe's residence. A cordial invitation to attend is given to all young men and women (and the word "young" is used in its most elastic sense) who are willing to spend a profitable hour in developing their store of religious ideas and information.

The Rev. J. H. H. Coleman was ordained Priest by the Archbishop of Ontario, in the Cathedral, Kingston, on Saturday, Oct. 5. Sunday he took part in the service in St. James' church, Kingston.

Service this (Friday) evening at 7:45. It is hoped that the advent of cooler weather, these week night services will show an increase of attendance.

There will be a service of the Brotherhood of St. Andrew on Wednesday evening next.

DIVISION COURT.

HELD AT DESERONTO, 23RD AUGUST, 1895, HIS HONOR JUDGE LAZIER PRESIDING.

Dr. Holdcroft v. James M. Smith.—Claim on an account. Defendant having satisfied claim, in accordance with judge's order made last Court, case was withdrawn.

Richard Sellars, M. D. v. Catharine Callaghan, administratrix of the estate of Arthur Callaghan, deceased. The Rathbun Company garnishee. Claim on an account. Settled inter partes.

Mills & Co. v. A. E. Gracey. Claim on an account. Stands to next Court for further evidence. Mr. Morphy (Napane) for plaintiff.

Thomas Gault v. J. T. Topplings. The Rathbun Company garnishee.—Claim on an account. Judgment for primary creditor. Mr. Bedford for garnishee.

William Stoddart v. John Walker.—Claim on an account at request of defendant's counsel, case laid over to next Court, on payment by defendant of the costs of the day. Mr. Derocoe for plaintiff, Mr. Bedford for defendant.

T. W. Simpson, M. D. v. David Elliott. Claim for rent. Settled inter partes.

The Rathbun Company v. George Booth. Judgment summons after default. Enlarged to next Court. Mr. Bedford for plaintiffs.

Mrs. M. A. Wenden v. W. G. Sessmish. Judgment summons. Settled inter partes.

John Dalton v. A. B. Leggett. Judgment summons. Order made.

John Dalton v. George McMullen. Judgment summons. Order made.

John Dalton v. John Johnson. Judgment summons. Consent order made.

Ellen, relict of the late Jeremiah Harley, died on Tuesday at Belleville, aged 94 years and 6 months. She was born in County Cork, Ireland, and came to Canada in 1842, residing in Prince Edward, Tyendinaga and Belleville. Her husband died 22 years ago.

Solar Eclipse.

There will be a total eclipse of the moon on the night of September 4th—the second eclipse of the lunar orb this year. Entering the shadow at 11 o'clock, the moon will be completely immersed at 6 minutes after midnight.

Obituary.

It is our sad duty to record the death of Mrs. G. A. Bilton who died at her residence, Mount Pleasant, on Tuesday, aged 25 years. Deceased, whose maiden name was Annie E. Clark, a daughter of S. B. Clark, of Deseronto, was ill for only a few weeks. She was only married about five months ago. She was educated at the Branford Institute and showed great aptitude in her studies, excelling in music. She officiated as organist for some time at the West End Mission. The funeral, which was under the direction of D. W. Dart, took place on Wednesday afternoon, religious services being conducted at the Mount Pleasant church and the interment taking place in the adjoining cemetery. The bereaved husband and family have general sympathy in their great trouble.

TAUGHT THE YANKEES TO LAUGH.

So said an eminent Frenchman of Oliver Wendell Holmes.

Discussing the late Oliver Wendell Holmes, an eminent Frenchman once said that it was he who had taught the Yankees to laugh. His feet's wit was his such as put everyone around him in the best of humor.

It was Holmes, who said that although he was Irish who tempted him to eat, he had an idea that he had nothing to do with his drinking, for he undoubtedly took to that on his own account. Then the poet took his cigar from his lips and remarked: "I really must not smoke so persistently, I must turn over a new leaf—a tobacco leaf—and have a cigar only after each meal"—and as most of those present imagined he was about to say "meal," he continued "after each meal."

Leaving back in his chair he added—"A foreigner is an alien; a foreigner who drinks too much is an alcoholic; and why should not a Yankee who smokes too much be called an alcoholic?"

When dining with Lord Coleridge, the son of a lawyer, he was once taken to the American man of the Bar, Holmes said that the poverty of the American lawyer and the wealth of his client was his glory. On another occasion Mrs. Siddons was being discussed and some one said that the statesman Fox had been smitten by the great actress. To this the poet replied that from all he had ever heard of her he could not understand a man falling in love with her. His reason was that she was so grand that a man might as well fall in love with the Pyramids. She might have been loved by the "Bible" of the poets of Cookham or a Board of Aldermen but it was beyond the range of possibility that one man could ever love her.

After he had been introduced by a delegation of Westerners, some one asked him how he liked it. Like "her" he said "I felt like the small elephant at the Zoo with a cheap excursion party on his back."

Professor Agassiz, he used to say, was the "Lobli" extract of the wisdom of ages. "And," he would add, "whenever he goes off on long voyages to remote islands I help him by thinking of the wisdom of the animals would have if they had such an extract."

THERE ARE THREE

Things to consider in ordering Clothes—Style, Quality and Price. Style includes a perfect fit. Quality the best material. Price that which you can pay without giving your pocket-book a pain.

We have learned these points by heart, and know our lessons to a T. Let us prove it by taking your measure for a Summer Suit at Summer Prices, which you know means low prices.

W. STODDART,

The popular Tailor, Deseronto, Main Street.

D. W. DART.

Manufacturer and Dealer in

FINE FURNITURE

—AND—

UNDERTAKING.

Our WAREHOUSES are the largest and most complete to be found in Ontario.

Fine Furniture, Pianos, Organs, Sewing Machines, Carpets of all kinds, Oil Cloth, Curtain Poles, etc.

—THE CELEBRATED—

Karn Pianos

and Organs

which I carry, the largest and finest display ever seen in Deseronto. I invite competition.

Old Pianos and Organs taken in exchange.

Special attention will be paid to our Undertaking Department.

Our Factory

Is complete with the latest working machinery, and we are prepared to do all kinds of wood work, etc. Repairing a specialty. All work done with dispatch, and satisfaction guaranteed in all departments. I invite the public's general inspection.

D. W. Dart,

EDMUND ST., MARKET SQUARE.

CATHARIN BELIEVED IN 10 TO 60 MINUTES

—One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catharin Powder, diffuses this Powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catharin, Hay Fever, Colds, and all the Throat, Throat, Throat, Throat, and Throat. 60 cents. At W. G. EGAN.
